

CHAPTER 1 — MEMORY TRICKS

Demand, Supply and Nature of Market

Economics · ExamFusion Prep · BPSC / BSSC

Foundations of Micro/Macroeconomics — Law of Demand, Exceptions, Elasticity, Law of Supply & Market Structures

1. Do Alag 'Fathers' — Mix Mat Karo

Economics mein 2 alag 'father' titles hain jo dikhne mein similar lagte hain — MCQs mein sabse zyada yahi swap karte hain.

Title	Person	Book (Year)
Father of Economics	Adam Smith	"Wealth of Nations" (1776)
Father of Demand-Supply Theory	Alfred Marshall	"Principles of Economics" (1890)

🔑 MNEMONIC — SMITH-1776, MARSHALL-1890: SMITH ki 'Wealth' purani hai (1776 → Father of Economics); MARSHALL ki 'Principles' baad mein aayi (1890 → Demand-Supply ka father). Chhota year = Smith = poora subject; bada year = Marshall = ek specific theory.

2. Micro vs Macro — Scope Ka Trap

Branch	Scope	Studies
Microeconomics	Individual unit (ek firm/industry/market)	Demand, Production, Price/Factor Pricing
Macroeconomics	Poori national economy	National Income, Unemployment, Poverty, Fiscal Policy

⚠️ EXAM TRAP: "MICRO" chhota lagta hai isliye MCQs mein bhi "firm-level" ko Macro se swap kar dete hain. Yaad rakho: MICRO = mini unit, MACRO = maha economy.

3. Law of Demand — Inverse Relationship

Demand banti hai jab teen cheezein saath ho: Desire + Willingness to buy + Ability to Purchase — teeno missing-proof honi chahiye.

⚡ YAAD RAKHO: 3-D Rule: Desire + (w)illingness + Ability — koi ek bhi gayab to sirf 'khwaish' hai, 'demand' nahi. Price ↓ → Demand ↑ | Price ↑ → Demand ↓ (curve ka slope hamesha downward).

✅ QUICK RECALL: Market Equilibrium = Market Demand = Market Supply → na shortage, na surplus.

4. Giffen vs Veblen — Exam Ka Sabse Bada Trap

Dono goods Law of Demand ko defy karte hain (price $\uparrow \rightarrow$ demand bhi $\uparrow$), lekin reason bilkul alag hai.

Good	Kaun Kharidta Hai	Reason
Giffen Goods	Poor households (low-quality anaj)	Necessity/income effect — chhod nahi sakte
Veblen Goods	Status-conscious buyers (iPhone, expensive cars)	Prestige/status symbol

 **MNEMONIC — G for Garib, V for VIP:** GIFFEN = Garib ki majboori (necessity), VEBLEN = VIP ka dikhava (prestige). Dono ka effect same dikhta hai (demand $\uparrow$ with price $\uparrow$) par wajah opposite hai.

 **EXAM TRAP:** Sabhi Giffen goods, inferior goods hote hain, lekin sabhi inferior goods Giffen nahi hote — Giffen mein extra ye hai ki price effect bhi positive hota hai (Normal: Price Effect negative; Inferior: sirf Income Effect negative; Giffen: dono hi ulte).

5. Elasticity Ke 3 Types — Formula Confuse Mat Karo

Type	Symbol	Formula (% change in demand $\div$...)
Income Elasticity	E _y	% change in income
Cross Elasticity	E _c	% change in price of related good B
Price Elasticity	E _p	% change in own price

 **MNEMONIC — Y-C-P = Yourself, Cross, Price:** E_y = apni Income se; E_c = doosre (Cross) good ke price se; E_p = apne hi Price se. Jo bhi denominator mein change ho, wahi uska naam hai.

 **EXAM TRAP:** Perfectly Elastic (price ka chhota sa change $\rightarrow$ demand infinite tak expand/contract) vs Perfectly Inelastic (price kuch bhi ho jaaye, demand mein ZERO change) — ye dono ek dusre ke bilkul opposite extremes hain, exam mein reverse karke poochha jaata hai.

6. Law of Supply aur 4 Market Forms

 **YAAD RAKHO:** Demand curve DOWNWARD slope karti hai; Supply curve UPWARD slope karti hai (High Price $\rightarrow$ More Supply). Dono ka intersection = Market Equilibrium.

Market Form	Sellers	Key Trait
Perfect Competition	Bahut saare	Homogeneous goods, price market forces se
Monopoly	Sirf EK	Koi close substitute nahi, complete price control
Monopolistic Competition	Bahut saare	Product differentiation (colour/design)

Market Form	Sellers	Key Trait
Oligopoly	FEW (limited)	Firms interdependent — ek ka decision doosre ko affect kare

 **MNEMONIC — ONE vs FEW:** MONOPOLY = ONE seller (poora control). OLIGOPOLY = FEW sellers (ek-doosre par depend). 'One' aur 'Few' ko kabhi swap mat karo — ye sabse common exam trap hai.

7. Top 6 Traps — Last-Minute Recap

#	Trap
1	Adam Smith (Father of Economics, 1776) ≠ Alfred Marshall (Father of Demand-Supply, 1890)
2	Microeconomics = individual unit; Macroeconomics = national aggregate
3	Giffen Goods (Garib/necessity) vs Veblen Goods (VIP/prestige) — same effect, alag reason
4	Giffen goods hamesha inferior hote hain, par sabhi inferior goods Giffen nahi
5	Perfectly Elastic (infinite response) vs Perfectly Inelastic (zero response) — opposite extremes
6	Monopoly = ONE seller; Oligopoly = FEW interdependent sellers

CHAPTER 2 — MEMORY TRICKS

Economy: An Introduction

Economics · ExamFusion Prep · BPSC / BSSC

Economic Activities · Types of Economy · Indian Economy Traits · 5 Sectors · India's Global Position

1. Economic vs Non-Economic Activities

Core test simple hai: kya activity paisa kamaane ke liye ki ja rahi hai? Value ya society-benefit se koi farak nahi padta.

Type	Test	Examples
Economic Activities	Paisa kamaane ke liye	Doctor, Teacher, Trader
Non-Economic Activities	Paisa kamaana maksad nahi	Social, NGO, Religious

⚡ **YAAD RAKHO:** "Kya isse paisa aata hai?" — sirf yahi sawaal poochho. NGO ka noble kaam bhi "non-economic" hai kyunki maksad profit nahi hai.

2. 3 Types of Economy (Govt. Control Ke Basis Par)

Type	Ownership / Control	Objective	Example
Capitalist	Private; market forces decide; Laissez-faire	Profit	USA, UK
Socialist	State/public ownership (Karl Marx concept)	Social welfare	Former USSR
Mixed	Private + Public dono; Gandhian Trusteeship	Welfare + Profit	India

🔑 **MNEMONIC — C-S-M = Control Se Milta Hai:** CAPITALIST = market khud control kare (govt bahut kam); SOCIALIST = state control kare (Karl Marx wala idea); MIXED = dono milkar control kare — India isi teesre wale mein aata hai, Trusteeship principle ke saath.

⚠️ **EXAM TRAP:** Socialist Economy is chapter mein Karl Marx ke 'state ownership' concept se define hoti hai — India ka Mixed Economy model isse alag hai, dono ko ek mat samjho.

3. Open vs Closed Economy

Type	Key Feature	Example
Open Economy	Minimal import-export restrictions	Hong Kong, Singapore
Closed Economy	Zero imports/exports, no external relation	North Korea

✅ **QUICK RECALL:** OPEN = duniya se juda hua; CLOSED = duniya se kata hua (North Korea = poori tarah band darwaza).

4. Indian Economy Ki Characteristics

Agriculture ka predominance · Technological backwardness · Capital formation ki low rate · Unemployment · Low national/per capita income · Industrial backwardness — sab "developing economy" ke classic signs hain.

5. 5 Sectors of Economy — Collar Colours Yaad Rakho

Sector	Activities	Workers (Collar)	GDP Share
Primary	Agriculture, Forestry, Fisheries, Mining	Red Collar	~16%
Secondary	Manufacturing, Construction, Electricity	Blue Collar	~27.6%
Tertiary (Service)	Banking, Trade, Transport, Health, Tourism	White Collar	~55% (Highest)
Quaternary	Knowledge-based: Culture, Research, IT	Knowledge Workers	—
Quinary	Policy-making, new ideas, media, science	Policy Makers	—

🔑 **MNEMONIC — RED-BLUE-WHITE-KNOWLEDGE-POLICY:** Primary = RED (khet/mitti se juda), Secondary = BLUE (factory floor), Tertiary = WHITE (office/service), Quaternary = Knowledge (dimaag ka kaam), Quinary = Policy (sabse upar wale decision-makers).

⚠️ **EXAM TRAP:** GDP share order yaad rakho: Tertiary (~55%, sabse zyada) > Secondary (~27.6%) > Primary (~16%). Develop hote desh mein pattern hamesha Agriculture < Industry < Services hota hai — India isi pattern ko already follow karta hai.

6. India Ki Global Ranking — GDP vs PPP

Ranking Basis	India Ka Rank	Kaun Aage Hai
Nominal GDP (IMF, Apr 2025)	4th	USA, China, Germany
PPP (Purchasing Power Parity)	3rd	China, USA

🔑 **MNEMONIC — PPP Mein India Aage Nikal Jaata Hai:** Nominal GDP mein India 4th hai (Germany, Japan se upar par unse count mein 4th aata hai), lekin PPP mein cost-of-living adjust hone ke baad India Germany/Japan ko peeche chhod kar 3rd ban jaata hai — sirf China aur USA aage.

7. Top 6 Traps — Last-Minute Recap

#	Trap
1	Economic activity ka test = paisa kamaana, na ki society-benefit
2	Capitalist (market control) vs Socialist (state control, Karl Marx) vs Mixed (dono, India)
3	Socialist economy ka concept ≠ India ka Mixed Economy model
4	Open Economy (Hong Kong, Singapore) vs Closed Economy (North Korea, zero trade)
5	Collar order: Primary=Red, Secondary=Blue, Tertiary=White — GDP share: Tertiary > Secondary > Primary
6	India: Nominal GDP me 4th rank, par PPP me 3rd rank (China, USA ke baad)

CHAPTER 3 — MEMORY TRICKS

Economic Growth and Development

Economics · ExamFusion Prep · BPSC / BSSC

Growth vs Development · HDI, PQLI, NEW, PPP, GNH · Measurement Indices

1. Growth vs Development — Sabse Bada Distinction

Economic Growth	Economic Development
Sirf Quantitative (GDP/GNP/PCI ↑)	Quantitative + Qualitative (standard of living bhi ↑)
Steady process, koi innovation nahi	Technological + institutional change involve
Structural change pehle se complete	Structural transformation ki zaroorat
Sirf production increase	Social, cultural, economic — sab changes

MNEMONIC — GROWTH ⊂ DEVELOPMENT: Growth ek CHOTA subset hai Development ke andar. Har Development mein kuch growth hoti hai, lekin sirf growth (bina quality improve hue) Development nahi ban jaati — number badhna kaafi nahi, zindagi bhi behtar honi chahiye.

QUICK RECALL: Growth ka sabse appropriate measure = Real Per Capita Income (National Income ÷ Total Population).

2. HDI vs PQLI — Scale Ka Sabse Common Trap

Index	Propound	Year / Body	Indicators	Scale
HDI	Mahbub ul Haq + Amartya Sen	1990, UNDP	Life Expectancy, Education, PCI	0 to 1
PQLI	Morris D. Morris	—	Life Expectancy (age 1), IMR, Literacy	1 to 100

MNEMONIC — H for '0-1' Hundred nahi, P for '1-100' Poor Scale: HDI = chhota decimal scale (0 se 1, jaise 0.6xx). PQLI = bada scale (1 se 100, jaise 65). Jitna 'chhota' naam (HDI 3-letter) utna 'chhota' scale — yaad rakhne ka trick.

EXAM TRAP: HDI ki scale (0 se 1) ko PQLI ki scale (1 se 100) ke saath kabhi confuse mat karo — options mein ye sabse common mix-up hai.

QUICK RECALL: India HDI Rank (2025): 130/193 · Top: Iceland · Last: South Sudan · India mein HDI publish karne wala pehla state: Madhya Pradesh (1995) — Bihar-relevant comparison fact.

3. NEW, PPP, GNH — Kaun Kisne Banaya

Measure	Full Form / Use	Kisne Banaya
NEW	Net Economic Welfare — MEW ka modified form	Samuelson
ISEW	Index of Sustainable Economic Well-being (1989)	Daly & Cobb
PPP	Purchasing Power Parity — standard of living compare	World Bank
GNH	Gross National Happiness — 9 domains, 33 indicators	Bhutan's 4th King, Jigme Singye Wangchuck (1970s)

 **MNEMONIC — SAM-DALY-WORLD-BHUTAN:** SAMuelson → NEW. DALY(-Cobb) → ISEW. WORLD Bank → PPP. BHUTAN ka Raja → GNH. Chaar naam, chaar alag "welfare beyond GDP" measure.

