

AGRICULTURE MISCELLANEOUS — FULL MIND MAP

Topic-wise · Fully Explained · Hinglish · SSC / BPSC / BSSC / Railway

Topics in this chapter:

1. Seed Tag Colors (Breeder-Golden, Foundation-White, Certified-Blue)
2. Cropped Area Trends 1980-81 to 2023-24 (No Continuous Decrease)
3. State-Crop Match (Tapioca-TN, Cotton-Gujarat, Jute-WB, Groundnut-Gujarat)
4. Potato-Coconut-Banana-Tobacco Producer States
5. UP — Largest Potato Producer
6. National Research Centre for Banana — Trichy
7. Non-Cereal Crop Region — Kutch/W.MP/Maharashtra
8. Foodgrain Production Ranking (Rice>Wheat>Coarse>Pulses)
9. UP — Largest Foodgrain-Producing State (18.14%)
10. Gujarat — Cotton+Groundnut+Salt+Milk Leader (Historical)
11. Cotton-Gram-Pepper-Pineapple Producer Match
12. Ragi-Bazra-Jowar-Urad State Match
13. Potato Producer Trap (MP→UP Data Shift)
14. Crop-Pest Match (Aphid-Wheat, Ghundi Bag-Rice)
15. Crop-Disease Match (Red Rot-Sugarcane, Khaira-Paddy, Wilt-Arhar)
16. Green Hair Disease — Millet (Not Rice)
17. Three Plant Family Group (Sugarcane, Beetroot, Sweet Pea, Gram)
18. India — Not #1 Producer (Coffee/Sugarcane/Oilseeds/Tobacco)
19. 2011-12 Foodgrain Production — Disputed Figure
20. Fruit Production #1, Tobacco Export #2 (Disputed)
21. Jute — Kharif Crop, Eastern Region Concentration
22. Jute — Indigenous Plant, Feb-June Sowing
23. India — Largest Jute Producer (Not Due to Yellow Revolution)
24. West Bengal — Largest Jute Producer State
25. Jute Industry — West Bengal Concentration
26. Lower Gangetic Plain — Paddy+Jute Combo
27. West Bengal — Largest Jute Cultivation Area
28. Fibre Crops — Cotton, Jute, Sunhemp
29. Maize — Grown Throughout the Year ('Queen of Cereals')
30. Maize Uses — Starch, Biodiesel, Alcoholic Beverages
31. Maize Maturity Period — 90-150 Days
32. Maize — C4 Plant (Rice/Wheat/Soybean are C3)
33. Maize Production Ranking (Karnataka, Bihar, MP Now Lead)
34. Shaktiman-I/II — GM Maize Varieties
35. Saffron — J&K's Commercial Production
36. Kashmir Valley — Largest Saffron Quantity
37. Crop-Geography Match (Barley-Cool, Rice-Hot/Moist, Millet-Hot/Dry, Tea-Altitude)
38. Rainfall-Temperature Match (Cotton, Flax, Sugarbeet, Jute)
39. Onion — Transplanted Crop
40. Eastern UP Crop Cycle — Paddy-Maize-Wheat
41. Wilson — Rajma/Potato Pioneer in Bhagirathi Valley
42. Board-HQ Match (Coffee-Bengaluru, Rubber-Kottayam, Tea-Kolkata, Tobacco-Guntur)
43. India — 2nd in Vegetable Production (China #1)

