

MOUNTAIN RANGES AND HILLS OF SOUTH AND CENTRAL INDIA — FULL MIND MAP

Topic-wise · Fully Explained · Hinglish · SSC / BPSC / BSSC / Railway

Topics in this chapter:

1. Aravalli — Oldest Range in India (Age, State, Residual Mountain)
2. Highest Peak of South India / Peninsula — Anaimudi
3. Satpura, Narmada-Tapti & West-to-East Sequences
4. Nilgiri Hills — Where Eastern & Western Ghats Meet
5. North-to-South Hill Sequences (Peninsular India)
6. Marine/Seamount Ranges & Western Ghats Structural Facts
7. Single-State Ranges & Wrong-Pair Traps
8. Southernmost Range & Cardamom Hills
9. Hill-Region Match Pairs (State-wise)
10. Central India Hill Sequence (Satpura Sub-Ranges)
11. State-wise Highest Peaks (Match-the-Following)
12. Western Ghats Local Names (North to South) & Tea Gardens
13. Amarkantak, Maikal & River Origins

1. Aravalli — Oldest Range in India (Age, State, Residual Mountain)

- Aravalli Range India (aur duniya) ki **sabse purani fold mountain range** hai — Precambrian/Proterozoic era mein bani, age ~**570 million years**. Ye **Gujarat, Rajasthan aur Haryana** states mein failii hui hai (Delhi tak khatam hoti hai), lekin primarily **Rajasthan** mein located maani jaati hai. Iski sabse ooncha peak Guru Shikhar (1722m) hai. [Q1, Q2, Q3, Q4, Q5, Q6]
- Indian Peninsular Plateau desh ka **sabse purana geographical region** hai — Gondwana land ke breaking-drifting se bana. Aravalli 'Residual Mountain' (purane valit/block/volcanic mountains ke bache hue avshesh) ka bhi example hai. [Q7, Q8]

2. Highest Peak of South India / Peninsula — Anaimudi

- Anaimudi (2695m), Western Ghats ka hissa, **South India aur poore Indian Peninsula ki sabse ooncha peak** hai — Kerala ke Ernakulam aur Idukki districts mein located. [Q9, Q10, Q11]

3. Satpura, Narmada-Tapti & West-to-East Sequences

- Narmada aur Tapti rivers **Satpura Range** ko flank karti hain — Satpura ('Saat Valan') Deccan plateau ka hissa hai, eastern Gujarat se shuru hoke Maharashtra-M.P. border se Chhattisgarh ke east tak jaati hai, aur Narmada (north)-Tapti (south) ke beech watershed banati hai. [Q12]
- West-to-east relief sequence: **Mahadeo Range → Maikal Range → Chotanagpur Plateau → Khasi Hills** — Mahadeo aur Maikal, Satpura ka eastward extension hain; Chotanagpur plateau Jharkhand+Chhattisgarh/Bihar/WB/Odisha ke parts mein failaa hai; Khasi Hills Meghalaya mein hain. [Q14]

4. Nilgiri Hills — Where Eastern & Western Ghats Meet

- Nilgiri Hills (Blue Mountains) wahi jagah hai jahan **Eastern Ghats aur Western Ghats (Sahyadri) mil jaate hain** — Tamil Nadu, Karnataka aur Kerala teeno ke junction par. Iski sabse ooncha peak **Doddabetta (2637m)** hai — South India ki 2nd highest peak. [Q15, Q16, Q17, Q18, Q19, Q20, Q21, Q22]

5. North-to-South Hill Sequences (Peninsular India)

- North-to-south (Tamil Nadu-Andhra region): **Nallamalai Hills → Javadi Hills → Nilgiri Hills → Anaimalai Hills** — Nallamalai (Krishna-Pennar rivers ke beech, Coromandel coast ke parallel), Javadi (Eastern Ghats, Tamil Nadu), Anaimalai (Western Ghats ka southern portion, Kerala-TN border). [Q13]
- South-to-North sequence: **Satmala Hills (Maharashtra) → Kaimur Hills (M.P.-Bihar) → Naga Hills (Indo-Myanmar border) → Pir Panjal Range (J&K-H.P.)**. [Q27]

6. Marine/Seamount Ranges & Western Ghats Structural Facts

- Indian Oceanists ne 3 marine mountain ranges discover kiye hain: ek Indian Ocean basin mein, dusra **Sagar Kanya (Eastern Arabian Sea)**, teesra Mumbai se ~455km west-southwest, Arabian Sea ke tal par 1505m height wala '**Raman Sagar**' mountain (naam scientist C.V. Raman ke naam par). [Q23]
- Western Ghats **structurally block mountain hai** (Arabian Sea mein land-block ke upwelling se bana) — western slope steep hai, eastern slope gradually plateau mein utarta hai, northern section basaltic lava se bana hai. Overall ~1500km lambaai, average elevation ~1200m — southern part northern se zyada ooncha hai (opposite statement galat hoga). [Q24, Q39]

7. Single-State Ranges & Wrong-Pair Traps

- Sirf ek state mein failii range: **Ajanta (Maharashtra)** — jabki Satpura, Aravalli aur Sahyadri sab multiple states mein failii hain. [Q25]
- Western Ghats ko Maharashtra-Goa-Karnataka mein '**Sahyadri**' kaha jaata hai. [Q26]

⚠ EXAM TRAP — Mandav Hills — Gujarat mein hain, Maharashtra mein NAHI (common wrong-pair)