4. Amartya Sen aur Environment Kuznets Curve

 **YAAD RAKHO:** Amartya Sen ke according Development = "Empowerment aur capabilities ka expansion" — Sen ko 1998 mein Nobel Prize mila. Environment Kuznets Curve dikhata hai environmental quality aur Per Capita Income ke beech relationship.

5. Top 6 Traps — Last-Minute Recap

#	Trap
1	Growth = sirf quantitative; Development = quantitative + qualitative
2	Growth, Development ka subset hai — Development nahi to bhi growth ho sakti hai, par development ke bina sirf growth kaafi nahi
3	HDI scale = 0 to 1 (decimal); PQLI scale = 1 to 100 — kabhi mix mat karo
4	HDI: Mahbub ul Haq + Amartya Sen (1990, UNDP); PQLI: Morris D. Morris
5	NEW → Samuelson; ISEW → Daly & Cobb (1989); PPP → World Bank; GNH → Bhutan's King (1970s)
6	India ka pehla HDI-publish karne wala state: Madhya Pradesh (1995)

CHAPTER 4 — MEMORY TRICKS

National Income

Economics · ExamFusion Prep · BPSC / BSSC

Meaning · GDP/GNP/NDP/NNP Formulas · Methods of Measurement · Organisations

1. National Income Ke Pioneers — Chain Yaad Rakho

Vyakti / Body	Contribution
Dadabhai Naoroji	Pehla estimation (1867-68) — ₹20 per capita; Book: "Poverty and Un-British Rule in India"
Dr. V.K.R.V. Rao	Pehla scientific method-based tareeka
National Income Committee (Aug 1949)	Chairman P.C. Mahalanobis; pehla govt. estimate (1948-49) — ₹8710 crore, PCI ₹225

MNEMONIC — NAOROJI-RAO-COMMITTEE = FIRST-SCIENTIFIC-OFFICIAL: NAOROJI = sabse pehla estimate (1867). RAO = pehla SCIENTIFIC method. COMMITTEE (1949) = pehla OFFICIAL govt. estimate. Teen alag "pehla" — kabhi mix mat karo kaunsa 'pehla' kis category mein hai.

QUICK RECALL: Intermediate goods National Income mein INCLUDE nahi hote (double counting avoid karne ke liye) — sirf final goods/services count hote hain.

2. GDP/GNP/NDP/NNP — Formula Chain

Concept	Formula
NDP	GDP – Depreciation
GNP	GDP + Net Factor Income from Abroad
NNP	GNP – Depreciation
GDP Deflator	$(\text{Nominal GDP} \div \text{Real GDP}) \times 100$
GDPmp	GDPfc + (Indirect Tax – Subsidies)
GDPfc	GDPmp – Indirect Tax + Subsidies

EXAM TRAP: GDPmp aur GDPfc ek dusre ke MIRROR IMAGE hain — signs flip karna sabse aasan galti hai. Trick: 'mp' (market price) mein Indirect Tax ADD hota hai, Subsidies MINUS; 'fc' (factor cost) mein ulta — Tax MINUS, Subsidies ADD.

MNEMONIC — Nominal > Real (Inflation Ki Wajah Se): Nominal GDP hamesha Real GDP se BADA dikhta hai kyunki wo inflation ke liye adjust nahi hota — jitni zyada inflation, utna bada gap.

3. GVA aur Base Year Amendment (2015)

⚡ **YAAD RAKHO:** $GVA \text{ at Basic Price} = CE + OS/MI + CFC + \text{Production Tax} - \text{Product Discount}$ (CE=Compensation of Employees, OS=Operating Surplus, MI=Mixed Income, CFC=Consumption of Fixed Capital). $GDP = GVA \text{ at Basic Price} + \text{Product Taxes} - \text{Excise Subsidies}$.

✅ **QUICK RECALL:** Base Year: 2004-05 → 2011-12 (badla January 2015 mein, NSO dwara) → New proposed base year: 2022-23. Current base year (2011-12) ko 2004-05 se confuse mat karo.

4. PI → DPI → PCI — Deduction Chain

Concept	Formula
Personal Income (PI)	National Income – Undistributed Corp. Profits – Corp. Tax – Social Security + Govt. Transfers + Business Transfers
Disposable Personal Income (DPI)	Personal Income – Personal Direct Taxes – Other Mandatory Payments
Per Capita Income (PCI)	Total National Income ÷ Total Population

🔑 **MNEMONIC — National → Personal → Disposable = Ghatate Jao:** National Income se shuru karo, har step mein kuch deduct hota jaata hai: National Income → (deductions) → Personal Income → (aur deductions) → Disposable Personal Income. Jitna aage chain mein, utna kam paisa bachta hai apne haath mein.

5. 3 Methods of Measurement

Method	Formula / Basis
Production/Value Added	Final goods/services ki net monetary value
Income Method	Employee Compensation + Corp. Profits + Proprietor's Income + Rental Income + Net Interest
Expenditure Method	$C + I + G + (X - M)$

✅ **QUICK RECALL:** Hindu Rate of Growth = ~3.5% annual — term diya Prof. Raj Krishna (1978) ne; independence ke baad pehle 3 dashkon ki slow real growth ko describe karta hai.

6. CSO vs NSSO vs NSC vs NSO — Sabse Bada Trap

Body	Established	Kaam
CSO	2 May 1951	National Income calculate + publish
NSSO	1950 (reorganized 1970-71)	Economic surveys conduct
NSC	2005 (functioning 2006 se)	Statistical institutional issues resolve
NSO	May 2019 (CSO + NSSO merge)	NI statistics release (MoSPI ke under)

 **MNEMONIC — NSO = CSO + NSSO (NSC Alag Hai):** NSO (2019) sirf CSO aur NSSO ka MERGER hai. NSC (2005) bilkul alag body hai jo kabhi NSO mein merge nahi hui — sirf institutional issues resolve karti hai. Exam trap: NSO aur NSC ko naam ki similarity ki wajah se mix kar dete hain.

7. Top 6 Traps — Last-Minute Recap

#	Trap
1	Naoraji = pehla estimate; Rao = pehla scientific; Committee (1949) = pehla official
2	$GDP_{mp} = GDP_{fc} + \text{Indirect Tax} - \text{Subsidies}$; $GDP_{fc} = GDP_{mp} - \text{Indirect Tax} + \text{Subsidies}$ (mirror signs)
3	Base year: 2004-05 → 2011-12 (Jan 2015) → proposed 2022-23
4	Chain: National Income → Personal Income → Disposable Personal Income (deductions har step)
5	Expenditure Method = $C + I + G + (X - M)$
6	NSO (2019) = CSO+NSSO merger; NSC (2005) alag body hai, merge nahi hui

CHAPTER 5 — MEMORY TRICKS

Economic Planning in India

Economics · ExamFusion Prep · BPSC / BSSC

Origins · Planning Institutions · Five-Year Plans (1st-12th)

1. Pre-Plan Proposals — Matching Ka Favorite Trap

Saal	Plan/Proposal	Kisne Banaya
1934	"Planned Economy for India" (Book)	M. Visvesvaraya
1938	National Planning Committee	Jawaharlal Nehru (Chairman)
1944	Bombay Plan	8 industrialists (led by Ardeshir Dalal)
1944	Gandhian Plan	Sriman Narayan Agarwal
1945	People's Plan	M.N. Roy
1950	Sarvodaya Plan	Jayaprakash Narayan

MNEMONIC — VISVESVARAYA-NEHRU-DALAL-AGARWAL-ROY-JP: Chronological order yaad rakho: V (1934, book) → N (1938, committee) → D (1944, Bombay/industrialists) → A (1944, Gandhian) → R (1945, People's) → JP (1950, Sarvodaya). Saal ke hisaab se sequence follow karo, naam khud-ba-khud yaad aa jaayega.

QUICK RECALL: Planning duniya mein sabse pehle 1928 mein USSR mein shuru hui (Joseph Stalin) — India ki planning isi Russia (Soviet) model se inspired hai. Economic Planning Constitution ki Concurrent List ka subject hai.

2. Planning Commission → NITI Aayog

Institution	Established	Key Facts
Planning Commission	15 March 1950 (K.C. Neogy Committee)	Chairman: PM (ex-officio); First Chairman: Nehru; Last Dy. Chairman: Montek Singh Ahluwalia
National Development Council (NDC)	6 August 1952	Planning Commission ki recommendations approve karta hai — abhi bhi alag se exist karta hai
NITI Aayog	1 January 2015	Planning Commission ko replace kiya; Govt. ka think tank; Full-Time Members: 5, Ex-officio: 4

EXAM TRAP: Planning Commission (1950-2014) ko NITI Aayog (2015-present) ne replace kiya — par NDC replace NAHI hua, wo aaj bhi separately exist karta hai. Isko mix mat karo.

3. 1st-5th Plan — PM, Model, Target vs Achievement

Plan	PM	Model / Focus	T / A
1st (1951-56)	Nehru	Harrod-Domar; Agriculture	T=2.1%, A=3.6% (Success)
2nd (1956-61)	Nehru	P.C. Mahalanobis; Heavy industry	T=4.5%, A=4.3%
3rd (1961-66)	Nehru	Sandhu/Chakravarty/ Mahalanobis	T=5.6%, A=2.8% (Failed)
4th (1969-74)	Indira Gandhi	Ashok Rudra/Gadgil; self-reliance	T=5.7%, A=3.3% (Failed)
5th (1974-79)	Indira Gandhi	D.P. Dhar; poverty eradication	T=4.4%, A=4.8%

 **MNEMONIC — 1st SUCCESS, 3rd FAIL — Kabhi Swap Mat Karo:** 1st Plan = early success (Bhakra Nangal, Family Planning start). 3rd Plan = wars (Indo-China 1962, Indo-Pak 1965) + rupee devaluation ki wajah se FAIL. Ye dono ek dusre ke exact opposite hain, exam mein swap kiya jaata hai.

 **QUICK RECALL:** Plan Holiday (1966-69): Green Revolution hua (World Father: Norman Borlaug; India Father: M.S. Swaminathan) — Lead Bank Scheme bhi isi period mein (1969, Nariman Committee).

4. 6th-12th Plan — PM aur Key Highlights

Plan	PM	Key Highlight
6th (1980-85)	Indira Gandhi	NABARD (1982), EXIM Bank (1982)
7th (1985-90)	Rajiv Gandhi	Jawahar Rozgar Yojana
Annual (1990-92)	Narasimha Rao	1991 LPG Reforms — FM: Manmohan Singh
8th (1992-97)	Narasimha Rao	HRD emphasis — SABSE SUCCESSFUL (T=5.6%, A=6.8%)
9th (1997-2002)	Vajpayee	Equity + social justice
10th (2002-07)	Vajpayee + Manmohan Singh	National Horticulture Mission
11th (2007-12)	Manmohan Singh	Inclusive growth; global financial crisis
12th (2012-17)	Manmohan Singh + Modi	LAST Five-Year Plan; NITI Aayog ne replace kiya

 **MNEMONIC — 8th = BEST, 12th = LAST:** 8th Plan (1992-97) = Ab tak ka SABSE SUCCESSFUL plan (A=6.8%, T se bhi zyada). 12th Plan (2012-17) = India ka LAST Five-Year Plan — iske baad NITI Aayog ne strategic planning sambhal li, koi formal plan nahi bana.

 **EXAM TRAP:** 1991 LPG Reforms Annual Plans period (1990-92) mein hue, kisi numbered Five-Year Plan mein nahi — PM Narasimha Rao, FM Dr. Manmohan Singh. Isko 8th Plan (jo turant baad shuru hua) ke saath confuse mat karo.

5. Top 8 Traps — Last-Minute Recap

#	Trap
1	Bombay Plan (Dalal) vs Gandhian Plan (Agarwal) vs People's Plan (Roy) vs Sarvodaya Plan (JP) — sabka author alag
2	Planning Commission → NITI Aayog ne replace kiya (2015); NDC alag se abhi bhi exist karta hai
3	1st Plan = success (T=2.1%, A=3.6%); 3rd Plan = fail (wars + devaluation, T=5.6%, A=2.8%)
4	Green Revolution: World Father = Norman Borlaug; India Father = M.S. Swaminathan
5	1991 LPG Reforms = Annual Plans period (Narasimha Rao/Manmohan Singh), NOT numbered plan
6	8th Plan (1992-97) = sabse successful plan (A=6.8%)
7	12th Plan (2012-17) = India ka LAST Five-Year Plan
8	NABARD aur EXIM Bank dono 1982 mein, 6th Plan ke dauran establish hue

CHAPTER 6 — MEMORY TRICKS

Poverty and Unemployment

Economics · ExamFusion Prep · BPSC / BSSC

Poverty Measurement · Committees · MPI · Unemployment Types · Government Schemes

1. Absolute vs Relative Poverty — Lorenz vs Gini

Concept	Kisne Diya	Kya Measure Karta Hai
Absolute Poverty	Sir John Boyd Orr (FAO)	Minimum subsistence level
Lorenz Curve	Max O. Lorenz (1905)	Income inequality — GRAPH
Gini Coefficient	Corrado Gini (1912)	Income/wealth inequality — NUMBER

MNEMONIC — LORENZ Draws, GINI Numbers: LORENZ (1905) ek CURVE/GRAPH banata hai; GINI (1912) usse ek NUMERICAL coefficient DERIVE karta hai. Pehle graph (Lorenz), phir uska number (Gini) — 1905 se 1912 tak ka natural sequence.