44. Sindhu — Only Seedless Mango Variety
45. Amrapali — DasherixNeelam Mango Hybrid (1971, IARI Pusa)
46. Lalit — Guava Variety (North Plains, Lucknow)
47. Regular Crop Mango Varieties (Bengalora, Neelam, Amrapali)
48. Kanchan — Indian Gooseberry (Amla) Variety
49. 'Ganga Varanasi' — Not a Known Variety (Disputed)
50. Crop-Variety Match Trap (Shusk Samrat is Rice, Not Wheat)
51. Banana Leading Producer — Maharashtra (Now)
52. Bajra Producer Ranking (Rajasthan>UP>Gujarat>Haryana)
53. Groundnut-Mustard-Soyabean-Coconut State Match
54. Jute-Tea-Rubber-Sugarcane State Match
55. Borlaug Award — Agricultural Science
56. Kufri Chipsona-2 — Best Potato Variety for Processing
57. National Food Security Mission — Rice/Wheat/Pulses Focus
58. Subsistence Farming Crops — Coarse Cereals & Rice
59. Ginger's Underground Stem — Rhizome
60. Oatmeal — Cereal Grain Product
61. Mandua (Koda) — Uttarakhand's Export to Japan
62. Rainfed Crops — Groundnut, Sesame, Pearl Millet
63. Cowpea/Green Gram/Pigeon Pea — Triple-Use Crops
64. Arunachal Pradesh — Best Climate for Orchid Cultivation
65. Sikkim — India's First Organic State (2016)
66. Sikkim — First Organic State (Repeat)
67. Gujarat — Arid North, Cotton Centre, Cash-Crop Dominant
68. Guar (Cluster Bean) — Shale Gas Extraction Gum
69. West Bengal — Historical Fish Leader (Inland, Not Coastal)
70. Fish Production Ranking (AP>WB>Karnataka>Odisha>Kerala)
71. Cotton Fibre Length — Best Variety Over 5cm (Not 1-5cm)
72. Linseed — Rabi Crop (Not Grown Year-Round)
73. Lac Production — Jharkhand Leading (Not Bihar Post-Split)
74. Aman Rice — Sown June-July (Not March-April)
75. UPAS-120 — Arhar Variety (Not Gram) — Disputed
76. Kinnaur-Mewat-Coromandel — All Mismatched Pairs
77. Kaushal — Groundnut Variety, Not Rice (Disputed)
78. India's Fruit Production Share — 15% (Historical)
79. India — Largest Producer of Mango, Banana, Papaya, Lemon
80. Jowar — Not a Cash Crop (Repeat Confirmation)
81. Crop-Season Match (Sunflower-All, Muskmelon-Zaid, Cotton-Kharif, Linseed-Rabi)
82. Water Conservation Practices — Zero Tillage, Gypsum, Crop Residue
83. Jute-Tea-Sugarcane-Rubber State Match (Repeat)
84. Maize-Jute-Cotton-Soyabean State Match (AP Trap)
85. Sultana/Gulabi/Kali Champa — Grape Varieties
86. Crop-Weed Match (Bathua Doesn't Grow With Paddy)
87. Radhey — Chickpea Variety (Not Paddy)
88. Maize-Potato-Sugarcane-Moong — 3-Year Crop Rotation
89. NABI MG — Colored Wheat Variety
90. 2,4-D — World's First Herbicide
91. Cultivation Techniques (Tasseling, Pegging, Tillering, Topping)
92. Uttar Pradesh — Mentha Oil Monopoly (85-100%)
93. Crop-Disease Match Trap (Wilt Not Specific to Paddy)
94. False Smut — Rice Disease (Not Barley)
95. Cotton Leading Producer — Gujarat (2023-24)
96. Kerala — Black Pepper + Cardamom Producer

- 97. Dryland Farming — Below 75cm Rainfall
- 98. NPOP — APEDA Implementing Agency (Not Rural Development)
- 99. Cash Crops — Coffee, Cocoa, Sugarcane, Banana, Cotton, Jute
- 100. Bajra — Hot-Dry Climate, Rajasthan Leader (Disputed)
- 101. Agricultural Drought — Low Soil Moisture
- 102. Mahi Kanchan & RCB 911 — Maize & Bajra Hybrids
- 103. Silviculture — Art & Science of Forest-Crop Cultivation

1. Seed Tag Colors (Breeder-Golden, Foundation-White, Certified-Blue)

- Seeds classification: **Breeder seeds** — golden tag (research centres/universities se), **Foundation seeds** — white tag (certifying body ki supervision mein), **Certified seeds** — blue tag (foundation seeds se, prescribed standards conform karte hain). [Q1]

2. Cropped Area Trends 1980-81 to 2023-24 (No Continuous Decrease)

- 1980-81 se 2023-24 tak koi bhi crop (Wheat, Rice, Pulses, Coarse Cereals) continuously kam NAHI hui — sab mein fluctuation ke saath overall area badha hai (Coarse Cereals mein overall kami hui hai par continuous nahi). [Q2]

3. State-Crop Match (Tapioca-TN, Cotton-Gujarat, Jute-WB, Groundnut-Gujarat)

- 2023-24 top producers: Tamil Nadu — Tapioca, Gujarat — Cotton, West Bengal — Jute/Mesta, Gujarat — Groundnut — Kerala-Tapioca match sahi NAHI hai (Tamil Nadu hai). [Q3]

4. Potato-Coconut-Banana-Tobacco Producer States

- 2023-24 top producers: **Potato** — UP, **Coconut** — Karnataka, **Banana** — Maharashtra, **Tobacco** (2022-23) — Gujarat — 'Coconut-Kerala' ab galat hai (Karnataka #1 ho gaya hai). [Q4]

⚠ EXAM TRAP — Coconut ka #1 producer ab Karnataka hai — Kerala se shift ho gaya (2023-24 data)

5. UP — Largest Potato Producer

- Uttar Pradesh **potato** ka pehla number ka producer hai. [Q5]

