

SUSTAINABLE ECONOMIC DEVELOPMENT — FULL MIND MAP

Topic-wise · Fully Explained · Hinglish · SSC / BPSC / BSSC / Railway

Topics in this chapter:

1. SDGs in India — NITI Aayog, Global Reports & India's Rank
2. SDG India Index — State Categories, Rankings & Urban Index
3. 17 Sustainable Development Goals — High-Yield Mapping
4. Sustainable Development — Meaning, Brundtland & Agenda 21
5. Limits to Growth, Environmental Kuznets Curve & Carrying Capacity
6. Circular Economy, Sustainable Models, Tourism & Blue Economy
7. Social Capital — Trust, Cooperation & Shared Identity
8. Human Capital Formation — Sources, Skills & Productivity
9. Inclusive Growth & Inclusive Governance
10. Economic Survey — Sustainable Development & Climate Change

1. SDGs in India — NITI Aayog, Global Reports & India's Rank

- India mein Sustainable Development Goals (Agenda 2030) ke coordination aur implementation ki nodal institution NITI Aayog hai. [Q1]
- SDG rankings year-specific hain: 2016 mein India 110th, 2017 mein 116th, Sustainable Development Report 2023 mein 112th, 2024 mein 109th aur 2025 mein 99th/167 (score ~67) raha; 2024 aur 2025 dono reports mein Finland top par hai. [Q2, Q3, Q4]
- Annual SDG progress information global indicator framework aur national statistical systems se compile hoti hai aur UN Secretary-General annual Sustainable Development Goals report present karte hain. Global Sustainable Development Report (GSDR) quarterly nahi, generally 4-year interval par aati hai. [Q19]
- SDGs ki global success ke liye India ki success important hai, kyunki duniya ki lagbhag one-sixth population India mein rehti hai; isliye India ka progress global population-weighted indicators ko strongly affect karta hai. [Q24]

EXAM TRAP — SDG Rank is Year-Specific

- ▶ SDG rank year-specific hai: 2016 → 110th; 2017 → 116th; 2023 → 112th.
- ▶ Later updates mein 2024 → 109th aur 2025 → 99th/167 report hua; older rank ko current rank se replace na karein.

[Q2, Q3, Q4]

2. SDG India Index — State Categories, Rankings & Urban Index

- NITI Aayog SDG composite-score categories: Aspirant 0-49, Performer 50-64, Front Runner 65-99 aur Achiever 100. [Q11]
- SDG India Index 2019-20 mein Uttar Pradesh 'Performer' category mein tha aur Kerala combined state ranking mein first tha. SDG India Index 2023-24 mein Uttar Pradesh 'Front Runner' (score 67) hai aur 2018 se 2023-24 ke beech +25 score improvement ke saath fastest-progressing states mein raha. [Q5]
- SDG India Index 2019/2019-20 ke state ranking context mein Kerala first tha. 2020-21 Index ('Partnerships in the Decade of Action') mein Kerala first, Himachal Pradesh & Tamil Nadu second, Andhra Pradesh/Goa/Karnataka/Uttarakhand third, Sikkim fourth aur Maharashtra fifth; Gujarat top-five mein nahi tha. [Q6, Q7, Q9]
- SDG India Index 2023-24 mein Kerala aur Uttarakhand joint-highest score 79 par the; Tamil Nadu 78, Goa aur Himachal Pradesh 77. Bihar 57 ke saath lowest aur Jharkhand 62 par tha. [Q8]
- 2019 composite-index context mein Kerala, Tamil Nadu aur Himachal Pradesh Front Runners the; Gujarat Front Runner nahi tha. [Q10]
- SDG Urban Index & Dashboard 2021-22 mein Shimla 75.50 ke saath top tha; Coimbatore 73.29, Chandigarh aur Thiruvananthapuram 72.36, Kochi 72.29. Indore top-three mein nahi tha. [Q12]

⚠️ EXAM TRAP — State Ranking Changes by Edition

- ▶ 2019-20, 2020-21 aur 2023-24 SDG India Index editions ki State rankings/categories alag hain; exact edition dekhein.
- ▶ Uttar Pradesh 2019-20 mein Performer tha; 2023-24 update mein score 67 ke saath Front Runner category mein aaya.