2. Poverty Committees — Chronological Chain

Committee	Saal	Key Contribution
Dadabhai Naoroji	1867-68	India ka pehla poverty study; ₹16-35 per capita annual
Dandekar & Rath	1971	Calorie basis ka pehla use — 2250 cal/day
Y.K. Alagh	1979	Rural 2400 cal, Urban 2100 cal (refined norms)
Lakdawala	1993	CPI-IW (industrial), CPI-AL (agri labour)
Suresh Tendulkar	2009 (formed 2004)	MPCE basis; Rural ₹816/mo, Urban ₹1000/mo → 21.9%
C. Rangarajan	2014 (formed 2012)	Rural ₹972/mo, Urban ₹1407/mo

MNEMONIC — NAOROJI → DANDEKAR-RATH → ALAGH → LAKDAWALA → TENDULKAR → RANGARAJAN: 6 committees, 6 alag approach: Naoroji (pehla, cost-of-living) → Dandekar-Rath (pehla CALORIE use, 1971) → Alagh (calorie REFINE kiya, 1979) → Lakdawala (alag CPI, 1993) → Tendulkar (MPCE-based, 2009) → Rangarajan (latest, 2014). Saal ke order mein hi yaad rakho.

EXAM TRAP: Dandekar-Rath (1971) ne calorie concept SABSE PEHLE introduce kiya; Alagh Committee (1979) ne sirf uske numbers ko REFINE/split kiya (rural vs urban). "First use" aur "refinement" ka sequence reverse mat karo.

3. MPI — Multidimensional Poverty Index

⚡ **YAAD RAKHO:** MPI release karta hai NITI Aayog (pehli baar 2021). 3 dimensions (Health, Education, Standard of Living) → 12 indicators se measure hote hain.

✅ **QUICK RECALL:** 2023 report: Highest multidimensionally poor = BIHAR; Lowest = KERALA — dono BPSC-relevant facts hain.

4. Unemployment Ke Types — Disguised vs Cyclical

Type	Kahan Common Hai	Meaning
Disguised	Indian Agriculture	Zero marginal productivity — zaroorat se zyada workers
Cyclical	Developed/Industrial economies	Market fluctuations ki wajah se job loss
Seasonal	Agriculture	Saal mein sirf 7-8 mahine kaam
Frictional	Sab jagah	Ek job chhodne aur doosri join karne ke beech gap
Structural	Sab jagah	Skills aur job requirement ka mismatch

🔑 **MNEMONIC — DISGUISED = Desi Khet, CYCLICAL = City-Industry:** DISGUISED unemployment = Indian agriculture ka classic problem (dikhta hai kaam kar rahe hain, par extra hain — zero productivity). CYCLICAL = developed/industrial economies ka problem (business cycle ki wajah se). Ye do sabse zyada confuse hone wala pair hai.

5. Bhagwati Committee (1973) — 3 Status Concepts

Concept	Description
Normal Status	Saal mein 183 din se kam employment
Current Weekly Status	Hafte mein ek ghanta bhi kaam nahi
Current Daily Status	Hafte mein kuch din kaam, baaki din dhoondte hain (11th Plan se use)

⚠️ **EXAM TRAP:** Working Age Population: INDIA = 15-59 saal, OECD = 15-64 saal — cross-country comparison mein ye trap common hai. $\text{Unemployment Rate} = (\text{Unemployed} \div \text{Labour Force}) \times 100$.

6. Major Schemes — Saal Yaad Rakhne Ki Trick

Scheme	Saal	Key Feature
MGNREGA	2005	100 din guaranteed rural work (sabse purani)
Atal Pension Yojana	2015	18-40 saal unorganised workers → 60 ke baad pension
PM Suraksha Bima	2015	₹20/yr premium; death/disability ₹2 lakh

Scheme	Saal	Key Feature
Beti Bachao Beti Padhao	2015	Female foeticide rokna
PM Ujjwala Yojana	2016	BPL families ko LPG connection
PM Shram Yogi Maandhan	2019	Unorganised sector, ₹15,000/mo tak kamane wale
Ayushman Bharat	2018	₹5 lakh insurance — duniya ki sabse badi
PM SVANidhi	2020	Street vendors ka support
PM Vishwakarma	2023	Traditional artisans/craftsmen

 **MNEMONIC — MGNREGA = 2005 Anchor Point:** MGNREGA (2005) sabse purani aur sabse tested scheme hai — isse anchor bana kar baaki schemes ko timeline mein place karo: 2015 ka cluster (Atal Pension, Suraksha Bima, Beti Bachao) → 2018-20 ka cluster (Ayushman, SVANidhi) → 2023 ka latest (Vishwakarma).

7. Top 8 Traps — Last-Minute Recap

#	Trap
1	Lorenz Curve (1905, graph) vs Gini Coefficient (1912, number) — related par alag
2	Dandekar-Rath (1971) = calorie ka pehla use; Alagh (1979) = sirf refinement
3	Poverty committees chronology: Naoroji → Dandekar-Rath → Alagh → Lakdawala → Tendulkar → Rangarajan
4	MPI: NITI Aayog, 2021, 3 dimensions, 12 indicators — Bihar highest poor, Kerala lowest (2023)
5	Disguised Unemployment = Indian agriculture; Cyclical = developed economies
6	Working Age: India 15-59; OECD 15-64
7	MGNREGA (2005) = sabse purani employment guarantee scheme
8	Ayushman Bharat (2018) = duniya ki sabse badi health insurance scheme (₹5 lakh)

CHAPTER 7 — MEMORY TRICKS

Money and Inflation

Economics · ExamFusion Prep · BPSC / BSSC

Evolution of Money · Money Supply · Currency Facts · Inflation Types · WPI/CPI

1. Money Ke Functions — Primary vs Secondary

Primary Functions	Secondary Functions
Medium of Exchange	Store of Value
Measure/Unit of Value	Standard of Deferred Payments

MNEMONIC — M-M = Primary, S-S = Secondary: MEDIUM aur MEASURE — dono M se shuru, dono PRIMARY hain (roz ka use). STORE aur STANDARD (deferred) — dono future ke liye hain, isliye SECONDARY. Roz ka kaam = primary; future ka kaam = secondary.

2. Scarce Money vs Surplus Money

Type	Meaning	Example
Scarce Money	Demand > Supply internationally	US Dollar (\$)
Surplus Money	Supply > Demand internationally	Indian Rupee

QUICK RECALL: Liquidity order: Cash > Bank Demand Deposits > Bank Savings > Bank Fixed Deposits. Sabse liquid asset = CASH.

3. M₀ Se M₄ — Liquidity Kam Hoti Jaati Hai

Measure	Type	Liquidity
M ₀	Reserve Money	—
M ₁	Narrow Money	Sabse Zyada
M ₂	Narrow Money	M ₁ se kam
M ₃	Broad Money	M ₂ se kam
M ₄	Broad Money	Sabse Kam

MNEMONIC — Jitna Bada Number, Utni Kam Liquidity: M₁ → M₄ jaate jaate liquidity GHATTI jaati hai — M₁ sabse zyada liquid (cash+demand deposits), M₄ sabse kam (post office deposits tak include). Number bada = access mushkil = liquidity kam.

⚡ **YAAD RAKHO:** Fisher's Exchange Equation: $MV = PT$ (M=Money Supply, V=Velocity, P=Price Level, T=Transactions) — isi se Money Illusion concept (Irving Fisher) bhi related hai.

4. Currency Facts — Saal Aur Symbol

Fact	Detail
Decimal currency adopt	1957
Gandhi image first note	1969 (₹100) → 1987 (₹500) → 1996 se saare notes
₹ Symbol designer	Uday Kumar (IIT Guwahati) — 2020 mein accept
Own currency symbol wala rank	India 5th country (baad USA \$, Japan ¥, EU €, UK £)
Devaluations	1949 → 1966 → 1991 (teen baar)

✅ **QUICK RECALL:** Currency ka devaluation = foreign currency ke against EXTERNAL value mein kami; intrinsic value par koi effect nahi.

5. Inflation Types — Rate Ka Scale Yaad Rakho

Type	Rate Range
Creeping	Single digit (~3% ya kam)
Walking	3% se 6% (ya 10% se kam)
Running	20-30% per annum
Galloping	20-100% (do/teen digits)
Hyper	Triple digits se upar

🔑 **MNEMONIC — CREEP-WALK-RUN-GALLOP-HYPER = Speed Badhti Jaati Hai:** Jaise ek insaan CREEP (rangna) → WALK → RUN → GALLOP (daudna) → HYPER (control se bahar) karta hai, waise hi price rise ki speed badhti jaati hai. Har stage pichle se tez hai.

⚠️ **EXAM TRAP:** Running (20-30%) aur Galloping (20-100%) ka range OVERLAP karta hai, lekin Galloping zyada BROADER/SEVERE category hai — inhe identical mat samjho, ye ek common exam confusion hai.

6. Disinflation vs Deflation vs Reflation vs Stagflation

Term	Meaning
Disinflation	Prices abhi bhi badh rahi, lekin SLOWER rate se
Deflation	Prices ACTUALLY gir rahi hain (negative inflation)
Reflation	Jaan-boojh kar money/credit badhakar prices badhana
Stagflation	High inflation + High unemployment SAATH mein

🔑 MNEMONIC — DIS = Slow Down, DE = Actually Down: DISinflation mein prices abhi bhi UPAR ja rahe hain, sirf raftaar kam. DEflation mein prices khud NEECHE aa rahe hain — 'de-' negative direction dikhata hai, 'dis-' sirf speed kam karta hai.

✅ QUICK RECALL: Headline Inflation = food + energy sahit total (CPI-C se measure). Core Inflation = food/fuel EXCLUDE karta hai — India mein sabse pehle use 2000-01 mein.

7. WPI vs CPI — Base Year Trap

Index	Base Year	Compile Karta Hai	Key Use
WPI	2011-12 (Saumitra Choudhuri Committee)	Office of Economic Advisor, Commerce Ministry	Wholesale level; first published 1942
CPI-IW	2016	Labour Bureau	Dearness allowance determine
CPI-AL/RL/R/U	2012	Labour Bureau / —	Category-specific
CPI-C	2012	CSO (ab NSO)	RBI dwara use

⚠️ EXAM TRAP: CPI-IW ka base year (2016) baaki saari CPI categories (2012) se ALAG hai — ye ek frequently tested exception hai, kabhi bhool mat jaana.

🔑 MNEMONIC — PPI > WPI aur CPI: PPI (Producer Price Index) ko WPI aur CPI se BETTER maana jaata hai kyunki ye producer ke perspective se inflation measure karta hai. Phillips Curve (A.W. Phillips) inflation aur unemployment ke beech INVERSE relationship dikhata hai.

8. Inflation Control — Fiscal vs Monetary

Type	Measures
Fiscal (Govt.)	Direct taxes ↑, Fiscal deficit ↓, Subsidies ↓, Public se udhaar lena
Monetary (RBI)	Repo/Bank Rate ↑, CRR/SLR ↑, Govt. securities bechna, Tight credit

🔑 MNEMONIC — Inflation Fight = Sab Kuch Tight Karo; Contraction Fight = Sab Kuch Loosen Karo: Inflation se ladne ke liye: rates/taxes BADHAO, spending KAM karo. Monetary Contraction (deflationary pressure) se ladne ke liye: OPPOSITE karo — spending badhao, taxes kam karo, money supply ease karo.