6. National Research Centre for Banana — Trichy

- NRCB (21 Aug 1993 establish) **Tiruchirappalli (Trichy)**, Tamil Nadu mein hai — banana production/productivity badhaane ke liye. [Q6]

7. Non-Cereal Crop Region — Kutch/W.MP/Maharashtra

- Map-based question mein **non-cereal crop production area** — Rann of Kutch (Gujarat), Western MP, Maharashtra ka hissa tha. [Q7]

8. Foodgrain Production Ranking (Rice>Wheat>Coarse>Pulses)

- 2023-24 (final) production ranking: **Rice (137.8 MT) > Wheat (113.3 MT) > Coarse Grain (56.9 MT) > Pulses (24.3 MT)**. [Q8]

9. UP — Largest Foodgrain-Producing State (18.14%)

- 2023-24 (Final) data ke mutabik UP sabse bada foodgrain producer hai (18.14% share) — MP (12.48%) dusre, Punjab (9.79%) teesre number par. [Q9]

10. Gujarat — Cotton+Groundnut+Salt+Milk Leader (Historical)

- Question ke waqt Gujarat Cotton, Groundnut, Salt, Milk char mein leading tha — abhi Cotton/Groundnut/Salt mein leading hai, lekin Milk mein ab UP leading hai. [Q10]

11. Cotton-Gram-Pepper-Pineapple Producer Match

- 2023-24 match: Cotton — Gujarat, Gram — Madhya Pradesh, Pineapple — West Bengal, Black pepper — Karnataka. [Q11]

12. Ragi-Bazra-Jowar-Urad State Match

- Match: Ragi — Karnataka, Bazra — Rajasthan, Jowar — Maharashtra, Urad — Madhya Pradesh. [Q12]

13. Potato Producer Trap (MP→UP Data Shift)

- Sahi matches: Coffee-Karnataka, Cotton-Gujarat, Wheat-UP sahi hain — 'Potato-Madhya Pradesh' GALAT tha (2023-24 data ke mutabik UP hai). [Q13]

14. Crop-Pest Match (Aphid-Wheat, Ghundi Bag-Rice)

- Crop-destroying creatures match: Aphid — Wheat, Ghundi Bag — Rice, Top Shoot Borer Moth — Sugarcane, Bollworm — Gram. [Q14]

15. Crop-Disease Match (Red Rot-Sugarcane, Khaira-Paddy, Wilt-Arhar)

- Crop-disease match: Sugarcane — Red Rot, Paddy — Khaira, Arhar — Wilt, Potato — Late Blight. [Q15]

16. Green Hair Disease — Millet (Not Rice)

- Bajra-Ergot, Pea-Powdery mildew, Gram-Wilt sahi hain — 'Rice-Green hair' GALAT hai (Green hair disease millet mein paayi jaati hai, rice mein NAHI). [Q16]

⚠️ EXAM TRAP — Green hair disease — Millet (bajra) mein hoti hai, Rice mein NAHI

17. Three Plant Family Group (Sugarcane, Beetroot, Sweet Pea, Gram)

- Sugarcane, Beetroot, Sweet Pea, Gram, Arhar, Frase-bean teen alag plant families ke antargat aate hain. [Q17]

18. India — Not #1 Producer (Coffee/Sugarcane/Oilseeds/Tobacco)

- India in mein se kisi ka bhi #1 producer NAHI hai (Disputed) — Sugarcane mein 2nd (FAO 2023), Coffee mein 9th, Tobacco mein 2nd (unmanufactured). [Q18]

19. 2011-12 Foodgrain Production — Disputed Figure

- 2011-12 mein estimated foodgrain production **259.29 million tonnes** tha — diye gaye options mein se koi bhi match nahi karta, isliye disputed question hai (2023-24 mein 332.3 MT ho gaya). [Q19]

20. Fruit Production #1, Tobacco Export #2 (Disputed)

- FAO 2023 ke mutabik India 'Other fruits n.e.c.' category mein fruit production mein pehle number par hai — tobacco (unmanufactured) export mein dusre number par hai (quantity ke hisaab se) — dono statements sahi hain. [Q20]

21. Jute — Kharif Crop, Eastern Region Concentration

- Jute Kharif crop hai (Rabi NAHI) — high temperature (24-35°C) aur heavy rain (125-200cm) chahiye, mainly Eastern India mein hoti hai (WB, Bihar, Assam, Odisha, MP). [Q21]

22. Jute — Indigenous Plant, Feb-June Sowing

- Jute India ka indigenous plant hai (white jute ka primary origin Africa, secondary India/Myanmar) — generally March-May boyi jaati hai (Feb-June tak kuch varieties), July-October kaati jaati hai — dono statements sahi hain par R, A ki sahi explanation nahi hai. [Q22]

