

HUMAN DEVELOPMENT — FULL MIND MAP

Topic-wise · Fully Explained · Hinglish · SSC / BPSC / BSSC / Railway

Topics in this chapter:

1. Development — Meaning, Stages & Measures
2. PQLI — Physical Quality of Life Index
3. UNDP, HDI Origin & Capability Approach
4. HDI — Dimensions, Components & Methodology
5. Global HDI — Report-Year & Ranking Facts
6. Nutrition & Human-Centred Development Warnings
7. Gender Inequality & Comparative Human Development
8. Gross National Happiness & World Happiness Report
9. Universal Declaration of Human Rights — Key Rights
10. India — State Human Development Reports & Rankings
11. Bare Necessities Index (BNI)
12. State Health Index — NITI Aayog
13. Education Development & School Enrolment

1. Development — Meaning, Stages & Measures

- Auguste Comte ne apni book 'The Positive Philosophy' mein social development ka three-stage law diya: theological → metaphysical → positive stage. [Q1]
- Development ka matlab sirf income growth nahi, balki standard of living aur welfare mein improvement bhi hai. Per-capita income ka increase akela sufficient measure nahi hai; Income growth welfare improvement ka ek hissa hai, complete definition nahi. [Q2]
- Economic Survey 2018-19 ke wording mein Indian states ki HDI aur SDG rankings ke beech positive correlation hai, kyunki SDG ke basic dimensions education aur health se closely interrelated hain. [Q3]
- Development measures ka chronological order: Per Capita Income → PQLI → HDI. HDI ko UNDP ki Human Development Report mein 1990 se publish kiya gaya. [Q4]

2. PQLI — Physical Quality of Life Index

- PQLI Morris D. Morris ne develop kiya. Isme life expectancy, infant mortality rate aur literacy ko combine kiya jata hai. [Q5, Q6]
- PQLI scale ka maximum 100 aur minimum 1 hai; 100 ki taraf movement better physical quality of life ko indicate karta hai. [Q5]

3. UNDP, HDI Origin & Capability Approach

- Human Development Report (HDR) UNDP publish karta hai. Pehli HDR 1990 mein aayi aur isi report ke under HDI ka first version develop/publish hua. [Q7, Q8, Q11]
- HDI development ka leadership credit Pakistani economist Mahbub-ul-Haq ko diya jata hai; Prof. Amartya Sen aur other economists ne collaborate kiya. HDI development ka standard attribution Mahbub-ul-Haq ke leadership aur Amartya Sen sahit multiple economists ke contribution ko deta hai. [Q10, Q11]
- Prof. Amartya Sen se 'Capability Approach' associated hai. UNDP ne development ke human aspect par early focus kiya aur income ke saath health aur education ko bhi important maana. [Q12, Q13]
- UNDP ne HDR 1996 mein Capability Poverty Measure (CPM) introduce kiya. Isme deprivation in healthy/nourished life, healthy reproduction aur education/knowledge measure ki jati hai; child malnutrition aur 15+ female illiteracy relevant indicators hain. [Q9]

4. HDI — Dimensions, Components & Methodology

- HDI ke three core dimensions health, education aur standard of living/income hain. Current methodology mein health = life expectancy at birth; education = mean years + expected years of schooling; living standard = per-capita GNI on PPP basis. [Q14, Q19, Q22]
- 2010 se pehle HDI income dimension mein per-capita GDP use hota tha. older methodology mein literacy + life expectancy + real per-capita GDP adjusted for purchasing power relevant combination tha. [Q14, Q15]
- Older HDI methodology mein life-expectancy goalposts minimum 25 years aur maximum 85 years liye jate the. [Q16]
- Social inequality traditional HDI ke three direct components mein nahi thi. Isi tarah 'health and nutrition' separate component ke roop mein nahi tha aur urbanization bhi 1990 HDI calculation ka component nahi tha. [Q17, Q18, Q20, Q21]
- HDI ranking improvement context mein more children going to school + more adults becoming literate (3 and 4) relevant combination tha, kyunki education dimension improve hota hai. [Q30]

5. Global HDI — Report-Year & Ranking Facts

- HDR 2021-22 (2021 data) mein Hong Kong rank 4, Australia 5, Japan 19, Russia 52 aur India 132 tha. HDR 2025 ke HDI 2023 data mein Australia 7, Hong Kong 8, Japan 23, Russia 64 aur India 130 hai. [Q23]
- HDR 2021-22 mein India ka rank 2020 ke 130 se 2021 mein 132 hua. HDR 2025 mein HDI 2023 ke liye India rank 130 hai; 2022 rank revised 133 diya gaya hai. Report year aur data year ko alag rakhein. [Q24]
- HDI 2023 ranks: China 78, Brazil 84, South Africa 106 aur India 130. HDI rankings ko hamesha relevant report/data year ke saath padhein. [Q25]
- Human Development Report 2020 ke historical mein India ka HDI rank 131 diya gaya tha. [Q26]
- HDR 2015 data: India 130th among 188 countries; HDI life expectancy, education aur per-capita income par based; India BRICS countries mein lowest. [Q27]
- HDR 2018 mein Norway HDI ranking mein top tha. HDR 2025 ke HDI 2023 data mein Iceland first, Norway aur Switzerland joint-second, South Sudan 193rd aur India 130th hai. [Q28]

EXAM TRAP — HDI Rank/Year Context

- ▶ 2014 aur 186 countries ka combination relevant HDR editions se match nahi karta.
- ▶ HDR 2015 (2014 data): India rank 130/188; HDR 2014 (2013 data): India rank 135/187. Report-year aur data-year ko saath padhein.
- ▶ Historical entry disputed hai, kyunki printed year/country-count relevant HDR editions ke saath align nahi karta.