9. Top 8 Traps — Last-Minute Recap

#	Trap
1	Medium of Exchange + Measure of Value = Primary; Store of Value + Deferred Payments = Secondary
2	M ₁ = sabse zyada liquidity; M ₄ = sabse kam (number bada, liquidity kam)

#	Trap
3	Devaluations: 1949 → 1966 → 1991
4	Inflation scale: Creeping < Walking < Running < Galloping < Hyper
5	Running (20-30%) aur Galloping (20-100%) overlap karte hain, Galloping broader hai
6	Disinflation = prices upar par slower; Deflation = prices actually neeche
7	CPI-IW base year 2016, baaki CPI categories 2012 — exception yaad rakho
8	Inflation fight = tighten (rates/taxes ↑); Contraction fight = loosen (opposite)

CHAPTER 8 — MEMORY TRICKS

Banking in India

Economics · ExamFusion Prep · BPSC / BSSC

History · Structure · RBI · Monetary Policy · Basel Norms · NBFC · Financial Institutions

1. Banking History — 'Indian-Owned' vs 'FULLY Indian-Owned'

Bank	Detail
Bank of Hindustan (1770), Calcutta	India ka SABSE PEHLA bank
3 Presidency Banks (Bengal 1806, Bombay 1840, Madras 1843)	Combine → Imperial Bank of India (1921) → SBI (1955)
Awadh Commercial Bank (1881)	Pehla INDIAN-OWNED bank
Punjab National Bank (1894)	Pehla FULLY Indian-owned AUR established bank

MNEMONIC — AWADH = Owned, PNB = Fully Owned: AWADH Commercial (1881) sirf "Indian-owned" tha. PNB (1894) "FULLY Indian-owned AUR established" tha — ye "fully" wala extra word hi exam ka trap hai. 13 saal ka gap (1881→1894) yaad rakho.

2. Nationalisation Rounds aur 2020 Mega-Merger

Event	Saal	Detail
1st Nationalisation	19 July 1969	14 commercial banks
2nd Nationalisation	15 April 1980	6 banks (deposits ≥ ₹200 crore)
SBI mega-merger	2017	5 associate banks + Indian Mahila Bank
Vijaya+Dena → BoB	April 2019	—
OBC+UBI → PNB	April 2020	PNB ban gaya 2nd largest PSB
Syndicate → Canara	April 2020	—
Andhra+Corporation → Union Bank	April 2020	—
Allahabad → Indian Bank	April 2020	—

MNEMONIC — 2020 Merger: PNB-CANARA-UNION-INDIAN: PNB ne OBC+UBI khaya. CANARA ne Syndicate khaya. UNION ne Andhra+Corporation khaya. INDIAN Bank ne Allahabad khaya. 4 bade banks ne 6 chote banks ko absorb kiya — result: 12 PSBs (11 nationalised + SBI).

3. RBI — Establishment aur Governor Trap

Fact	Detail
Established	1 April 1935 (RBI Act 1934); recommend Banking Enquiry Committee (1932); naam Hilton Young Commission (1926) ne diya
Nationalised	1 January 1949
HQ	Mumbai (1937 se pehle Calcutta)
First Governor	Sir Osborne Smith (British)
First INDIAN Governor	C.D. Deshmukh (par overall 3rd Governor)
Current Governor (26th)	Sanjay Malhotra (11 Dec 2024 se)

⚠ **EXAM TRAP:** Sir Osborne Smith = 1st Governor OVERALL (British). C.D. Deshmukh = 1st INDIAN Governor, lekin overall 3rd Governor tha. "First Indian" ≠ "First overall" — ye distinction bahut heavily tested hoti hai.

✅ **QUICK RECALL:** Central Board of Directors = 21 Members: 1 Governor + 4 Deputy Governors + FM ka representative + 10 govt-appointed directors + 4 local board directors.

4. Repo vs Reverse Repo — Opposite Directions

Tool	Direction	Liquidity ↑ hone par
Repo Rate	RBI → Banks ko lend karta hai	Rate ↑ = liquidity ↓; Rate ↓ = liquidity ↑
Reverse Repo Rate	Banks → RBI ko deposit karte hain	Rate ↑ = liquidity ↓; Rate ↓ = liquidity ↑
SLR	Banks NDTL ka hissa retain karte hain (currently 18%)	↑ = liquidity ↓
CRR	Banks cash RBI ke paas rakhte hain (3-15% range)	↑ = liquidity ↓

🔑 **MNEMONIC — REPO = RBI dega, REVERSE REPO = RBI lega:** REPO mein RBI banks ko paisa DETA hai (short-term loan). REVERSE REPO mein banks RBI ko apna EXCESS paisa DEPOSIT karte hain — naam se hi 'reverse' (opposite direction) samajh aata hai.

✅ **QUICK RECALL:** MPC (Monetary Policy Committee): Urjit Patel Committee ki recommendation par bani (24 Sep 2016); Chairman = RBI Governor; 6 members (RBI se 3, Finance Ministry se 3).

5. Basel Norms — I, II, III

Norm	Saal	Key Detail
Basel-I	1988 issue (India: 1999 adopt)	CAR requirement 8%
Basel-II	2004 release	—
Basel-III	2009 propose, 2010 implement	Capital Tier-1/2/3; CAR 8% maintained

✅ **QUICK RECALL:** Basel Committee 1974 mein 10 member countries ke saath bani (Basel = Switzerland ka city). CAR/CRAR = risk-weighted assets ke against bank ka available capital.

6. Small Finance Bank vs Payments Bank

Type	Approved	Key Feature
Small Finance Bank	August 2015 (Nachiket Mor Committee)	Deposits accept + loans dete hain, koi deposit limit nahi
Payments Bank	July 2014 (Nachiket Mor Committee)	Sirf deposits (₹2 lakh/customer tak); sirf debit cards, loans nahi

⚠️ **EXAM TRAP:** Dono Nachiket Mor Committee ne recommend kiye, lekin Payments Bank PEHLE approve hui (July 2014) aur Small Finance Bank BAAD mein (August 2015) — saal ka sequence ulta lagta hai, isliye mix mat karo.

7. MUDRA Loan Tiers — Increasing Order

Category	Loan Range
Shishu	₹50,000 tak
Kishor	₹50,000 se ₹5 lakh
Tarun	₹5 lakh se ₹10 lakh
Tarun Plus	₹20 lakh tak (pichhle payment ke baad)

🔑 **MNEMONIC — Shishu < Kishor < Tarun < Tarun Plus:** Jaise ek bachche ki growth stages hoti hain — SHISHU (baby, sabse chota loan) → KISHOR (teen) → TARUN (young adult) → TARUN PLUS (sabse bada). Age badhti hai, loan amount bhi badhta hai.

8. Top 8 Traps — Last-Minute Recap

#	Trap
1	Awadh Commercial (1881) = Indian-owned; PNB (1894) = FULLY Indian-owned
2	2020 merger: PNB ← OBC+UBI; Canara ← Syndicate; Union ← Andhra+Corp; Indian Bank ← Allahabad
3	Osborne Smith = 1st RBI Governor overall; C.D. Deshmukh = 1st Indian but overall 3rd
4	Repo = RBI lends TO banks; Reverse Repo = banks deposit WITH RBI (opposite directions)
5	Basel-I (1988, India 1999) → Basel-II (2004) → Basel-III (2010 implement)
6	Payments Bank approved July 2014; Small Finance Bank approved August 2015 (sequence ulta lagta hai)

#	Trap
7	MUDRA: Shishu < Kishor < Tarun < Tarun Plus
8	RBI established 1935, nationalised 1949 — dono dates alag hain, mix mat karo

CHAPTER 9 — MEMORY TRICKS

Money and Capital Markets

Economics · ExamFusion Prep · BPSC / BSSC

Money Market Instruments · Capital Market · Stock Exchanges · SEBI · Insurance

1. Call vs Notice vs Term Money — Maturity Sequence

Type	Maturity
Call Money	1 din
Notice Money	2 se 14 din
Term Money	15 se 365 din

MNEMONIC — CALL is shortest, TERM is longest: CALL (jaise ek phone call) = sirf 1 din, turant. NOTICE (thoda advance warning) = 2-14 din. TERM (poora commitment) = 15-365 din. Jitna lamba naam commitment, utni lambi maturity.

2. Money Market Ke 4 Instruments

Instrument	Shuru	Maturity	Min. Amount
Commercial Bill	1990	30/60/90 din	—
Commercial Paper	1990	15 din-1 saal	₹5 lakh (multiples)
Certificate of Deposit	RBI 1989 (New York 1960s)	7 din-1 saal	₹1 lakh (2021 se)
Treasury Bill	—	91/182/364-din	₹25,000

QUICK RECALL: Treasury Bills sabse SAFE money market instrument hain — khud RBI dwara issue hoti hain, face value se DISCOUNT par bikti hain. 14 & 28-din TBs 1997-98 mein issue hui thi.

3. IPO vs FPO — Primary Market Trap

Term	Full Form	Kaun Issue Karta Hai
IPO	Initial Public Offer	NAYI company — PEHLI baar shares issue
FPO	Follow-on Public Offer	ALREADY listed company — ADDITIONAL shares

MNEMONIC — I for Initial/Introduction, F for Follow-up: IPO = company ka stock market mein INTRODUCTION (pehli mulaqat). FPO = purani company ka FOLLOW-UP (dobara milna, extra capital ke liye). Foreign instruments: GDR, ADR, Foreign Commercial Borrowing.

4. BSE vs NSE — Kaun Pehla, Kaun Bada

Feature	BSE	NSE
Established	1875 (Premchand Roychand)	1992 (Pherwani Committee)
Location	Dalal Street, Mumbai	Bandra Kurla Complex, Mumbai
Distinction	Asia ka sabse PURANA	India ka sabse BADA + pehla COMPUTERISED
Index	Sensex (1986)	Nifty 50 (top 50 companies)
Key Promoter	—	IDBI

 **MNEMONIC — BSE = PURANA (Old), NSE = BADA (Big):** BSE (1875) sabse OLD hai, Sensex uska index hai. NSE (1992) sabse BIG/advanced hai, Nifty 50 uska index hai. 117 saal ka gap dono ke establishment mein hai.

 **EXAM TRAP:** MIBOR (Mumbai Inter Bank OFFER Rate) vs MIBID (Mumbai Inter Bank BID Rate) — OFFER vs BID, kabhi swap mat karo. LIBOR (London) 2023 tak global benchmark tha.

5. Duniya Ke Purane Exchanges + GIFT City

Fact	Detail
World's First Stock Exchange	Antwerp, Belgium (1631)
First Modern-Era Exchange	Philadelphia, USA (1790)
India's First International Exchange	GIFT City, Gandhinagar (Jan 2017) — 22 ghante open, 4 microsecond turnaround

 **QUICK RECALL:** UTI (1964) = India ka pehla mutual fund (US 64 Scheme par based); aaj SBI Mutual Fund sabse bada hai. Infosys = NASDAQ par listed pehli Indian company. Nikkei = Tokyo/Japan; Hang Seng = Hong Kong — dono East Asian par alag exchanges.

6. SEBI — Establishment vs Statutory Power Gap

Event	Saal
SEBI Established (non-statutory)	12 April 1988
SEBI Statutory Status (SEBI Act, 1992)	30 January 1992
FMC ka SEBI mein merger	September 2015

 **EXAM TRAP:** SEBI 1988 mein establish hui thi lekin statutory POWER sirf 1992 mein mili (Narasimhan Committee ne recommend kiya) — ye 4-SAAL ka gap ek common date-based trap hai.

7. Insurance Sector — LIC, GIC, IRDAI

Institution	Established	Key Fact
LIC	1 September 1956	HQ Mumbai
GIC	22 November 1972	4 subsidiaries: National, Oriental, New India, United India
IRDAI	IRDA Act 1999 (force 19 Apr 2000)	2014 mein IRDAI naam mila; HQ Hyderabad

 **MNEMONIC — IRDA → IRDAI (Sirf Naam Badla):** IRDA (1999/2000) aur IRDAI (2014) SAME regulator hai — sirf renaming hui, koi naya body nahi bana. India ki pehli General Insurance company: Triton Insurance (1850). Insurance sector mein FDI = 100%. Privatisation Malhotra Committee (1993) ne recommend kiya.

8. Top 8 Traps — Last-Minute Recap

#	Trap
1	Call (1 din) < Notice (2-14 din) < Term (15-365 din) — maturity ascending order
2	IPO = nayi company pehli baar; FPO = already listed company additional shares
3	BSE (1875) = sabse purana; NSE (1992) = sabse bada aur pehla computerised
4	MIBOR (offer rate) vs MIBID (bid rate) — swap mat karo
5	SEBI established 1988, statutory power sirf 1992 mein (4 saal gap)
6	IRDA aur IRDAI same regulator hai — 2014 mein sirf renaming hui
7	World's first exchange = Antwerp (1631); first MODERN-era = Philadelphia (1790)
8	Nikkei = Japan/Tokyo; Hang Seng = Hong Kong — dono East Asian, alag exchange

CHAPTER 10 — MEMORY TRICKS

Fiscal Policy and Budget

Economics · ExamFusion Prep · BPSC / BSSC

Public Finance · Budget History · Types of Budget · Deficits · FRBM Act

1. Budget History — 3 Alag 'Pehla' Milestones

Milestone	Kisne / Kab
India ka pehla budget (British era)	James Wilson — 18 Feb 1860
Independent India ka pehla budget	R.K. Shanmukham Chetty — 26 Nov 1947
Republic of India ka pehla budget	John Mathai — 1950
Budget pesh karne wale pehle PM	Jawaharlal Nehru (1958-59)
Sabse zyada budgets	Morarji Desai — 10 baar

🔑 MNEMONIC — WILSON-CHETTY-MATHAI = British-Independent-Republic: WILSON (1860) = British India ka pehla. CHETTY (1947) = Independent India ka pehla (par abhi Republic nahi bana tha). MATHAI (1950) = Republic ka pehla (Constitution lagu hone ke baad). 1947 se 1950 tak ke 3 saal isi wajah se alag hain.