23. India — Largest Jute Producer (Not Due to Yellow Revolution)

- India duniya ka largest raw jute producer hai (Assertion sahi) — lekin ye Yellow Revolution ki wajah se NAHI hai (Yellow Revolution oilseeds se related hai, Reason galat). [Q23]

⚠️ EXAM TRAP — Yellow Revolution — Oilseeds se related hai, Jute se NAHI

24. West Bengal — Largest Jute Producer State

- 2023-24 data ke mutabik West Bengal jute-mesta ka largest producer hai — Bihar, Assam dusre-teesre number par. [Q24]

25. Jute Industry — West Bengal Concentration

- Jute industry mainly West Bengal mein concentrated hai. [Q25]

26. Lower Gangetic Plain — Paddy+Jute Combo

- Lower Gangetic plain (humid, high temperature saal bhar) ke liye Paddy aur Jute sabse suitable crop combination hai. [Q26]

27. West Bengal — Largest Jute Cultivation Area

- 2023-24 data ke mutabik jute cultivation area: West Bengal (0.52 million hectare) > Bihar (0.06) = Assam (0.06). [Q27]

28. Fibre Crops — Cotton, Jute, Sunhemp

- Fibre crops group: **Cotton, Jute, Sunhemp** — Gram/Linseed/Lentil/Oat/Dhaicha/Wheat is category mein NAHI hain. [Q28]

29. Maize — Grown Throughout the Year ('Queen of Cereals')

- Maize (Corn) saal bhar ugayi jaa sakti hai — varied climate conditions mein wider adaptability rakhti hai, isliye ise 'Queen of Cereals' kaha jaata hai. [Q29, Q30]

30. Maize Uses — Starch, Biodiesel, Alcoholic Beverages

- Maize ke sab 3 uses sahi hain: **starch production, oil se biodiesel feedstock, alcoholic beverages (corn whisky, Brazilian beer)** banana. [Q31]

31. Maize Maturity Period — 90-150 Days

- Maize (rice-wheat ke baad India ki sabse zyada produce+consume hone wali crop) ki maturity period **alag-alag climatic zones mein 90-150 din (usually 110 din quoted) hoti hai** — winter varieties summer se zyada waqt leti hain. [Q32]

32. Maize — C4 Plant (Rice/Wheat/Soybean are C3)

- Maize C4 plant hai — Rice, Wheat, Barley, Rye, Soybean, Cotton, Tobacco, Potato C3 plants hain. [Q33]

33. Maize Production Ranking (Karnataka, Bihar, MP Now Lead)

- Question ke waqt: **Andhra Pradesh > Karnataka > Rajasthan > Bihar** — 2023-24 data ke mutabik ab **Karnataka, Bihar, MP top-3** hain. [Q34]

34. Shaktiman-I/II — GM Maize Varieties

- Shaktiman-I aur Shaktiman-II Maize (makka) ki genetically modified crops hain. [Q35]

35. Saffron — J&K's Commercial Production

- Saffron (Zaffran) ka commercial production **Jammu and Kashmir** mein hota hai (ab UT). [Q36]

36. Kashmir Valley — Largest Saffron Quantity

- India mein **saffron ka sabse zyada production Kashmir Valley** mein hota hai — world mein Spain, Iran, Greece, Italy bhi produce karte hain. [Q37]

37. Crop-Geography Match (Barley-Cool, Rice-Hot/Moist, Millet-Hot/Dry, Tea-Altitude)

- Match: **Barley — cool climate/poor soil, Rice — hot-moist climate/rich soil, Millets — hot-dry climate/poor soil, Tea — warm-moist climate/high altitude.** [Q38]

38. Rainfall-Temperature Match (Cotton, Flax, Sugarbeet, Jute)

- Match: **Cotton — 500-1000mm/18-22°C, Flax — 600-800mm/5-18°C, Sugarbeet — 500-600mm/18-22°C, Jute — 1500-2000mm/25-35°C.** [Q39]

39. Onion — Transplanted Crop

- Onion (pyaaz) ki cultivation **pehle seeds boke, phir chhote plants ko transplant karke ki jaati hai** — Maize, Sorghum, Soyabean ki nahi. [Q40]

40. Eastern UP Crop Cycle — Paddy-Maize-Wheat

- Eastern UP ke liye **Paddy-Maize-Wheat** **sabse best crop cycle maana jaata hai**. [Q41]

41. Wilson — Rajma/Potato Pioneer in Bhagirathi Valley

- Bhagirathi valley mein Rajma-Potato cultivation shuru karne ka credit **Fredrick Wilson** ko jaata hai — 19th century mein wahan permanently basne wale pehle white man the, 'Raja of Harsil' bhi kehlaaye. [Q42]

