

LATITUDINAL EXPANSION — FULL MIND MAP

Topic-wise · Fully Explained · Hinglish · SSC / BPSC / BSSC / Railway

Topics in this chapter:

1. India's Latitudinal & Longitudinal Extent

2. Latitude/Longitude Pass-Through Trivia

1. India's Latitudinal & Longitudinal Extent

- India ka expansion **8°4' North se 37°6' North latitude aur 68°7' East se 97°25' East longitude** ke beech hai. Options mein diye jaane wale coordinates (jaise '37°17'53" N and 8°6'28" S') galat hote hain — asli figures upar wale hi yaad rakho, isliye aksar 'None of the above' hi sahi answer banta hai jab exact wrong coordinates diye jaate hain. [Q1]
- Tropic of Cancer (Karka Rekha) lagbhag **India ke beech se guzarti hai**. [Q1]

2. Latitude/Longitude Pass-Through Trivia

- Sikkim se guzarne wala latitude **Rajasthan** se bhi guzarta hai — dono states same latitude band mein aate hain. [Q2]
- 70° East longitude **Jaisalmer (Rajasthan)** se guzarta hai. [Q3]