[Q5, Q6, Q7, Q8, Q9, Q10, Q11, Q12]

3. 17 Sustainable Development Goals — High-Yield Mapping

- SDG 6 = Clean Water and Sanitation — 2030 tak water aur sanitation ki availability aur sustainable management for all ensure karna. [Q13]
- SDG mapping: Goal 1 No Poverty; 2 Zero Hunger; 3 Good Health & Well-Being; 4 Quality Education; 5 Gender Equality; 6 Clean Water & Sanitation; 7 Affordable & Clean Energy; 8 Decent Work & Economic Growth; 9 Industry, Innovation & Infrastructure. [Q14, Q15]
- SDG 10 Reduced Inequalities; 11 Sustainable Cities & Communities; 12 Responsible Consumption & Production; 13 Climate Action; 14 Life Below Water; 15 Life on Land; 16 Peace, Justice & Strong Institutions; 17 Partnerships for the Goals. [Q14, Q16, Q17]
- SDG 15 'Life on Land' terrestrial ecosystems, forests, desertification aur biodiversity loss se related hai. Contrast: SDG 14—Life Below Water; SDG 13—Climate Action; SDG 16—Peace, Justice & Strong Institutions. [Q17]
- SDG 4 Quality Education ke liye free & compulsory education, teachers ki sankhya badhana, basic-school infrastructure improve karna, education financing ko investment priority banana aur digital transformation adopt karna include karta hai; agricultural-program expansion is Goal 4 ka part nahi hai. [Q18]

4. Sustainable Development — Meaning, Brundtland & Agenda 21

- Sustainable development ka accepted core: present needs ko meet karna bina future generations ki apni needs meet karne ki ability compromise kiye; environmental protection ke saath development. Isliye inter-generational welfare iska central idea hai. [Q23, Q25, Q28, Q30, Q31, Q33, Q34, Q35]
- 1987 World Commission on Environment and Development (WCED) ki report 'Our Common Future' / Brundtland Report ne sustainable development concept ko genuinely develop/popularize kiya. [Q25, Q26, Q28, Q33]
- Agenda 21 ko 1992 Rio de Janeiro Earth Summit / UN Conference on Environment and Development mein world leaders ne approve kiya tha; 1995 is event ka year nahi hai. [Q23]
- 'Sustainable development' term ka earliest international-document use 1980 ki 'World Conservation Strategy' mein milta hai, jo IUCN ne World Wide Fund ke support se publish ki thi. [Q27]
- Environmental-development literature ke important works: Rachel Carson ki 'Silent Spring' (1962) aur Paul R. Ehrlich ki 'The Population Bomb' (1968); 'The Population Bomb' ke author Paul R. Ehrlich hain. [Q26, Q28, Q29, Q33]
- Sustainable development ka basic idea natural resources ko present needs ke liye use karte hue future generations ki needs aur resource availability ko compromise na karna hai; depletion minimum rakhna aur long-term balance maintain karna core principle hai. [Q28, Q30, Q31, Q33, Q34, Q35]

⚠️ DATE CHAIN — Concepts Ko Mix Mat Karna

- ▶ 1962 Silent Spring → 1968 The Population Bomb → 1980 World Conservation Strategy mein term → 1987 Brundtland Report.
- ▶ Agenda 21 = Rio Earth Summit 1992; 'The Limits to Growth' = Club of Rome, Brundtland Report nahi.

[Q23, Q26, Q27, Q28, Q29]

5. Limits to Growth, Environmental Kuznets Curve & Carrying Capacity

- 'The Limits to Growth' Club of Rome se associated hai. Club of Rome 1968 ke Rome meeting se evolve hua. [Q20]
- Meadows et al. ki 1972 'Limits to Growth' analysis ne warning di ki population, industrialisation, pollution, food production aur resource depletion ke existing trends continue rahe to long-term growth limits face ho sakti hain; later updates ne overshoot risks ko further highlight kiya. [Q21]
- Environmental Kuznets Curve (EKC) environmental degradation aur per-capita GDP ka relationship dikhata hai: initial growth ke saath degradation badhta hai, ek level ke baad trend reverse hota hai—shape inverted U hai. [Q22]