⚠️ EXAM TRAP: "Budget" word Constitution mein mention NAHI hai — Article 112 "Annual Financial Statement" (Union) ka use karta hai; State ke liye Article 202.

2. Railway Budget — Alag Hua, Wapas Mila

⚡ YAAD RAKHO: Railway Budget General Budget se ALAG hua 1924 mein (Acworth Committee, 1921) — 93 saal alag rehne ke baad, 2017-18 mein Union Budget mein WAPAS MERGE hua (Bibek Debroy Committee ne recommend kiya).

3. Budget Types — Origin Aur India Mein Shuruaat

Type	Origin (World)	India Mein Shuruaat
Performance Budget	USA, 1951 (Hoover Commission 1949)	Kuch areas 1968; saare ministries 1975-76
Zero-based Budgeting	Peter A. Pyhrr (1970); USA 1973 first use	CSIR ne initiate; general budget 1987-88
Outcome Budget	—	2005 (P. Chidambaram)
Gender Budget	Australia, 1984	2005-06 (P. Chidambaram)

⚠️ EXAM TRAP: Outcome Budget (2005) aur Gender Budget (2005-06) DONO P. Chidambaram ne SAME period mein shuru kiye — exact saal aur definitions confuse karna aasan hai, dono ko alag-alag yaad rakho.

4. Balanced vs Surplus vs Deficit Budget

Type	Condition
Balanced Budget	Revenue = Expenditure
Surplus Budget	Revenue > Expenditure
Deficit Budget	Revenue < Expenditure

✅ **QUICK RECALL:** Vote on Account sirf EXPENDITURE side se related hai — Interim Budget (jo revenue aur expenditure DONO cover karta hai) jaisa NAHI hai.

5. Deficit Formulas — Chain Yaad Rakho

Deficit	Formula	Shuru/Introduce
Budget Deficit	Total Expenditure – Total Receipts	1997-98 mein separate measure khatam
Revenue Deficit	Revenue Expenditure – Revenue Receipts	—
Effective Revenue Deficit (ERD)	Revenue Deficit – Capital Assets Grants	2011-12 introduce; FRBM mein 2012-13
Fiscal Deficit	Total Expenditure – Total Receipts (borrowings chhod kar)	—
Primary Deficit	Fiscal Deficit – Interest Payments	1997-98 mein shuru

🔑 **MNEMONIC — Chain: Revenue → ERD → Fiscal → Primary:** Har deficit pichle se KUCH SUBTRACT karke banta hai: Revenue Deficit se Capital grants subtract = ERD. Fiscal Deficit hamesha Revenue Deficit se BADA hota hai (kyunki usme borrowings ke alawa sab include hai). Fiscal Deficit se Interest Payments subtract = Primary Deficit — isliye Primary Deficit usually sabse CHOTA hota hai.

⚠️ **EXAM TRAP:** Fiscal Deficit HAMESHA Revenue Deficit se zyada hota hai — ye order kabhi reverse nahi hota, isko exam mein direct fact ki tarah yaad rakho.

6. Revenue vs Capital — Receipts aur Expenditure

Part	Test
Revenue Receipts	Na liability badhati, na assets ghatati (Tax + Non-tax)
Revenue Expenditure	Na asset banata, na liability ghatata (Salaries, Interest, Subsidies)
Capital Receipts	Liability BADHATI ya assets GHATATI hai (Loans, Disinvestment)
Capital Expenditure	Assets BANATA ya liability GHATATA hai (Infrastructure, Loan repayment)

✅ **QUICK RECALL:** 2017 se Planned aur Non-Plan Expenditure ki division OFFICIALLY khatam ho gayi — post-2017 budgets ke liye ye classification use mat karo.

7. FRBM Act

⚡ **YAAD RAKHO:** FRBM Act (Fiscal Responsibility and Budget Management), 2003 mein PASS hua, July 2004 mein IMPLEMENT hua. Objective: Fiscal Consolidation aur Public Expenditure Management.

8. Top 7 Traps — Last-Minute Recap

#	Trap
1	Independent India ka pehla budget (1947, Chetty) ≠ Republic ka pehla budget (1950, Mathai)
2	Railway Budget 1924 mein alag hua, 2017-18 mein Union Budget mein wapas mila
3	Outcome Budget aur Gender Budget dono P. Chidambaram, same 2005 period mein
4	Vote on Account sirf expenditure side; Interim Budget revenue+expenditure dono
5	Fiscal Deficit hamesha Revenue Deficit se zyada hota hai
6	Primary Deficit = Fiscal Deficit – Interest Payments (usually sabse chota)
7	FRBM Act 2003 mein pass, July 2004 mein implement — dono dates alag

CHAPTER 11 — MEMORY TRICKS

Tax System

Economics · ExamFusion Prep · BPSC / BSSC

Progressive/Regressive/Proportional · Direct & Indirect Taxes · GST · GST Council

1. Progressive vs Regressive vs Proportional Tax

Type	Kya Hota Hai	Example
Progressive	Income ↑ → Tax ↑	India Income Tax slabs
Regressive	Income ↑ → Tax BURDEN ↓	GST, Sales Tax
Proportional	Sabka SAME rate, income kuch bhi ho	Flat rate tax

MNEMONIC — GST 'Fair' Lagta Hai Par REGRESSIVE Hai: GST sabko SAME rate par lagta hai isliye "fair" lagta hai — par ye REGRESSIVE hai kyunki poor aur rich dono same rate pay karte hain, to poor ke liye burden proportionally zyada hota hai. Progressive = rich se zyada; Regressive = sabse same (par effectively poor ko zyada chubhta hai).

2. Direct vs Indirect Tax — Burden Shift

Type	Burden Kahan Jaata Hai
Direct Tax	Jispar levy hota hai WAHI pay karta hai — shift NAHI hota
Indirect Tax	Goods/services par lagta hai — burden DOOSRE par SHIFT ho jaata hai

MNEMONIC — Tax Burden ≠ Tax Incidence: TAX INCIDENCE = jispar LEGALLY tax lagta hai wahi bear bhi karta hai (matching). TAX BURDEN = ek par levy hota hai par FINAL mein doosra pay karta hai (jaise GST — shopkeeper collect karta hai, customer actually pay karta hai). Incidence = legal match; Burden = actual mismatch.

QUICK RECALL: Service Tax 1994 mein shuru hui, Raja Chelliah Committee ki recommendation par.

3. CESS vs Surcharge vs Pigouvian Tax

Term	Purpose
CESS	SPECIFIC purpose ke liye earmarked (jaise Education Cess)
Surcharge	"Tax on tax" — koi specific purpose ZAROORI NAHI
Pigouvian Tax	Market transactions par — negative externalities create karta hai

 **MNEMONIC — CESS = Committed, Surcharge = Sadharan (General):** CESS ek COMMITTED purpose ke liye hota hai — jahan collect hua, wahi use hoga. SURCHARGE general revenue mein chala jaata hai, koi specific earmarking nahi. Dono "extra tax" hain, par CESS purpose-bound hai.

4. Centre vs State Tax Division — Sabse Bada Trap

Level	Direct Tax Examples	Indirect Tax Examples
Centre	Income Tax, Corporate Tax, Capital Gains Tax	Service Tax, Custom Duty, Central Excise
State	Agricultural Income Tax, Land Revenue, Professional Tax	Sales/Purchase Tax, Stamp Duty, Vehicle Tax

 **EXAM TRAP:** Agricultural Income par Tax ek STATE subject hai, Centre nahi — ye ek frequently tested Centre-State division question hai. Income Tax (non-agricultural) Centre ka hai, par Agricultural Income Tax State ka hai.

5. GST — Basics Aur Scope Se Bahar

Fact	Detail
Constitutional Provision	101st Amendment, 2016
Implement	1 July 2017
Rates	0%, 5%, 12%, 18%, 28%
Pehla state jo GST pass kiya	Assam
Scope se BAHAR	Alcohol, Real Estate, Aviation, Crude Oil, Petrol, Turbine Fuel

 **QUICK RECALL:** Petroleum products aur alcohol GST se bahar hain — states ke liye ye major revenue source hai, isliye include nahi kiya gaya. High-frequency BPSC question.

6. IGST vs SGST/CGST vs UTGST

Type	Kab Apply Hota Hai
IGST	INTER-state transactions (2 states ke beech)
SGST + CGST	INTRA-state transactions (ek hi state ke andar) — DONO SAATH
UTGST	Union Territory transactions

 **MNEMONIC — Intra = 2 Taxes Saath (SGST+CGST); Inter = 1 Tax (IGST):** Ek hi state ke andar transaction ho to State aur Centre DONO ka hissa hai — isliye SGST+CGST dono lagte hain. Do states ke beech transaction ho to seedha ek combined IGST lagta hai — 'I' for Inter.

7. GST Council — Voting Structure

Fact	Detail
Total Members	33 (31 voting)
Chairpersons (non-voting)	Union FM + Union State FM
Centre ka voting right	33.3% (1/3)
States ka voting right (collectively)	66.6% (2/3)
Decision Threshold	3/4 (75%) Majority

 **MNEMONIC — Centre 1/3, States 2/3, Pass Karne Ke Liye 3/4:** Centre KA weightage 1/3 (33.3%), sabhi States MILKAR 2/3 (66.6%) — koi bhi decision paas karne ke liye kul 3/4 (75%) votes chahiye. Na Centre akele decide kar sakta hai, na States — dono ka saath zaroori hai.

8. Top 7 Traps — Last-Minute Recap

#	Trap
1	GST 'fair' lagta hai par structurally REGRESSIVE tax hai
2	Tax Burden (shift ho sakta hai) $\neq$ Tax Incidence (legal, no shift)
3	CESS = specific purpose bound; Surcharge = general, koi restriction nahi
4	Agricultural Income Tax = STATE subject, Centre nahi
5	GST scope se bahar: Alcohol, Petroleum, Real Estate, Aviation
6	Intra-state = SGST+CGST dono; Inter-state = sirf IGST
7	GST Council: Centre 33.3%, States 66.6%, pass karne ke liye 75% majority

CHAPTER 12 — MEMORY TRICKS

Foreign Trade, Balance of Payments and Foreign Investment

Economics · ExamFusion Prep · BPSC / BSSC

BOT · BOP · Exchange Rate · FEMA · FDI/FPI/FII

1. Balance of Trade (BOT) — Sirf Goods

Term	Condition
Trade Surplus	Exports > Imports
Trade Deficit	Exports < Imports

⚠️ **EXAM TRAP:** BOT sirf TANGIBLE goods cover karta hai, jabki BOP ka Current Account goods AUR services dono cover karta hai — BOT aur Current Account ko identical mat samjho, BOT usme sirf ek hissa hai.

✅ **QUICK RECALL:** India Petroleum Products EXPORT bhi karta hai aur Petroleum Oil IMPORT bhi karta hai — kyunki crude oil import karke refine karta hai aur refined products export karta hai. Top trading partners: China, USA, UAE.

2. BOP — Current Account vs Capital Account

Account	Kya Include Hota Hai	Income/Employment Par Impact
Current Account	Goods + Services + Unilateral transfers (gifts, remittances)	DIRECT impact
Capital Account	FDI, FII, ECB, Foreign Aid, NRI Deposits	Koi DIRECT impact NAHI

🔑 **MNEMONIC — Current = Roz Ka Kaam, Capital = Investment:** CURRENT Account mein roz ka trade (goods/services) hota hai — isse directly logo ki job/income affect hoti hai. CAPITAL Account sirf financial flows (investment) hai — isse directly employment nahi banti, sirf paisa move hota hai.

✅ **QUICK RECALL:** Current Account Deficit = Imports value > Exports value. Twin Deficits = Current Account Deficit + Fiscal Deficit (dono ek saath high hone ko kehte hain).

3. FERA → FEMA — Restrictive Se Facilitative

Fact	Detail
FERA	1973 — restrictive/regulatory
FEMA	1999 — facilitative; effective 1 June 2000; FERA ko REPLACE kiya
India Exchange Rate System	1993 se Managed system

Fact	Detail
Tarapore Committee I	1997 — Rupee capital account convertibility
Tarapore Committee II	2006 — Rupee abhi bhi fully convertible NAHI

✅ **QUICK RECALL:** India ka exchange rate system market demand/supply par based hai — RBI zaroorat padne par intervene karta hai.

🔑 **MNEMONIC — FERA = Restrict, FEMA = Facilitate:** FERA (1973) ek RESTRICTIVE law thi — control-based era. FEMA (1999) ek FACILITATIVE law hai — liberalization era. Ye shift India ke 1991 reforms ki taraf move ko reflect karta hai.

