

VALLEYS — FULL MIND MAP

Topic-wise · Fully Explained · Hinglish · SSC / BPSC / BSSC / Railway

Topics in this chapter:

1. Himalayan Valleys — Kullu, Kashmir, Sangla, Yumthang, Dzukou
2. Ladakh Region Valleys — Nelang, Markha, Galwan, Shaksgam
3. Silent Valley (Kerala) & Kunthi River
4. North-East Sediment Basin — Mizoram (Molassis Basin)

| 1. Himalayan Valleys — Kullu, Kashmir, Sangla, Yumthang, Dzukou

- Kullu Valley (Himachal Pradesh) **Dhauladhar aur Pir Panjal ranges** ke beech mein hai. [Q1]
- Kashmir Valley **tectonic origin** ki maani jaati hai (Zaskar aur Pir Panjal ranges ke beech), glacio-fluvio-lacustrine aur aeolian processes se bani — हालाँकि 'erosional' aur 'tectonic' dono options exam-commission द्वारा kabhi-kabhi correct maane gaye hain (disputed-type question). [Q2]
- Match karo — Valley → State: **Markha Valley** → **Ladakh** (pehle J&K ka hissa), **Dzukou Valley** → **Manipur-Nagaland border** (Japfu Range ke peeche, 2438m, Kohima se ~30km), **Sangla Valley** → **Himachal Pradesh** (Kinnaur district, Baspa river), **Yumthang Valley** → **Sikkim** (Gangtok se ~149km, hot springs ke liye famous). [Q4]

| 2. Ladakh Region Valleys — Nelang, Markha, Galwan, Shaksgam

- Nelang Valley **Uttarakhand** mein hai (Uttarkashi district, Gangotri National Park ke andar) — Indo-China border ke paas, 1962 war ke baad civilians ke liye band thi, **2015 mein tourists ke liye reopen** hui. [Q3]
- Galwan Valley ka naam **Ghulam Rassul Galwan** (ek Ladakhi explorer) ke naam par pada hai — usne 'Servant of Sahibs' naam ki English book likhi thi. Galwan river isi valley ke formation ka main source hai. [Q7]
- Shaksgam Valley: 1963 ke China-Pakistan 'Boundary Agreement' ke taht Pakistan ne **5180 sq km area (PoK ka hissa)** illegally China ko de diya tha. Ye strategically important region hai — **India ne China ki infrastructure activities ka protest kiya hai** yahan, aur is boundary agreement ko kabhi recognize nahi kiya. [Q8]

| 3. Silent Valley (Kerala) & Kunthi River

- Silent Valley National Park **Kerala (Palakkad district)** mein hai — **Nilgiri Hills (Western Ghats) mein, Nallamalai range mein NAHI** (ye ek common wrong-statement trap hai). Pathrakkadavu Hydroelectric project isi park se ~1km door proposed hai, aur **Kunthi river** (Thuthapuzha ki tributary) Silent Valley ke rainforests se hi nikalti hai. [Q5, Q6]

EXAM TRAP — Nallamalai vs Nilgiri Hills — Silent Valley kis range mein hai

| 4. North-East Sediment Basin — Mizoram (Molassis Basin)

- Mizoram ko '**Molassis Basin**' bhi kaha jaata hai kyunki ye unconsolidated sediments se bana hai. Mizoram ek hilly north-east state hai jahan homogenous tribal population hai — common language **Lushai** hai. [Q9]