42. Board-HQ Match (Coffee-Bengaluru, Rubber-Kottayam, Tea-Kolkata, Tobacco-Guntur)

- Board-HQ match: **Coffee Board — Bengaluru, Rubber Board — Kottayam, Tea Board — Kolkata, Tobacco Board — Guntur**. [Q43]

43. India — 2nd in Vegetable Production (China #1)

- FAO 2023 ke mutabik **vegetable production** mein China pehle number par hai, India dusre number par ('vegetable fresh n.e.c.' category). [Q44, Q45]

44. Sindhu — Only Seedless Mango Variety

- Indian scientists ne 'Sindhu' naam se seedless mango variety develop ki — ye duniya ki **EKMATRA** seedless mango variety hai. [Q46]

45. Amrapali — DasherixNeelam Mango Hybrid (1971, IARI Pusa)

- Amrapali **Dasher**i aur **Neelam** ke cross se 1971 mein IARI, Pusa, Delhi ne develop ki thi. [Q47]

46. Lalit — Guava Variety (North Plains, Lucknow)

- Lalit Guava (amrud)** ki improvised variety hai — Indian Institute of Horticulture Research ne North plains, Lucknow ke liye develop ki, commercial production ke liye recommend hai. [Q48]

47. Regular Crop Mango Varieties (Bengalora, Neelam, Amrapali)

- Dasher-1, Chausa, Langra regular crop varieties **NAHI** hain — **regular crop mango varieties: Dasher-51, Bengalora (Totapuri), Neelam, Amrapali**. [Q49]

48. Kanchan — Indian Gooseberry (Amla) Variety

- Kanchan, Krishna, Banarasi **Indian gooseberry (Amla)** ki improved varieties hain — Amla mein Vitamin C bahut hoti hai. [Q50]

49. 'Ganga Varanasi' — Not a Known Variety (Disputed)

- 'Kashi Ganga' bottle gourd ki variety hai, 'Kashi Madhu' muskmelon ki, 'Banarasi' gooseberry aur guava (TN-AP) ki — '**Ganga Varanasi**' naam ki koi bhi known variety **NAHI** hai (disputed question). [Q51]

50. Crop-Variety Match Trap (Shusk Samrat is Rice, Not Wheat)

- Paddy-Govind, Arhar-Paras, Pea-Prakash sahi hain — '**Wheat-Shusk Samrat**' **GALAT** hai (Shusk Samrat rice ki variety hai, wheat ki **NAHI**). [Q52]

⚠ EXAM TRAP — Shusk Samrat — Rice ki variety hai, Wheat ki NAHI

51. Banana Leading Producer — Maharashtra (Now)

- Question ke waqt **Tamil Nadu** banana ka leading producer tha — 2023-24 data ke mutabik ab **Maharashtra > Andhra Pradesh > Tamil Nadu** hain. [Q53]

52. Bajra Producer Ranking (Rajasthan>UP>Gujarat>Haryana)

- 2022-23 Bajra production ranking: **Rajasthan > Uttar Pradesh > Gujarat > Haryana**. [Q54]

53. Groundnut-Mustard-Soyabean-Coconut State Match

- 2023-24 match: **Groundnut — Andhra Pradesh (Gujarat 2023-24 mein), Mustard — Rajasthan, Soyabean — Madhya Pradesh, Coconut — Kerala (Karnataka 2023-24 mein)**. [Q55]

54. Jute-Tea-Rubber-Sugarcane State Match

- Match: **Jute — West Bengal, Tea — Assam, Rubber — Kerala, Sugarcane — Uttar Pradesh**. [Q56]

55. Borlaug Award — Agricultural Science

- Borlaug Award **Agricultural Science** ke field mein diya jaata hai (1972 se, **Norman E. Borlaug** ke naam par). [Q57]

56. Kufri Chipsona-2 — Best Potato Variety for Processing

- Processing purposes ke liye **Kufri Chipsona-2** **sabse best potato variety hai** — Kufri Chipsona-3 (2005) plains ke liye, Kufri Himsona hilly areas ke liye best hai. [Q58]

57. National Food Security Mission — Rice/Wheat/Pulses Focus

- National Food Security Mission ka objective **Rice, Wheat aur Pulses ki production sustainable tareeke se badhaana hai** — area expansion, productivity, soil fertility restoration, farmer confidence badhaana. [Q59]

58. Subsistence Farming Crops — Coarse Cereals & Rice

- Subsistence farming ke tahat mainly **Coarse Cereals aur Rice** ugayi jaati hai. [Q60]