✅ **QUICK RECALL:** Currency Devaluation: Imports mehenge ho jaate hain (kam hote hain), Exports sasta ho jaate hain (badhte hain). Foreign Exchange Reserve = Foreign assets + Gold + IMF Reserve Fund + SDR.

4. FDI vs FPI vs FII — Control Ka Trap

Type	Nature	Ownership/Behavior
FDI	Long-term, control	Capital goods involve; business control leta hai
FPI	Short-term, volatile	Company ke 10% SE KAM shares — "hot money"
FII	Portfolio-style	Shares/mutual funds ke through investment

🔑 **MNEMONIC — FDI = Ghar Banana, FPI/FII = Kiraye Par Rehna:** FDI wale COMMIT karte hain (10% se zyada, control ke saath, long-term — jaise ghar khareedna). FPI/FII wale sirf shares kharidte hain (10% se KAM, no control, kabhi bhi nikal sakte hain — jaise kiraye par rehna). 10% threshold hi FDI ko FPI se alag karta hai.

✅ **QUICK RECALL:** Greenfield Investment = NAYE unit ka development. Brownfield Investment = PEHLE SE EXISTING unit mein investment.

5. FDI Sector Limits — Bade Gaps Yaad Rakho

Sector	FDI Limit
Multi-brand retail, Single-brand retail	100%
Telecom, Defence Products	100%
Railway-related projects	100%
Courier services and Insurance	100%
Petroleum refinery, Civil aviation, Power exchange	49%
Private Sector Banks	74%

Sector	FDI Limit
Public Sector Banks	20%

⚠ **EXAM TRAP:** Public Sector Banks (20%) vs Private Sector Banks (74%) — 54 percentage points ka BADA gap, isliye ye heavily tested contrast hai. Railway OPERATIONS mein FDI restricted hai, par Railway-RELATED PROJECTS (tracks, stations) mein 100% allowed hai.

✅ **QUICK RECALL:** FDI bilkul allowed NAHI: Lottery, Betting, Chit funds, Real Estate, Railway Operations, Nidhi Company, Gambling, Tobacco/Cigarettes.

6. Top 7 Traps — Last-Minute Recap

#	Trap
1	BOT = sirf tangible goods; Current Account (BOP) = goods + services dono
2	Current Account = income/employment par direct impact; Capital Account = nahi
3	FERA (1973, restrictive) → FEMA (1999, facilitative) — 1991 reforms ki taraf shift
4	FDI (10%+, control) vs FPI (10% se kam, volatile hot money)
5	Railway Operations mein FDI restricted, par Railway-related PROJECTS mein 100% allowed
6	Public Sector Banks FDI = 20%; Private Sector Banks FDI = 74% — bada gap
7	India Petroleum export bhi karta hai (refined) aur import bhi (crude)

CHAPTER 13 — MEMORY TRICKS

Indian Agriculture

Economics · ExamFusion Prep · BPSC / BSSC

Crops · Landholdings · Revolutions · MSP/CACP/FCI · Horticulture · Schemes

1. Agriculture GDP Share Vs Employment — Mismatch

Metric	1950-51	2024-25
GDP Contribution	55.4%	16%
Workforce Engaged (Census 2011)	—	54.6%

⚠️ EXAM TRAP: GDP share 55.4% se girkar 16% ho gaya, LEKIN engaged workforce abhi bhi 54.6% (high) hai — GDP share aur employment share ke beech ye MISMATCH ek classic exam point hai. Matlab: kam GDP contribute karne wale sector mein sabse zyada log kaam karte hain.

2. Rabi vs Kharif vs Zaid — Season Ka Crop

Season	Crops
Rabi (Winter)	Wheat, Chickpea, Barley, Mustard, Pea
Kharif (Monsoon)	Paddy, Jowar, Bajra, Maize, Cotton, Sugarcane, Soybean
Zaid (Summer)	Watermelon, Cucumber, Muskmelon, Sunflower

🔑 MNEMONIC — Bt-Cotton = India Ka EK Matra GM Crop: India mein sirf EK approved GM crop hai — Bt-Cotton. Commercial Crops aur Cash Crops overlap karte hain (Sugarcane, Groundnut, Mustard, Sesame dono lists mein) — inhe strictly alag mat karo, ye interchangeably use hote hain.

3. Landholding Sizes

Type	Size
Marginal	1 hectare se kam (India mein SABSE ZYADA)
Small	1-2 hectares
Semi-medium	2-4 hectares
Medium	4-10 hectares
Large	10 hectares se zyada

✅ QUICK RECALL: Irrigation sources: Tube Wells 57% (UP mein sabse zyada) > Canals 32% > Wells 16%. Punjab = most irrigated state (%); Mizoram = least irrigated. 8th Plan (4.68%) = sabse zyada agricultural growth record kiya.

4. Green Revolution — 2 Fathers

Fact	Detail
World Father	Norman Borlaug (Mexico)
India Father	Dr. M.S. Swaminathan
Shuru	1965, Pantnagar (Uttarakhand)
Affected Areas	Punjab, Haryana, Western UP
White Revolution	1970, Dr. Verghese Kurien (Operation Flood — milk)

 **MNEMONIC** — Borlaug = World, Swaminathan = India: Jaise Ch7 mein Poverty ke liye Boyd Orr/Sen tha, waise hi Green Revolution mein BORLAUG duniya ka father hai, SWAMINATHAN India ka. Dono NAAM alag category ke fathers hain — kabhi confuse mat karo.

5. Colour-Coded Revolutions — Poora Set

Colour	Sector/Product
White	Milk
Yellow	Oilseed
Round	Potato
Blue	Fish
Red	Meat/Tomato
Pink	Prawn/Onion
Black	Petroleum
Grey	Fertiliser
Silver	Egg
Golden	Horticulture
Saffron	Solar Energy

 **EXAM TRAP:** "Silver Revolution" ke do meanings hote hain context ke hisaab se — Egg Production (general colour list) vs Animal Welfare/Grains (Rainbow Revolution classification) — question ka context carefully check karo.

6. CACP → MSP → FCI Chain

Institution	Established	Kaam
CACP	1965 (as APC), renamed 1985	Govt. ko crop prices fix karne mein advise; MSP recommend karta hai
MSP	1966-67 shuru	22 mandated crops (7 cereals + 5 pulses + 7

Institution	Established	Kaam
		oilseeds + 4 commercial)
FCI	1965	Food grains ka Purchase, Storage, Transport, Distribution, Sale
NABARD	1982 (Shivraman Committee)	Agriculture/rural finance apex body; Kisan Credit Card 1998-99

⚠ **EXAM TRAP:** Sugarcane ki price MSP se NAHI, FRP (Fair and Remunerative Price) se fix hoti hai — 22+ mandated crops mein ye ek commonly confuse hone wala exception hai.

7. PM-Kisan Samman Nidhi vs PM-Kisan Maan-Dhan Yojana

Scheme	Saal	Kya Deta Hai
PM Kisan Samman Nidhi	2019	₹6000/year INCOME SUPPORT, 3 instalments
PM Kisan Maan-Dhan Yojana	12 Sep 2019	₹3000/month PENSION (60 saal ke baad), umar 18-40

🔑 **MNEMONIC — SAMMAN = Support Now, MAAN-DHAN = Money After 60:** SAMMAN Nidhi = abhi income SUPPORT (₹6000/year). MAAN-DHAN Yojana = baad mein PENSION (₹3000/month, 60 ke baad). Dono "PM Kisan" naam se shuru hote hain isliye confuse hote hain — par ek abhi paisa deta hai, doosra retirement ke baad.

✅ **QUICK RECALL:** PM Krishi Sinchai Yojana (2015) = irrigation ("more crop per drop"). PM Fasal Bima Yojana (2016) = crop insurance. e-NAM (2016) = fair price marketplace. National Food Security Act (2013): Rural 75%, Urban 50% coverage.

8. Top 8 Traps — Last-Minute Recap

#	Trap
1	Agri GDP share 55.4%→16%, par workforce abhi bhi 54.6% — mismatch yaad rakho
2	Bt-Cotton = India ka EK matra approved GM crop
3	Green Revolution: World Father = Borlaug; India Father = Swaminathan
4	Sugarcane price = FRP se fix hoti hai, MSP se NAHI
5	Silver Revolution: context ke hisaab se Egg ya Animal Welfare/Grains
6	PM Kisan Samman Nidhi = ₹6000/year support; Maan-Dhan = ₹3000/month pension
7	CACP (1965 as APC, renamed 1985) advises; MSP shuru hui 1966-67
8	Commercial aur Cash Crops overlap karte hain — Sugarcane/Groundnut/Mustard dono mein

CHAPTER 14 — MEMORY TRICKS

Indian Industries

Economics · ExamFusion Prep · BPSC / BSSC

Industrial History · Policies · Ratna Status · IIP · EPZ/SEZ · Schemes

1. Steel Aur Aluminium — Pehla Kaun

Industry	Fact
Iron/Steel start	1870, Bengal Iron Works (Kulti)
TISCO	1907, Jamshedpur
Pehla Public Sector Steel Plant	Rourkela Steel Plant, 1959 (Odisha)
Pehli Aluminium Industry	J.K. Nagar, 1937 (West Bengal)
NALCO	1981, Bhubaneswar — sabse bada Bauxite-Aluminium project
BALCO	1965, Korba (Chhattisgarh) — India ka PEHLA PSU

⚠ EXAM TRAP: BALCO ke naam ki wajah se aksar STEEL se related samjha jaata hai — actually ye ALUMINIUM industry mein India ka pehla Public Sector Undertaking hai.

2. Textile City Nicknames

Nickname	City
India ka Cottonopolis/Manchester	Mumbai
East's Boston	Ahmedabad
North India ka Manchester	Kanpur
South India ka Manchester	Coimbatore

🔑 MNEMONIC — MUMBAI = Original Manchester, Baaki 2 = Regional Manchester: MUMBAI khud "Cottonopolis" hai (world-famous). KANPUR = North ka Manchester, COIMBATORE = South ka Manchester — dono regional versions. AHMEDABAD alag hai, wo "East's BOSTON" hai (Manchester nahi).

✅ QUICK RECALL: Pehli Cotton Mill: Kolkata (1818). Jute: pehli mill 1855 Rishra; West Bengal sabse bada producer. Silk: 2nd largest producer world mein (1st China); Karnataka India mein largest.

3. Industrial Policies — Saal Ka Chain

Policy	Saal	Key Point
Industrial Policy 1948	6 April 1948	4 categories (Shyam Prasad Mukherjee)
Industrial Policy 1956	30 April 1956	3 categories: Govt(17), Govt+Private(12), Private
Industrial Policy 1970	Feb 1970	Small-scale sector, DIC sthapna
Industrial Policy 1980	23 July 1980	Sick units solve karna
LPG Policy 1991	24 July 1991	Liberalisation, Privatisation, Globalisation

⚠ EXAM TRAP: MRTP Act (1969) ko Competition Act, 2002 ne REPLACE kiya — amend nahi, POORI TARAH replace. Dono monopolistic/restrictive trade practices deal karte the, par alag frameworks ke under.

4. Ratna Hierarchy — Maharatna > Navratna > Miniratna

Category	Shuru	Current Number	Key Criteria
Maharatna	2010	14	Navratna + foreign presence + ₹25,000cr turnover
Navratna	1997	26 (May 2025)	60/100 score, 6 parameters
Miniratna Cat-I	—	49 (Mar 2025)	3 saal profit, ₹30cr/year
Miniratna Cat-II	—	10 (Mar 2025)	3 saal profit + positive net worth

🔑 MNEMONIC — MAHA > NAVA > MINI-I > MINI-II: Naam ka size hi hierarchy batata hai: MAHA (great) sabse upar, NAVA (nau) uske neeche, MINI (chota) sabse neeche — MINI mein bhi Category-I, Category-II se bada. Sequence reverse mat karo.

5. IIP — Sector Aur Core Industry Weightage

IIP Sector	Weightage
Manufacturing	77.63%
Mining	14.37%
Electricity	~8% (7.99%)

Core Industry (8 total, 40.27%)	Weightage
Refinery products	28.04% (SABSE ZYADA)
Electricity	19.85%
Steel	17.92%
Coal	10.33%
Crude oil	8.98%
Natural gas	6.88%

Core Industry (8 total, 40.27%)	Weightage
Cement	5.37%
Fertilisers	2.63% (SABSE KAM)

✅ **QUICK RECALL:** IIP base year = 2011-12, NSO monthly estimate karta hai. Refinery Products sabse zyada weightage (28.04%), Fertilisers sabse kam (2.63%).

6. City-Industry Pairs — Duplicate Trap

Industry	Cities (Duplicate Pairs)
Sports Goods	Jalandhar AUR Meerut (dono)
Handloom	Panipat AUR Nagpur (dono)

✅ **QUICK RECALL:** Kuch aur important pairs: Kanchipuram-Silk, Sivakasi-Match Box, Moradabad-Brass, Tiruppur-Hosiery, Surat-Gems/Jewellery, Panipat-Handloom, Agra-Leather, Khurja-Pottery.