- Sustainable development carrying capacity se closely linked hai—ecosystem/resource ki maximum sustainable support capacity ko exceed kiye bina present needs meet karna. [Q32]

6. Circular Economy, Sustainable Models, Tourism & Blue Economy

- Circular economy raw-material use aur production/consumption waste ko reduce karke greenhouse-gas emissions ko kam karti hai. Raw-material use aur waste reduction greenhouse-gas emissions ko kam karne ka direct mechanism hai. [Q36]
- Neemrana, sustainable economic development ke model ke roop mein Rajasthan ke Alwar district mein located hai. [Q37]
- Sustainable tourism ka objective tourism development ko cultural integrity, ecological processes aur environmental protection ke saath balance karna hai. UNWTO goals mein economic viability, local prosperity, employment quality, social equity, community wellbeing, cultural richness, biological diversity, resource efficiency aur environmental purity shamil hain. [Q38]
- Blue Economy ke sustainable-development partnership ke liye India-Norway Taskforce Norway ke saath hai. Prime Ministers ne January 2019 mein jointly launch kiya; February 18, 2020 ko ministers ne initiative ko formally launch/advance kiya. [Q39]

7. Social Capital — Trust, Cooperation & Shared Identity

- Social capital ka meaning society ke logon ke beech mutual trust, shared values, cooperation, common understanding, shared identity ki feeling aur interpersonal relationships se hai. [Q40]

8. Human Capital Formation — Sources, Skills & Productivity

- Human capital formation ka core process knowledge, skill levels aur capacities ko increase karna aur intangible assets (knowledge, ethics, intellectual property etc.) accumulate karna hai. Tangible wealth/capital accumulation iska result ho sakta hai, process ka direct definition nahi. [Q41]
- Education mein investment human resources ko human capital mein convert karta hai. Human-capital formation ke major sources education, on-the-job training, health, migration aur information hain; irrigation ka direct role human-capital formation mein nahi hota. [Q42, Q44]
- Skilled, healthy aur educated citizens ko human capital kehta hai. PM Kaushal Vikas Yojana ko Union Cabinet ne 20 March 2015 approve kiya; scheme youth skill-training, refined curriculum, better training aur trained instructors par focus karti hai. [Q43]
- Human capital mein education, health aur skill development par expenditure productive capacity, lifetime income aur employment opportunities badhata hai; productivity gain isi investment ka direct outcome hai. [Q45]
- Human-capital investment ka simple chain: skill development → resources ka better use → productivity increase. [Q46]
- World Bank Human Capital Index 2020 mein Singapore score 0.88 ke saath first; Central African Republic 0.29 ke saath bottom; India 0.49 score ke saath 116th. [Q47]

⚠ EXAM TRAP — Process vs Result

- ▶ Human capital formation ka process knowledge, skills, capacity aur intangible human wealth build karna hai.
 - ▶ Tangible capital accumulation is process ka possible result ho sakta hai; result aur process ko ek hi concept na samjhein.
- [Q41, Q42]

9. Inclusive Growth & Inclusive Governance

- Inclusive growth ka core idea growth ke benefits, resources aur facilities ko society ke sabhi sections tak pahunchana hai; weaker/lower-income sections par special focus ke through economic aur social inequalities reduce ki jaati hain. [Q48, Q49, Q51]
- Inclusive growth sirf high national-income growth rate nahi hai. Better education, health, employment opportunities, basic facilities aur poverty reduction iske major dimensions hain. [Q49]

- Inclusive governance mein effective district planning/committees, public-health expenditure increase aur mid-day meal scheme ko strengthen karna include hai; NBFCs ko banking permission dena inclusive-governance component nahi hai. [Q50]
- Government ke inclusive-growth target ko SHGs, MSMEs aur Right to Education Act—teenon support kar sakte hain: SHG/MSME livelihoods ko strengthen karte hain aur RTE deprived children ko education aur mainstream access deta hai. [Q51]

10. Economic Survey — Sustainable Development & Climate Change

- Economic Survey 2011-12 mein pehli baar 'Sustainable Development and Climate Change' ka separate/new chapter add kiya gaya tha. [Q52]
