

RABI CROPS — FULL MIND MAP

Topic-wise · Fully Explained · Hinglish · SSC / BPSC / BSSC / Railway

Topics in this chapter:

1. Rabi Season — Oct-Nov Sow, Mar-Apr Harvest
2. Rabi vs Kharif vs Zaid — Crop Classification
3. Wheat Cultivation Requirements (10-25°C, 50-75cm)
4. Cash Crop Definition (Wheat Excluded)
5. 1998 Wheat Import — Australia Agreement
6. Wheat Production Data (2020-21 to 2023-24)
7. Top-3 Wheat Producers (UP, Punjab/MP, Haryana)
8. UP — Highest Wheat Producer (35.34 MT)
9. Wheat Varieties (Mahi Sugandha is Rice, Not Wheat)
10. UP — Rank 1 in Wheat & Sugarcane
11. Sonora-64 — Induced Mutation Variety
12. Dwarfing Genes (Norin-10 for Wheat)
13. Macaroni Wheat — Rainfed Conditions Suitable
14. Wheat Variety Names (Raj 3077, Pusa Sindhu Ganga, UP-308)
15. Wheat Production Trend (2006-07 to 2009-10 — Upward)
16. IGKV Raipur — Hybrid Varieties (Indira Sona is Rice)
17. Wheat Diseases — Rust (3 Types)
18. Kalyana Sona & Variety Identification (Arjun/Sonalika=Wheat)
19. UPAS-120 — Arhar Variety for Double Cropping with Wheat
20. CRI Stage — Critical Irrigation Point for Wheat
21. Triticale — Wheat×Rye Hybrid
22. Punjab-Haryana-UP Wheat Belt (Assertion-Reason)
23. Karnal Bunt — Fungal Wheat Disease (Tilletia Indica)
24. Macaroni Wheat — Botanical Name (Triticum durum)
25. Butachlor — Herbicide (Not Pesticide/Fungicide)

1. Rabi Season — Oct-Nov Sow, Mar-Apr Harvest

- Rabi crop **October-November mein boyi jaati hai, March-April mein kaati jaati hai** — main Rabi crops: Wheat, Barley, Mustard, Sesame, Peas, Potatoes. [Q1, Q2, Q3]

2. Rabi vs Kharif vs Zaid — Crop Classification

- Kharif crops (June-July boyi, Oct-Nov kaati): **Millets, Cotton, Soyabean, Sugarcane, Paddy, Maize, Moong, Groundnut** — Zaid crops (March-July): **Muskmelon, Watermelon, Cucurbitaceae family vegetables**. Masoor, Gram, Pea Rabi crops hain — Groundnut/Maize/Paddy Kharif hain, Lady's finger/Carrot/Radish Rabi NAHI hain. [Q4, Q5, Q6, Q7]

3. Wheat Cultivation Requirements (10-25°C, 50-75cm)

- Wheat ke liye **moderate temperature (10-25°C) aur moderate rainfall (50-75cm evenly distributed) chahiye** — 2023-24 mein 31.8 million hectare area mein ugta hai. [Q8]

4. Cash Crop Definition (Wheat Excluded)

- Cash crops: **Sugarcane, Cotton, Jute, Tobacco, Oilseeds** — **Wheat, Rice** food crops hain, cash crops **NAHI**. [Q9, Q10]

5. 1998 Wheat Import — Australia Agreement

- 1998 mein Bharat sarkar ne **Australia ke saath 15 lakh tonnes wheat import karne ka agreement** kiya — kam production ki sambhavna dekhte hue. [Q11]

6. Wheat Production Data (2020-21 to 2023-24)

- 2020-21 mein wheat production **109.5 million tonnes** tha — **2023-24 mein badhkar 113.3 million tonnes** ho gaya. [Q12]

7. Top-3 Wheat Producers (UP, Punjab/MP, Haryana)

- Question ke waqt top-3: **UP, Punjab, Haryana** — **2023-24 mein ab UP, Madhya Pradesh, Punjab top-3 hain**. [Q13, Q14, Q15]

8. UP — Highest Wheat Producer (35.34 MT)

- 2023-24 mein wheat production ranking: **UP (35.34 MT) > MP (22.58 MT) > Punjab (17.74 MT)** — 2015-16 mein UP (25.43), MP (17.69), Punjab (16.08) the. [Q16]

9. Wheat Varieties (Mahi Sugandha is Rice, Not Wheat)

- 'Mahi Sugandha' **Basmati Rice** ki variety hai (**Wheat ki NAHI**) — non-sticky elongated grains. [Q17]