🔑 **MNEMONIC — 2 Cities, 2 Industries, Ek Hi Jaisi Pattern:** SPORTS Goods = Jalandhar + Meerut (dono North India). HANDLOOM = Panipat + Nagpur. Jab exam mein ek city puchhi jaaye, doosri bhi yaad rakhna kyunki dono valid answers ho sakte hain.

7. Start Up India vs Stand Up India

Scheme	Saal	Target
Start Up India	January 2016	GENERAL innovation aur startup ecosystem
Stand Up India	April 2016	SC/ST WOMEN entrepreneurship specifically

🔑 **MNEMONIC — START = Sabke Liye, STAND = Specific Group Ke Liye:** START Up India sabke liye general innovation hai. STAND Up India specific target group (SC/ST women) ke liye hai — jaise koi "stand up" karke khud ko support kar raha ho. Bahut similar naam, alag target.

✅ **QUICK RECALL:** Make in India: 25 Sep 2014. NIIF: 2015, ₹40,000 crore (Centre 50% + Private 50%). EPZ: Asia ki pehli Kandla (1965); EPZ→SEZ conversion 1 April 2000, SEZ Act 2005.

8. Top 8 Traps — Last-Minute Recap

#	Trap
1	BALCO = India ka pehla PSU (ALUMINIUM, naam se steel lagta hai)
2	Mumbai = Cottonopolis; Ahmedabad = East's Boston (Manchester)

#	Trap
	nahi)
3	MRTA Act (1969) ko Competition Act (2002) ne poori tarah REPLACE kiya
4	Ratna hierarchy: Maharatna > Navratna > Miniratna Cat-I > Cat-II
5	Refinery Products (28.04%) = sabse zyada core industry weightage; Fertilisers (2.63%) sabse kam
6	Sports Goods = Jalandhar + Meerut; Handloom = Panipat + Nagpur
7	Start Up India (general) vs Stand Up India (SC/ST women specific)
8	EPZ→SEZ conversion 2000; SEZ Act pass hua 2005 — dono dates alag

CHAPTER 15 — MEMORY TRICKS

Other Major Schemes

Economics · ExamFusion Prep · BPSC / BSSC

Government of India Schemes — Start Dates, Full Forms aur Objectives

1. Sabse Zyada Confuse Hone Wale Pairs

Scheme A	Scheme B	Farak
PM-KUSUM (2019)	PM Surya Ghar (Feb 2024)	KUSUM = farmers ke solar PUMPS; Surya Ghar = household ROOFTOP solar + free electricity
PM Gatishakti (2021)	PM PRANAM (June 2023)	Gatishakti = infrastructure master plan; PRANAM = fertiliser (organic+chemical balance)
PM Poshan Shakti Nirman (2021)	POSHAN Abhiyaan (2018)	Poshan Shakti = renamed MID-DAY MEAL; POSHAN Abhiyaan = women/children NUTRITION mission

MNEMONIC — Naam Same Lage To Sector Dekho: KUSUM aur Surya Ghar dono "solar" hai par ek FARMER-focused (pumps), doosra HOUSEHOLD-focused (rooftop). Gatishakti aur PRANAM dono PM schemes hain par bilkul alag sectors (infra vs fertiliser). Poshan Shakti Nirman aur Poshan Abhiyaan dono "Poshan" naam se shuru hote hain par ek MEAL scheme hai, doosra NUTRITION mission.

2. Acronym Full Forms

Scheme	Full Form
PM PRANAM	Programme for Restoration, Awareness, Nourishment and Amelioration of Mother Earth
SHRESTHA	Scheme for Residential Education for Students in High Schools in Targeted Areas
SMILE	Support for Marginalised Individuals for Livelihood and Enterprise
PM-KUSUM	PM Kisan Urja Suraksha evam Utthan Mahabhiyan
SVAMITVA	Survey of Villages and Mapping with Improved Technology in Village Areas
UDAN	Ude Desh Ka Aam Nagrik
USTAAD	Upgrading the Skills and Training in Traditional Arts/Crafts for Development

QUICK RECALL: Sukanya Samriddhi Yojana ki exact date (22 Jan 2015) same date hai "Beti Bachao, Beti Padhao" campaign launch ki bhi — dono ek saath launch hue the.

3. Kaun Kis Group Ke Liye — Target Yaad Rakho

Scheme	Target Group
SHRESTHA (June 2022)	SC community meritorious students (Class 9-12)
SMILE (Feb 2022)	Transgenders, beggars, marginalised individuals
PM PVTG Vikas Mission (Nov 2023)	Particularly Vulnerable Tribal Groups
PM Adi Adarsh Gram (2021-22)	Tribal villages (overall development)
PM Vidyalaxmi Yojana (Nov 2024)	Backward class students — higher education

✓ **QUICK RECALL:** Atal Innovation Mission (2016): Atal Tinkering Labs → SCHOOL level; Atal Incubation Centres → UNIVERSITY/institute level. Alag-alag levels, mix mat karo.

4. Saal Ke Hisaab Se Groups

Saal	Schemes
2015	PM Jeevan Jyoti Bima, Sukanya Samriddhi (22 Jan), PM Kaushal Vikas (July), USTAAD (May)
2016	Atal Innovation Mission, UDAN (Oct), Setu Bharatam
2019	One Nation One Ration Card (Aug), SUMAN (Oct), PM-KUSUM, Jal Jeevan Mission
2020-22	SVAMITVA (2020), PM Gatishakti (2021), PM Adi Adarsh Gram, SMILE, SHRESTHA, PM Poshan Shakti, Agnipath
2023-24	PM PRANAM (June'23), PVTG Mission (Nov'23), Surya Ghar (Feb'24), Vidyalaxmi (Nov'24), Bima Sakhi (Dec'24)

🔑 **MNEMONIC — Newest First: BIMA-VIDYA-SURYA-PVTG-PRANAM:** 2024-25 revision ke liye ULTA order yaad rakho: Bima Sakhi (Dec'24) → Vidyalaxmi (Nov'24) → Surya Ghar (Feb'24) → PVTG Mission (Nov'23) → PRANAM (June'23). Fir 2021-22 ka cluster: Adi Adarsh Gram, SHRESTHA, Agnipath, SMILE.

5. Top 6 Traps — Last-Minute Recap

#	Trap
1	PM-KUSUM (farmer solar pumps) ≠ PM Surya Ghar (household rooftop solar)
2	PM Gatishakti (infra) ≠ PM PRANAM (fertiliser) — bilkul alag sectors
3	PM Poshan Shakti Nirman (renamed Mid-Day Meal) ≠ POSHAN Abhiyaan (nutrition mission, 2018)
4	Sukanya Samriddhi launch date (22 Jan 2015) = Beti Bachao Beti Padhao launch date
5	Atal Tinkering Labs = school level; Atal Incubation Centres = university level

#	Trap
6	One Nation One Ration Card (Aug 2019) = PDS portability across states

CHAPTER 16 — MEMORY TRICKS

International Financial Institutions

Economics · ExamFusion Prep · BPSC / BSSC

Bretton Woods Institutions, Trade Bodies, Regional Groupings, Development Banks aur Global Forums

1. Bretton Woods Twins — IMF Aur World Bank

Fact	IMF	World Bank
Established	1944	1944
HQ	Washington D.C.	Washington D.C.
Members	191	189
Objective	Short-term loans, BOP correct karna	Long-term loans (reconstruction & development)

✅ **QUICK RECALL:** SDR ("Paper Gold") ki value 5 currencies ke basket par based hai: US Dollar, Euro, Yen, Pound Sterling, Chinese Yuan. India IMF mein 27 December 1945 ko join hua.

🔑 **MNEMONIC — World Bank Group = I Ate Ice-cream For Money:** 5 institutions yaad rakhne ke liye: I Ate Ice-cream For Money → IBRD, IDA, IFC, MIGA, ICSID. Har letter ek institution — order mein yaad rakho.

2. WTO — GATT Ko Replace Kiya

Fact	Detail
GATT established	1 January 1948
WTO established (GATT replace)	1 January 1995
WTO HQ	Geneva
WTO Members	166

⚠️ **EXAM TRAP:** GATT (1948) aur WTO (1995) — dono ki date '1 January' hai, sirf saal alag hai (47 saal ka gap). Date ka pattern same hone ki wajah se saal easily mix ho jaata hai.

3. Development Banks — ADB, AIIB, NDB

Bank	Established	HQ	Key Fact
ADB	19 Dec 1966	Manila	69 members; India FOUNDING country
NDB (BRICS Bank)	2014	Shanghai	Emerging countries infra

Bank	Established	HQ	Key Fact
			development
AiIB	2015 (ops 2016)	Beijing	110 countries; China-led

 **MNEMONIC — ADB Sabse Purana, Fir NDB, Fir AIIB:** ADB (1966) = sabse OLD regional dev bank. NDB (2014) = BRICS-founded. AIIB (2015) = sabse NAYA, China-led, sabse zyada members (110). Chronological order: ADB → NDB → AIIB.

4. ASEAN vs SAARC — SAME DATE Trap

Grouping	Established	HQ	Members
ASEAN	8 December 1985	Jakarta	10 (Southeast Asia)
SAARC	8 December 1985	Kathmandu	8 (South Asia)
BIMSTEC	1997	—	7 (Bay of Bengal)

 **EXAM TRAP:** ASEAN aur SAARC dono BILKUL SAME DATE (8 December 1985) par establish hue — lekin ye alag groupings hain: ASEAN = Southeast Asia (10 members, Jakarta HQ), SAARC = South Asia (8 members, Kathmandu HQ). Exam mein sabse zyada confuse hone wala pair.

5. BRICS — Growth Timeline

Saal	Event
2001	'BRIC' term coined — Jim O'Neill (Goldman Sachs)
2009	First summit, Yekaterinburg (Russia) — 4 nations
2010	South Africa join hua — BRICS bana
1 Jan 2024	5 naye members: Saudi Arabia, Egypt, Ethiopia, UAE, Iran
Jan 2025	Indonesia join hua — 11th member
6-7 July 2025	17th BRICS Summit, Rio de Janeiro

 **MNEMONIC — 2001-COIN → 2009-SUMMIT → 2010-SA → 2024-FIVE → 2025-INDO:** BRICS ki poori kahani step-by-step: naam pehle bana (2001), fir summit hua (2009), fir South Africa jud gaya (2010), fir 5 aur log aaye (2024), fir Indonesia (2025) — ab total 11 members.

6. G-20, G-7, EU — Numbers Ka Trap

Group	Established	Members
G-7	1975	7 (USA, France, Britain, Italy, Germany, Canada, Japan)
G-20	1999 (Berlin)	19 countries + EU + African Union

Group	Established	Members
EU	1957 (as EEC), EU bana 1993	27 members, 20 Eurozone

⚠ **EXAM TRAP:** EU mein 27 MEMBERS hain lekin sirf 20 EUROZONE (Euro use karte hain) — total EU members ≠ Eurozone members, ek common numeric trap. Russia 1997 mein G-7 join karke G-8 bana, par 2014 mein remove ho gaya — wapas G-7.

7. Geneva — 3 Bodies Ki Mezbani

⚡ **YAAD RAKHO:** Geneva mein 3 major bodies ka HQ hai: WTO, WEF, aur UNCTAD — prelims mein ek favourite HQ-matching trap. OPEC ka HQ Vienna hai (Geneva nahi), yaad rakho isko alag rakhna.

✅ **QUICK RECALL:** OPEC: 1960 (Baghdad), HQ Vienna; Angola 1 Jan 2024 ko withdraw hua. UNCTAD: 1964, HQ Geneva, 195 members. WEF: Jan 1971 (Klaus Schwab), HQ Geneva, annual meeting Davos.

8. Top 7 Traps — Last-Minute Recap

#	Trap
1	IMF aur World Bank dono 1944 mein, dono Washington D.C. mein — par members alag (191 vs 189)
2	GATT (1 Jan 1948) → WTO (1 Jan 1995) — same date pattern, 47 saal ka gap
3	ASEAN aur SAARC dono 8 December 1985 ko bane — Southeast Asia vs South Asia
4	ADB (1966) → NDB (2014) → AIIB (2015) — chronological order
5	BRICS: 2001 coined → 2009 summit → 2010 SA joins → 2024 five new → 2025 Indonesia
6	EU = 27 members, par sirf 20 Eurozone (Euro use karne wale)
7	Geneva mein WTO+WEF+UNCTAD; OPEC alag — Vienna mein

CHAPTER 17 — MEMORY TRICKS

Census

Economics · ExamFusion Prep · BPSC / BSSC

History, Administrative Framework aur Census 2011 Key Statistics

1. Census History — 'First' vs 'First Systematic'

Milestone	Saal / Kisne
India ka PEHLA census	1872, Lord Mayo
India ki PEHLI SYSTEMATIC census	1881, Lord Ripon
Pehli Post-Independence census	1951
World's first census (modern method)	Sweden, 1749
First decadal census	USA, 1830

⚠ **EXAM TRAP:** 1872 (Lord Mayo) pehla ATTEMPT tha lekin NON-SYNCHRONOUS tha; 1881 (Lord Ripon) pehli SYNCHRONOUS/SYSTEMATIC census thi — exams "first" vs "first systematic" ko alag-alag test karte hain.