[Q29]

EXAM TRAP — HDI Rank — Report Year vs Data Year

- ▶ HDR release-year aur HDI data-year alag ho sakte hain; ranking ko hamesha dono context ke saath padhein.
- ▶ HDR 2025 / HDI 2023 ke updated ranks older report-year figures ko historical context mein hi chhodte hain.

[Q23, Q24, Q25, Q26, Q27, Q28, Q29]

6. Nutrition & Human-Centred Development Warnings

- Human Development Report 1997 ke fact 4 saal se kam age ke Indian children mein 53% ko proper nutrition nahi milta tha. [Q31]
- HDR 1996 mein UNDP ne developing countries ke economic-development path ke undesirable forms ko 'jobless, rootless, ruthless, voiceless and futureless' kaha aur policy-makers ko in issues par dhyani dene ko kaha. [Q32]

7. Gender Inequality & Comparative Human Development

- Gender Inequality Index (GII) UNDP ki Human Development Report 2010 mein introduce hua. [Q33]
- Asian-country table se clear hai ki higher adult education har case mein automatically lower infant mortality ensure nahi karta; Malaysia aur Indonesia dono 84% adult education ke bawajood IMR 11 vs 47 the. [Q34]
- Usi table mein Korea ka human-development performance best tha: life expectancy 71.7 years, adult education 98% aur infant mortality 6 — displayed countries mein favourable combination. [Q35]
- HDR 2025 India ki life expectancy at birth 1990 ke 58.6 years se badhkar 2023 mein 72 years hui; men 70.5 aur women 73.6 years diye gaye hain. [Q36]

8. Gross National Happiness & World Happiness Report

- Bhutan ne 1972 mein King Jigme Singye Wangchuck ki initiative par Gross National Happiness (GNH) ko progress/well-being indicator ke roop mein choose kiya. GNH/happiness measurement context mein life satisfaction, life expectancy aur environment ko elements batata hai. [Q37, Q38, Q39]
- World Happiness Report 2024 mein India 143 countries mein 126th tha. China, Nepal, Pakistan aur Myanmar India se upar the; Sri Lanka, Bangladesh aur Afghanistan neeche. 2025 report mein India 118/147 tha. [Q40]
- World Happiness Report 2023 mein India 126th out of 137 tha. World Happiness Report 2025 mein Finland, Denmark aur Iceland top three hain; India 118th hai, aur Afghanistan, Sierra Leone aur Lebanon bottom three hain. [Q41]

9. Universal Declaration of Human Rights — Key Rights

- Universal Declaration of Human Rights mein Article 26(1)—right to education; Article 21(2)—equal access to public service; Article 25(1)—right to food/basic standard of living se related hai. [Q42]

10. India — State Human Development Reports & Rankings

- State-level Human Development Report release karne wala India ka first state Madhya Pradesh tha; first report 1995 mein release hui. [Q43]

- Indian Human Development Report ke sample-village data framework mein education-related, health-related aur infrastructure/amenities indices included the; unemployment-related index included nahi tha. [Q44]
- 2001 HDI data mein Kerala highest among these States tha; data 2019 context mein bhi Kerala ko top aur Bihar ko bottom batata hai. 'Most developed state' context mein bhi Kerala top tha. [Q45, Q46]
- 2001 HDI descending order among compared states: Kerala → Punjab → Uttar Pradesh → Bihar. Data 2019 ranking context mein Kerala 1st, Punjab 4th, UP 28th, Bihar 29th diya gaya. [Q47]
- Kerala HDI ranking mein first tha aur 2011 Census framing mein unemployment rate highest tha; high unemployment Kerala ke HDI-top rank ka direct cause nahi hai. [Q48]
- IHDR 2011 ke 2008 data mein Uttar Pradesh rank 18, Jharkhand 19, Bihar 21 aur Odisha 22 tha. 2019 ranking context mein Uttar Pradesh 28th tha. [Q49]
- 2019 mein Bihar HDI value 0.574 thi — Indian states mein lowest; Kerala 0.782 ke saath top tha. [Q50]

11. Bare Necessities Index (BNI)

- Economic Survey 2020-21 ne rural, urban aur all-India levels par Bare Necessities Index (BNI) framework outline kiya. BNI 26 indicators ko five dimensions — water, sanitation, housing, micro-environment, other facilities — par evaluate karta hai. [Q51]
- BNI all states ke liye 2012 aur 2018 dono years ke liye NSO 69th aur 76th round data se prepare hua; BNI 2012 aur 2018 dono rounds use karta hai; six-dimension description BNI framework se align nahi karti. [Q51]

12. State Health Index — NITI Aayog

- NITI Aayog ne State Health Index ka fourth edition (2019-20) December 2021 mein release kiya. Overall 'Small States' category mein Mizoram top tha; Updated figures mein Tripura next diya gaya. [Q52]
- Annual incremental performance mein large states ke top three Uttar Pradesh, Assam, Telangana; small states mein Mizoram aur Meghalaya ne maximum incremental progress record ki. [Q52]

13. Education Development & School Enrolment

- Educational Development Index (February 2011) mein Kerala, Tamil Nadu, Punjab aur Delhi top four the. School Education Quality Index 2019 mein large states mein Kerala first aur Tamil Nadu second tha; Jharkhand bottom par tha. Small states mein Tripura aur UTs mein Chandigarh top the. [Q53]
- 6-14 age group mein school enrolment earlier data mein around 93% tha; ASER Rural 2024 mein enrolment 98.1% report hua. [Q54]