- Wrong-pair traps yaad rakho: **Mandav Hills Gujarat mein hain (Maharashtra mein NAHI)**; Balaghat, Harishchandra aur Satmala Hills sab **Maharashtra** mein hain. [Q31, Q32]
- Aur ek trap set: **Cardamom Hills-Coromandel Coast** aur **Kaimur Hills-Konkan Coast** dono galat pairs hain — Cardamom Hills Kerala-TN mein hain (Coromandel se related nahi), Kaimur Hills M.P.-Bihar tak failii hain (Konkan se related nahi). **Mahadeo Hills-Central India(M.P.)** aur **Mikir Hills-North-East India** — ye dono sahi pairs hain. [Q33]
- Mahadeo Hills, Satpura Hills ka hissa hain — Satpura range Vindhya ke south mein aur uske parallel hai. [Q34]

8. Southernmost Range & Cardamom Hills

- Cardamom Hills (Yela Mala) India ki **sabse southern mountain range** hai — Western Ghats ka hissa, SE Kerala-SW Tamil Nadu mein. Yahan Cardamom (elaichi), Pepper aur Coffee ugte hain. Kanyakumari ke sabse kareeb bhi Cardamom Hills hi hain. Ye Kerala-Tamil Nadu border par sthith hain. [Q28, Q29, Q46]
- Shevaroy Hills Tamil Nadu ke Salem town mein hain (4000-5000 ft) — famous 'Yercaud' hill station yahin hai. [Q30]

9. Hill-Region Match Pairs (State-wise)

- Ramgiri Hills **Peddapalli district, Telangana** mein hain — **Eastern Ghats/Mahendra Parvat** ka hissa, **saath hi Maikal Range (jo Satpura Range ka hissa hai)** mein bhi **sthith** hain — CGPSC ne (B) Satpura ko sahi maana, par multiple options possible hain, disputed question hai. [Q36]
- Match karo: **Garó** — **Meghalaya**, **Miri** — **Arunachal Pradesh**, **Kollai Mallai** — **Tamil Nadu**, **Dalma** — **Jharkhand**. [Q38]
- Doddabetta (Nilgiri Hills) **Tamil Nadu** mein hai — **Anaimalai Hills** mein **NAHI**. **Kodaikanal, Palni Hills (Dindigul district, TN)** mein hai. [Q17, Q40]

10. Central India Hill Sequence (Satpura Sub-Ranges)

- West-to-east Central India hills sequence: **Satpura → Mahadeo → Maikal → Chotanagpur**. Satpura region ke andar (west-to-east): **Barwani Hills → Mahadeo Range → Maikal Range**. [Q44, Q45]
- Dhupgarh peak (Satpura Range ki sabse ooncha peak) **Pachmarhi, M.P.** mein hai. [Q35]

11. State-wise Highest Peaks (Match-the-Following)

- Mukandara hills **Rajasthan** mein **Vindhyan ranges** ka extension hain (Dora mountain, Alwar hills, Girwa hills se alag). [Q41]
- Salher (Nashik district, Maharashtra) **Sahyadri/Western Ghats** mein hai, **Eastern Ghats** mein **NAHI** — Sahyadri ka sabse ऊँचा kila aur 2nd highest peak (1567m) hai — **Gali Konda, Sinkram Gutta, Madugula Konda** Eastern Ghats mein hain. [Q42]
- State-wise sabse ooncha peaks yaad rakho: **Kerala** — **Anaimudi, Nagaland** — **Saramati, Uttarakhand** — **Nanda Devi, Tamil Nadu** — **Doddabetta**. [Q43]
- **Parasnath Hill (Jharkhand, Giridih district)** height **~1365m** hai — yahan **Shikharji Jain temple** hai (23rd Tirthankara **Parasnath** ke naam par). [Q37]

12. Western Ghats Local Names (North to South) & Tea Gardens

- Western Ghats north-to-south local names: **Sahyadri (Maharashtra-Goa-Karnataka) → Nilgiri (TN-Kerala-Karnataka) → Anaimalai (TN-Kerala) → Cardamom Hills (Kerala-TN)**. [Q47]
- Tea plantations wale hills: **Kanan Devan (Idukki, Kerala/Munnar), Nilgiri, Darjeeling** — **Girnar (Gujarat)** mein tea plantation **NAHI** hai (ye ek common wrong-option trap hai). [Q48]

13. Amarkantak, Maikal & River Origins

- Hill-State match: **Bateshwar Hill** — **Bihar (Bhagalpur)**, **Chin Range** — **Manipur**, **Dhoshi Hill** — **Haryana (Mahendragarh)**, **Bilari Range** — nearest ko **Karnataka ka Bellary/Ballari Gudda** maana jaata hai. [Q49]
- Amarkantak peak **Maikal Hills** mein hai, jahan se **Narmada aur Son** dono rivers nikalti hain. Narmada peninsular India ki sabse badi river hai (Arabian Sea mein girti hai) — north mein **Vindhya**, south mein **Satpura range** hai, aur Narmada inke beech ki rift valley se hokar behti hai. [Q51]

EXAM TRAP — Amarkantak — Vindhya aur Satpura ka sangam hai, Sahyadri ka NAHI

- Common wrong statements: **Amarkantak Vindhya-Satpura ka confluence hai (Sahyadri ka NAHI); Biligirirangan Hills Karnataka mein hain (Satpura ka eastern part NAHI); Seshachalam Hills Eastern Ghats (Andhra Pradesh) ka hissa hain (Western Ghats ka NAHI)** — teeno statements is tarah galat combinations hain. *[Q50]*