🔑 **MNEMONIC — MAYO = Pehla Try, RIPON = Pehla Sahi Tarika:** MAYO (1872) ne pehli baar koshish ki, par tarika theek nahi tha (non-synchronous). RIPON (1881) ne SYSTEMATIC tarika diya jo aaj tak follow hota hai. "Pehla" aur "pehla systematic" alag hain — 9 saal ka gap.

2. Census — Constitutional Aspect

Fact	Detail
Subject List	Union List (7th Schedule)
Constitutional Article	Article 246
Census Department established	1961
Administering Ministry	Ministry of Home Affairs
Top Official	Registrar General & Census Commissioner of India

✅ **QUICK RECALL:** Census UNION List ka subject hai — state governments ke paas iske upar koi legislative power NAHI hai. "Year of Great Divide" = 1921 (iske baad population rapidly badhi). 1911-1921 = India ka EK MATRA negative population growth decade (-0.03%).

3. Census 2011 — Key Numbers

Metric	Value
Total Population	121.08 crore
Sex Ratio	943 females/1000 males
Literacy Rate (Overall)	74.04% (Male 80.9%, Female 64.6%)
Population Density	382 persons/sq km
Decadal Growth Rate	17.64%
Urban Population	31.10%

 **MNEMONIC — Gender Literacy Gap ≈ 16.3 Points:** Male 80.9% – Female 64.6% ≈ 16.3 percentage points ka gap — ye ek commonly asked calculation-based question hai. Yaad rakhne ka trick: dono numbers yaad karo, subtraction exam mein khud kar lena.

4. State-wise Highs Aur Lows — Sabse Bada Trap

Metric	Highest State	Lowest State
Population	Uttar Pradesh (~199.8M)	Sikkim (~0.61M)
Sex Ratio	Kerala (1084)	Haryana (879)
Literacy Rate	Kerala (~94%)	Bihar (61.8%)
Population Density	Bihar (1,106/km ²)	Arunachal Pradesh (17/km ²)

 **EXAM TRAP:** BIHAR do OPPOSITE extremes mein aata hai: Population DENSITY mein HIGHEST (1,106/km²) hai, lekin Literacy Rate mein LOWEST (61.8%) hai — in do alag Bihar rankings ko kabhi mix mat karo, dono contradictory lagte hain par sahi hain.

 **MNEMONIC — KERALA = Best on 2 Fronts:** KERALA dono achhe metrics mein top hai — Sex Ratio (1084) AUR Literacy Rate (~94%). HARYANA sex ratio mein sabse kam hai, ARUNACHAL PRADESH density mein sabse kam. Kerala ko "double winner" ki tarah yaad rakho.

5. Top 6 Traps — Last-Minute Recap

#	Trap
1	1872 (Mayo) = pehla attempt; 1881 (Ripon) = pehla SYSTEMATIC census
2	Census = Union List subject (Article 246), states ke paas power nahi
3	1911-1921 = India ka ek matra NEGATIVE population growth decade
4	Bihar: HIGHEST density (1,106) par LOWEST literacy (61.8%) — dono ek saath sach
5	Kerala: highest sex ratio (1084) AUR highest literacy (~94%) — double winner

#	Trap
6	Gender literacy gap 2011 $\approx$ 16.3 percentage points (80.9% – 64.6%)

CHAPTER 18 — MEMORY TRICKS

Major Committees

Economics · ExamFusion Prep · BPSC / BSSC

Banking, Taxation, Poverty, Agriculture, Monetary Policy, Capital Markets aur Digital Finance Committees

1. Ek Vyakti, Multiple Committees — Sabse Bada Trap

Vyakti	Committee 1	Committee 2
Narasimhan	I (1991) — 4-tier banking, ARF	II (1998) — bank mergers, narrow banking
S.S. Tarapore	I (1997) — Capital acct convertibility	II (2007) — same topic, 2nd review
Nandan Nilekani	2009 — UID/Aadhaar allocation	2015 — Digital payments
Bimal Jalan	2013 — Bandhan/IDFC banking licenses	2013 — Capital market/stock exchange infra
Urjit Patel	2013 — CPI-based monetary policy	(same committee, dual category listed)

MNEMONIC — Ek Naam, Do Committee, Do Alag Kaam: NARASIMHAN: I=STRUCTURE banao (4-tier), II=STRENGTH badhao (mergers). TARAPORE: dono BAAR same topic (Capital Account Convertibility), sirf 10 saal ka gap (1997→2007). NILEKANI: pehle ID system (UID 2009), phir PAYMENTS (Digital 2015). JALAN: same saal (2013) mein DO alag committees — banking licenses AUR capital markets.

2. Banking Reform Committees

Committee	Saal	Purpose
Goiporia	1990	Customer service → Banking Ombudsman (1995)
Khan	2005	Financial inclusion & Lead Bank Scheme
Usha Thorat	2011	NBFC higher capital norms (12%)
MV Nair	2011	Priority sector lending guidelines
PJ Nayak	2014	Bank Nationalisation Act repeal, BIC sthapna
Arun Jaitley	2017	PSB mergers

EXAM TRAP: Narasimhan I (1991) = 4-TIER banking structure. Narasimhan II (1998) = MERGERS aur narrow banking. Exam mein swap karte hain ki kaunsi committee ne kya kiya — I ne DESIGN kiya, II ne CONSOLIDATE kiya.

3. Taxation Aur Fiscal Reform Committees

Committee	Saal	Purpose
Raja Chelliah	1991	Comprehensive tax reforms
Rekhi	1991	Indirect tax reforms
L.K. Jha	1997	Indirect tax reforms
Rakesh Mohan	2001	Financial sector & infra reforms
Vijay Kelkar (III)	2003	FRBM Act ke under economy review
Shome	2012	GAAR (General Anti-Avoidance Rules)

✅ **QUICK RECALL:** Rekhi (1991) aur L.K. Jha (1997) dono INDIRECT tax reforms par kaam karte the — 6 saal ka gap, alag committees.

4. Poverty Line Evolution — Chain Yaad Rakho

⚡ **YAAD RAKHO:** YK Alagh (1979, calorie formula) → Lakdawala (1993, state-specific CPI-AL/CPI-IW) → Tendulkar (2009, nutrition-based basket) → Rangarajan (2014, base year 2011-12 revise). Ye poori chain Poverty aur Unemployment chapter se bhi match karti hai — dono jagah SAME evolution hai, dohrao mat samjho.

✅ **QUICK RECALL:** Bhagwati (1973) = Unemployment estimation (sabse purani committee is chapter mein).

5. Agriculture Aur Rural Economy Committees

Committee	Saal	Purpose
R.V. Gupta	1997	Agricultural credit suggestions
Swaminathan	2004-06	Agricultural reforms & sustainability
Abhijit Sen	2004	Agri commodities futures trading
Ashok Dalwai	2016	2022 tak farmers ki income DOUBLE karna

6. Capital Market Aur Financial Inclusion

Committee	Saal	Purpose
C.D. Parekh	1992	Infrastructure projects financing
Malhotra	1994	Insurance sector reforms
Arvind Mayaram	2014	FDI classification
FPI Regulations Committee	2014	FII+QFI+Sub-accounts → single FPI category
Nachiket Mor	2013	Financial inclusion & small banks
Ratan Watal	2016	Digital payments promote karna

7. Top 6 Traps — Last-Minute Recap

#	Trap
1	Narasimhan I (structure) vs II (mergers) — dono alag focus
2	Tarapore I (1997) aur II (2007) — same person, same topic, 10 saal gap
3	Nilekani 2009 (UID) vs 2015 (Digital Payments) — 6 saal gap, alag focus
4	Bimal Jalan ne SAME 2013 mein DO committees chair ki (banking licenses + capital market)
5	Poverty chain: Alagh → Lakdawala → Tendulkar → Rangarajan
6	Rekhi (1991) aur L.K. Jha (1997) dono indirect tax par, alag saal

CHAPTER 19 — MEMORY TRICKS

Miscellaneous

Economics · ExamFusion Prep · BPSC / BSSC

Certification Marks, Global Reports & Indices, aur Major Books of Economics

1. Certification Marks — Kaun Sabse Purana

Mark	Introduce	Key Detail
Agmark	1937	Agricultural products; 1986 se law se compulsory
ISI Mark	1947	1987 mein BIS naam diya gaya; Industrial products
FPO Mark	1955	Processed fruit products; 2006 se compulsory
Eco Mark	1991 (BIS)	Pollution-free products
BS Mark	2000	Vehicles — pollution control
BIS Hallmark	2000 (gold)/2005 (silver)	Gold aur silver jewellery
India Organic Mark	2002	Organic agricultural produce
Silk Mark	2004	Pure silk (Silk Mark Org. of India)

⚠️ EXAM TRAP: Agmark (1937) ACTUALLY ISI Mark (1947) se PURANA hai — ISI zyada commonly known hone ke bawajood, Agmark ek dashak PEHLE introduce hui thi. Chronology: Agmark → ISI → FPO.

🔑 MNEMONIC — BIS = Common Thread: BIS (Bureau of Indian Standards) ek se zyada marks connect karta hai: ISI (1987 mein BIS naam mila) + Eco Mark (BIS dwara issue) + Hallmark (BIS dwara issue, gold/silver). Jahan bhi "BIS" dikhe, teeno marks yaad karo.

2. World Bank vs IMF vs WEF Reports

Institution	Reports
World Bank	World Development Report, Global Remittances, Poverty & Shared Prosperity, Human Capital Index
IMF	World Economic Outlook, Global Financial Stability Report
WEF	Global Competitiveness, Global Environmental Performance, Global Gender Gap

⚠️ EXAM TRAP: World Development Report (World Bank) aksar World Economic Outlook (IMF) ke saath confuse hoti hai — alag institutions, alag focus (DEVELOPMENT vs MACROECONOMIC outlook).

 **MNEMONIC — WEF = 3 Indices Issue Karta Hai:** Akele WEF is chapter mein 3 major indices deta hai: Global COMPETITIVENESS, Global ENVIRONMENTAL Performance, Global GENDER GAP. Institution-report matching ka sabse common question type — WEF ko "triple index" body ki tarah yaad rakho.

3. Doosri Institutions Ke Reports — Matching

Report/Index	Issuing Institution
Global Education Monitoring Report	UNESCO
Gender Inequality Index	UNDP
Global Hunger Index	Concern Worldwide & Welthungerhilfe
Global Cyber Security Index	ITU
World Press Freedom Index	Reporters Without Borders
Global Happiness Report	UN-SDSN
World Food Price Index	FAO
Global Innovation Index	WIPO
Climate Change Performance Index	Germanwatch, New Climate Institute & CAN

 **MNEMONIC — SDG India Index Aur India Innovation Index = NITI Aayog:** Ek mostly-international list mein India ke apne DOMESTIC indices — SDG India Index aur India Innovation Index dono NITI Aayog dwara issue hote hain. Jab 'India' naam ho index ke saath, NITI Aayog sochna pehla option ho.

4. Major Economics Books — Chronological Order

Book	Author	Year
Wealth of Nations	Adam Smith	1776
Das Kapital	Karl Marx	1867
Principles of Economics	Alfred Marshall	1890
Nature and Significance of Economic Science	Lionel Robbins	1932
The General Theory of Employment, Interest and Money	J.M. Keynes	1936

 **MNEMONIC — SMITH-MARX-MARSHALL-ROBBINS-KEYNES = 1776→1936:** 160 saal ka span, 5 kitabein: SMITH (1776, foundational) → MARX (1867, critique) → MARSHALL (1890, demand-supply — Ch1 se yaad hoga) → ROBBINS (1932, definition) → KEYNES (1936, employment theory). Chronological order ek favourite exam trap hai — sequence yaad rakho.

5. Top 6 Traps — Last-Minute Recap

#	Trap
1	Agmark (1937) ISI Mark (1947) se PURANA hai — commonly opposite socha jaata hai
2	BIS se juda: ISI naam (1987), Eco Mark, aur Hallmark — teeno
3	World Development Report (World Bank) ≠ World Economic Outlook (IMF)
4	WEF akele 3 indices deta hai: Competitiveness, Environmental Performance, Gender Gap
5	SDG India Index aur India Innovation Index dono NITI Aayog ke
6	Books order: Smith(1776) → Marx(1867) → Marshall(1890) → Robbins(1932) → Keynes(1936)