59. Ginger's Underground Stem — Rhizome

- Ginger (adrak) ka stem jo mitti mein ugta hai aur food store karta hai use **Rhizome (prakand)** kehte hain. [Q61]

60. Oatmeal — Cereal Grain Product

- Oatmeal cereal grain product hai — food aur cattle-fodder dono ke liye use hota hai — Sago, Soya flour, Arrowroot cereal products NAHI hain. [Q62]

61. Mandua (Koda) — Uttarakhand's Export to Japan

- Uttarakhand ka Mandua (Koda) grain mainly Japan ko export hota hai — mandua se bane products videsh mein high demand mein hain. [Q63]

62. Rainfed Crops — Groundnut, Sesame, Pearl Millet

- Groundnut, Sesame (til), Pearl Millet (bajra) predominantly rainfed crops hain — dry areas mein ugte hain, irrigation puri tarah rain par depend karti hai. [Q64]

63. Cowpea/Green Gram/Pigeon Pea — Triple-Use Crops

- Cowpea, Green gram, Pigeon Pea pulse, fodder aur green manure teeno ke roop mein use hote hain — 1 hectare mein Arhar ki green manure se 40kg nitrogen milta hai. [Q65]

64. Arunachal Pradesh — Best Climate for Orchid Cultivation

- Arunachal Pradesh orchids ki bahut saari varieties ke liye suited hai, export-oriented industry develop kar sakta hai (biodiversity, forests, deep valleys). [Q66]

65. Sikkim — India's First Organic State (2016)

- Sikkim ko January 2016 mein PM Narendra Modi ne India ka pehla Organic State declare kiya — eco-friendly farming state banne ki wajah se sarahna hui. [Q67]

66. Sikkim — First Organic State (Repeat)

- Sikkim India ka pehla organic/bio state hai (2016 mein declare hua). [Q68]

67. Gujarat — Arid North, Cotton Centre, Cash-Crop Dominant

- Gujarat ke characteristics: northern part arid/semi-arid hai, central part mein cotton production hota hai, cash crops ki cultivation food crops se predominant hai. [Q69]

68. Guar (Cluster Bean) — Shale Gas Extraction Gum

- Guar ke seeds se bana gum shale gas extraction (hydraulic fracturing) mein use hota hai — world production ka ~80% India-Pakistan mein hota hai. [Q70]

69. West Bengal — Historical Fish Leader (Inland, Not Coastal)

- Question ke waqt West Bengal fish ka leading producer tha (Assertion sahi) — lekin ye inland water sources (90%) se aata tha, sea-coast ke well-developed industry se NAHI (Reason galat) — 2022-23 mein ab Andhra Pradesh #1 hai. [Q71]

70. Fish Production Ranking (AP>WB>Karnataka>Odisha>Kerala)

- 2022-23 data ke mutabik fish production ranking: **Andhra Pradesh (51.06 lakh tonnes) > West Bengal (20.45) > Karnataka (12.25) > Odisha (10.52) > Kerala (9.21).** [Q72]

71. Cotton Fibre Length — Best Variety Over 5cm (Not 1-5cm)

- Cotton fibre length categories: **best quality >5cm (USA/West Indies), medium 3.75-5cm, small <2.5cm (Brazil/India)** — 'cotton fibre length 1-5cm hoti hai' GALAT statement hai — Boron micronutrient hai, apple ka edible part mesocarp hai, Pusa Basmati ka fertilizer dose N(120)P(60)K(60) sahi hai. [Q73]

72. Linseed — Rabi Crop (Not Grown Year-Round)

- Linseed (alsi) saal bhar NAHI ugayi jaa sakti — **ye Wheat, Barley, Rapeseed, Mustard, Gram ki tarah Rabi crop hai** — apple mein calcium ki kami se storage quality kam hoti hai, WB largest vegetable producer hai, 3rd-gen pesticide C.M. Williams ne propose kiya tha (sab sahi statements). [Q74]

73. Lac Production — Jharkhand Leading (Not Bihar Post-Split)

- 2013-14 data ke mutabik **Jharkhand lac (lakh) ka leading producer hai (~92% Jharkhand+Chhattisgarh+MP+Maharashtra se)** — 'Bihar' sirf undivided-Bihar ke context mein sahi tha — **West Bengal rice ka largest producer hai (AP ka NAHI, disputed question)**, Kunchikal waterfall Karnataka mein hai. [Q75]

74. Aman Rice — Sown June-July (Not March-April)

- Aman rice **June-July mein boyi jaati hai, November-December mein kaati jaati hai (March-April mein NAHI)** — India rice production mein China ke baad 2nd hai, Soyabean seed mein 20% oil+40% protein hota hai, Dr. B.P. Pal ICAR ke pehle Director-General the (sab baaki statements sahi hain). [Q76]

