

MOUNTAIN PEAKS — FULL MIND MAP

Topic-wise · Fully Explained · Hinglish · SSC / BPSC / BSSC / Railway

Topics in this chapter:

1. Highest Peak in India — K2 (Godwin Austin)
2. World's Top Peaks & Their Location (Everest, Kanchenjunga, Makalu)
3. Everest — Height, Records & Women Mountaineers
4. Nanda Devi & Uttarakhand Peaks (Kamet, Trishul)
5. Peaks NOT in India — Common Confusion Traps
6. East-to-West Peak/Range Sequences
7. State-wise Highest Peaks (Peninsular India)
8. Match-the-Following — Peak/Mountain Pairs

1. Highest Peak in India — K2 (Godwin Austin)

- India ki **sabse ooncha peak K2 (Godwin Austin)** hai — height **8611m**, Ladakh mein Karakoram range mein located, aur ye duniya ki **dusri sabse ooncha peak** bhi hai. Agar options mein K2 na ho, to Kanchenjunga next-best answer ban jaata hai. [Q8, Q9, Q10]

2. World's Top Peaks & Their Location (Everest, Kanchenjunga, Makalu)

- Duniya ki top peaks (descending height): **Mount Everest (8848.86m, Nepal-China/Tibet) > K2/Godwin Austin (8611m, India) > Kanchenjunga (8598m, Sikkim-Nepal border) > Makalu (8463m, Nepal)**. [Q12]
- Kanchenjunga North Sikkim district (India) aur Taplejung district (Nepal) ki border par hai — dono countries claim karte hain (disputed/dual-answer question type). [Q11]

3. Everest — Height, Records & Women Mountaineers

- Mount Everest Nepal-China (Tibet) border par hai — Nepal mein ise '**Sagarmatha**' kaha jaata hai, height **8848.86m** (Nepal-China joint 2020 announcement) — options mein 'Nepal' aur 'Tibet' dono disputed answer maane jaate hain. [Q2, Q3]
- Women-mountaineer records: **Junko Tabei (Japan) — duniya ki pehli mahila jo Everest chadi (1975); Bachendri Pal — pehli Indian mahila (1984); Santosh Yadav — dusri Indian mahila, aur duniya ki pehli mahila jo Everest do baar chadi (1992, 1993)**. [Q4, Q5, Q6, Q7]

4. Nanda Devi & Uttarakhand Peaks (Kamet, Trishul)

- Nanda Devi (7817m) India ki **4th highest peak** hai (K2, Kanchenjunga, Nanga Parbat ke baad) — **Garhwal Himalaya, Uttarakhand** mein hai. Do peaks hain: Nanda Devi West (7817m) aur East (7434m, Chamoli-Pithoragarh-Bageshwar border). UNESCO ne 1988 mein World Heritage Site declare kiya. [Q1, Q13, Q14, Q15]
- Trishul peak group (3 peaks: I-7120m, II-6690m, III-6008m) **Bageshwar district, Uttarakhand** mein hai — **koi bhi peak 7500m se zyada NAHI** hai (ye ek common wrong-statement trap hai). [Q27]

5. Peaks NOT in India — Common Confusion Traps

- Namcha Barwa Tibet (China) mein hai — **Garhwal Himalaya mein NAHI** (kuch purani NCERT mein Arunachal Pradesh diya gaya hai, isliye confusion hota hai). Nokrek peak **Garo Hills (Meghalaya)** ki sabse ooncha peak hai — Sikkim Himalaya mein NAHI. [Q1]

⚠ EXAM TRAP — Namcha Barwa — Tibet/China mein hai, kabhi-kabhi Arunachal se confuse hota hai

- India mein NAHI hone wali peaks: **Gosainthan (Tibet, Nepal border ke paas), Gurla Mandhata (China), Dhaulagiri (Nepal)**. India mein hone wali peaks (in confusions ke against): **Kamet, Nanda Devi, Trishul, Nanga Parbat (Ladakh)**. [Q21, Q23, Q24]

6. East-to-West Peak/Range Sequences

- Peaks east-to-west sequence: **Namcha Barwa → Kanchenjunga → Mount Everest → Nanda Devi** (ek variant mein Everest se pehle Makalu/Dhaulagiri bhi aa sakte hain). [Q20]
- Mountain ranges east-to-west: **Garo Hills (Meghalaya) → Nanda Devi (Uttarakhand) → Kamet (Uttarakhand) → K2 (Ladakh, Karakoram)**. [Q16]

7. State-wise Highest Peaks (Peninsular India)

- Aravalli ki sabse ooncha peak **Guru Shikhar (1722m, Sirohi district, Rajasthan)** hai. Agar options mein Guru Shikhar na ho to **Kumbhalgarh (1224m)** next-highest ban jaata hai. [Q17, Q18]
- State-wise sabse ooncha peaks yaad rakho: **Tamil Nadu — Doddabetta, Rajasthan — Guru Shikhar, Nagaland — Saramati, Madhya Pradesh — Dhupgarh**. Chhattisgarh ki sabse ooncha peak **Gaurlata (Samri Pat, Balrampur-Ramanujganj district)** hai. [Q25, Q26]
- Ascending height order yaad rakho: **Panchmarhi (1067m) < Mahendragiri (1501m) < Guru Shikhar (1722m) < Anaimudi (2695m)**. [Q19]

8. Match-the-Following — Peak/Mountain Pairs

- Common wrong-pairs (exam trap): **Kodaikanal Palni Hills mein hai, Anaimalai Hills mein NAHI; Shimla Shivalik/Lesser Himalaya mein hai, Pir Panjal Range mein NAHI** — ye dono common galat-pairing options hote hain jinhe carefully identify karna padta hai. [Q22]