⚠ EXAM TRAP — Mahi Sugandha — Rice ki variety hai, Wheat ki NAHI

10. UP — Rank 1 in Wheat & Sugarcane

- Economic Survey 2024-25 (2023-24 data) ke mutabik **UP Wheat aur Sugarcane production mein pehle number par hai**. [Q18]

11. Sonora-64 — Induced Mutation Variety

- Sonora-64 **IARI** mein induced mutation se develop hui thi — **5 dwarf wheat varieties (Lerma Rojo 64-A, Sonora-63, Sonora 64, Mayo 64, S227) mein se ek**. [Q19]

12. Dwarfing Genes (Norin-10 for Wheat)

- Dwarfing genes: **Wheat — Norin-10, Rice — Dee-Gee-Woo-gen, Maize — Opaque-2**. [Q20]

13. Macaroni Wheat — Rainfed Conditions Suitable

- Macaroni wheat **rainfed conditions** mein **sabse suitable hai** — botanical naam *Triticum durum*. [Q21]

14. Wheat Variety Names (Raj 3077, Pusa Sindhu Ganga, UP-308)

- Wheat varieties: **Raj 3077 (late-sown, 36-40 quintal/hectare), Pusa Sindhu Ganga (HD 2967, IARI se), UP-308 (Mexican dwarf, Darbhanga-Bihar mein use)** — baaki varieties: Sonalika, Arjun, Kundan, Amar, Bhawani, Chandrika, Deshratna, Kanchan. [Q22, Q23, Q24]

15. Wheat Production Trend (2006-07 to 2009-10 — Upward)

- 2006-07 se 2009-10 tak wheat production **upward trend mein tha (75.81 → 78.57 → 80.68 → 80.80 million tonnes)** — 2023-24 tak 113.3 MT tak pahuncha. [Q25]

16. IGKV Raipur — Hybrid Varieties (Indira Sona is Rice)

- Indira Gandhi Krishi Vishwavidyalaya, Raipur ki wheat varieties: **Ratan, Kanishka, Ambar, Vidya, Mavanti** — 'Indira Sona' rice ki variety hai (wheat ki NAHI). [Q26]

⚠ EXAM TRAP — Indira Sona — rice ki variety hai, IGKV ki wheat variety NAHI

17. Wheat Diseases — Rust (3 Types)

- Wheat ki main disease **Rust hai** — 3 types: **Yellow Rust, Brown Rust, Black Rust**. [Q27]

18. Kalyana Sona & Variety Identification (Arjun/Sonalika=Wheat)

- Kalyana Sona **high-yielding wheat variety hai** — Sonalika, Arjun bhi wheat hain — **Jaya, Padma rice ki varieties hain**. [Q28, Q29]

19. UPAS-120 — Arhar Variety for Double Cropping with Wheat

- UPAS-120 **pigeon pea (Arhar) ki variety hai jo wheat ke saath double cropping ke liye suitable hai**. [Q30]

20. CRI Stage — Critical Irrigation Point for Wheat

- C.R.I. Stage (Crown Root Initiation) **sowing ke 20-25 din baad irrigation ka most critical stage hai wheat ke liye** — is stage par moisture-kami se tillering kam, chhote earheads, aur yield significantly ghat jaati hai. [Q31]

21. Triticale — Wheat×Rye Hybrid

- Triticale **Wheat aur Rye (rai) ke beech ka cross/hybrid hai**. [Q32]

22. Punjab-Haryana-UP Wheat Belt (Assertion-Reason)

- Punjab, Haryana, UP major wheat producing states hain (Assertion sahi) — **well-drained fertile soil, 10-15°C winter temperature, 75cm rainfall zaroori hai (Reason bhi sahi hai)** — par R, A ki sahi explanation NAHI hai. [Q33]

23. Karnal Bunt — Fungal Wheat Disease (Tilletia Indica)

- Karnal Bunt **wheat ki fungal disease hai (Tilletia Indica se hoti hai)** — pehli baar 1931 mein identify hui thi. [Q34]

24. Macaroni Wheat — Botanical Name (*Triticum durum*)

- Macaroni wheat ka botanical naam ***Triticum durum*** hai. *[Q35]*

25. Butachlor — Herbicide (Not Pesticide/Fungicide)

- Butachlor herbicide hai — Chlorpyrifos aur Quinolphos pesticide hain, Carbendazim fungicide hai. *[Q36]*