75. UPAS-120 — Arhar Variety (Not Gram) — Disputed

- Rajma ki nitrogen-fixation capacity research ke mutabik poor/inefficient hai (disputed statement) — '**UPAS-120 gram ki variety hai**' GALAT hai (ye Arhar ki variety hai) — PBW-343/DBW-17 wheat varieties hain, Khaira disease zinc sulphate se control hoti hai (sahi statements). [Q77]

EXAM TRAP — UPAS-120 — Arhar ki variety hai, Gram ki NAHI

76. Kinnaur-Mewat-Coromandel — All Mismatched Pairs

- Kinnaur (Himachal Pradesh) arecanut ke liye famous NAHI hai (Karnataka/Kerala/Assam/Meghalaya/WB/Tripura mein hota hai) — **Mewat (ab Nuh, Haryana) mango ke liye famous NAHI hai, Coromandel soyabean ke liye famous NAHI hai — teeno pairs GALAT hain.** [Q79]

77. Kaushal — Groundnut Variety, Not Rice (Disputed)

- 'Kaushal rice ki variety hai' GALAT hai (ye asal mein groundnut ki variety hai) — **aur 'sabse zyada pulses Rajasthan se aati hai' bhi GALAT hai (Madhya Pradesh se aati hai)** — Commission ne (d) ko sahi

maana, par (a) bhi galat hai, isliye disputed hai. First Agricultural University 1960 mein bani, Kerala coconut ka leading producer tha (question ke waqt). [Q78]

⚠ EXAM TRAP — Kaushal — Groundnut ki variety hai, Rice ki NAHI

78. India's Fruit Production Share — 15% (Historical)

- Indian Horticulture data 2014 ke mutabik **India world fruit production ka ~13.6% (closest option 15%) produce karta tha, China 20.9% ke saath #1 tha** — abhi (FAO 2023) India 'other fruits n.e.c.' category mein #1 hai. [Q80]

79. India — Largest Producer of Mango, Banana, Papaya, Lemon

- 2020-21 report ke mutabik **India Mango aur Papaya ka world ka largest producer hai (Grapes, Orange ka NAHI) — Banana aur Lemon ka bhi largest producer hai.** [Q81]

80. Jowar — Not a Cash Crop (Repeat Confirmation)

- Cash crops: **Oilseeds, Fiber (Cotton/Jute/Mesta), Plantation crops (Tea/Coffee/Rubber/Potato), Sugarcane/Tobacco — Jowar cash crop NAHI hai (food crop hai).** [Q82]

81. Crop-Season Match (Sunflower-All, Muskmelon-Zaid, Cotton-Kharif, Linseed-Rabi)

- Match: **Sunflower — All seasons, Muskmelon — Zaid (summer), Cotton — Kharif (rainy), Linseed — Rabi (winter).** [Q83]

82. Water Conservation Practices — Zero Tillage, Gypsum, Crop Residue

- Agriculture mein water conservation ke sab 3 practices sahi hain: **reduced/zero tillage, irrigation se pehle gypsum application, crop residue field mein chhodna** — sab moisture retain karte hain. [Q84]

83. Jute-Tea-Sugarcane-Rubber State Match (Repeat)

- Match: **Jute — West Bengal, Tea — Assam, Sugarcane — Uttar Pradesh, Rubber — Kerala.** [Q85]

84. Maize-Jute-Cotton-Soyabean State Match (AP Trap)

- Maize-UP, Jute-WB, Cotton-Maharashtra sahi hain — **'Soyabean-Andhra Pradesh' GALAT hai (Madhya Pradesh sabse bada producer hai, AP mein minimum production hai) — 2023-24 mein Maize ka #1 Karnataka hai, Cotton ka #1 Gujarat hai.** [Q86]

⚠ EXAM TRAP — Soyabean — Madhya Pradesh ka leading producer hai, Andhra Pradesh ka NAHI

85. Sultana/Gulabi/Kali Champa — Grape Varieties

- Sultana, Gulabi, Kali Champa **Grapes (angoor) ki varieties hain.** [Q87]

86. Crop-Weed Match (Bathua Doesn't Grow With Paddy)

- Wheat-Phalaris minor, Pea-Piyazi, Berseem-Kasni sahi hain — **'Paddy-Bathua' GALAT hai (Bathua wheat/pea/mustard ke saath ugta hai, paddy ke saath NAHI)** — Bathua ka botanical naam Chenopodium album hai. [Q88]

⚠ EXAM TRAP — Bathua — Wheat/Pea/Mustard ke saath ugta hai, Paddy ke saath NAHI

87. Radhey — Chickpea Variety (Not Paddy)

- Mustard-Varuna, Pea-Rachna, Linseed-Neelam sahi hain — **'Paddy-Radhey' GALAT hai (Radhey asal mein chickpea/chana ki variety hai — UP ke Bundelkhand region ke liye recommended).** [Q89]

⚠ EXAM TRAP — Radhey — Chickpea (chana) ki variety hai, Paddy ki NAHI

88. Maize-Potato-Sugarcane-Moong — 3-Year Crop Rotation

- Maize-Potato-Sugarcane(ratoon)-Moong crop cycle **3-saal ke crop rotation ka example hai.** [Q90]

89. NABI MG — Colored Wheat Variety

- NABI MG wheat ki ek colored variety hai (NABI ne develop ki, 3 colors: Black, Blue, Purple). [Q91]

90. 2,4-D — World's First Herbicide

- 2,4-D duniya ka **pehla herbicide tha** — Semazin, Pendimethalin, 2,4,5-T se pehle. [Q92]

91. Cultivation Techniques (Tasseling, Pegging, Tillering, Topping)

- Maize-Tasseling, Pliny-Pegging (groundnut) sahi hain — **'Ptolemy-Tillering' GALAT hai (Tillering wheat ki technique hai) — Strabo-Topping (gram plant ki young branches ke tips 2-4 hafte mein remove karna) sahi hai.** [Q93]

92. Uttar Pradesh — Mentha Oil Monopoly (85-100%)

- Uttar Pradesh Mentha oil ka **largest producer hai** — question ke waqt 85% contribution tha, ab 100% tak contribute karta hai. [Q94]

93. Crop-Disease Match Trap (Wilt Not Specific to Paddy)

- Mustard-White rust, Bajra-Smut, Groundnut-Tikka sahi hain — **'Paddy-Wilt' GALAT hai (Wilt paddy ki specific disease NAHI hai — ye plants ke vascular system ko affect karti hai).** [Q95]

94. False Smut — Rice Disease (Not Barley)

- Rust-Wheat, Early blight-Potato, Khaira-Paddy sahi hain — **'False smut-Barley' GALAT hai (False smut asal mein Rice ki disease hai).** [Q96]

⚠ EXAM TRAP — False smut — Rice ki disease hai, Barley ki NAHI

95. Cotton Leading Producer — Gujarat (2023-24)

- Rice-WB, Wheat-UP, Rape&Mustard-Rajasthan sahi hain — **2023-24 data ke mutabik Cotton ka leading producer Gujarat hai (question ke waqt ka answer confirm hua) — Maharashtra dusre number par.** [Q97]

96. Kerala — Black Pepper + Cardamom Producer

- Kerala mein **Black Pepper** aur **Cardamom** dono ka production hota hai — Assam, J&K, Himachal Pradesh se zyada. [Q98]

97. Dryland Farming — Below 75cm Rainfall

- Dryland farming (rainfed agriculture) India mein **750mm (75cm)** se kam annual rainfall wale regions mein practice hoti hai. [Q99]

98. NPOP — APEDA Implementing Agency (Not Rural Development)

- National Programme for Organic Production (NPOP) Ministry of Rural Development ke tahat NAHI hai (ye statement galat hai) — **APEDA (Agricultural and Processed Food Products Export Development Authority)** NPOP ke liye implementing agency/secretariat hai — Sikkim India ka pehla fully organic state hai (sahi statement). [Q100]

 **EXAM TRAP — NPOP — Rural Development Ministry ke tahat NAHI hai; APEDA implementing agency hai**

99. Cash Crops — Coffee, Cocoa, Sugarcane, Banana, Cotton, Jute

- Tropical climate wale cash crops: **Coffee, Cocoa, Sugarcane, Banana, Orange, Cotton, Jute** — **Millet (bajra)** cash crop NAHI hai. [Q101]

100. Bajra — Hot-Dry Climate, Rajasthan Leader (Disputed)

- Bajra ke sab statements sahi hain: **hot-dry climate mein western/central India mein boyi jaati hai, hardy crop hai (dry-spells resist karti hai), Rajasthan mein yield kam hoti hai (rainfed hone ki wajah se), Rajasthan hi production mein leading hai** — koi bhi option sab 4 combine nahi karta, isliye disputed hai. [Q102]

101. Agricultural Drought — Low Soil Moisture

- Agricultural drought **soil mein moisture ki kami ko refer karta hai (jahan crops ugti hain)** — Hydrological drought reservoir ke low water levels ko, Meteorological drought dryness ki degree/duration ko refer karta hai. [Q103]

102. Mahi Kanchan & RCB 911 — Maize & Bajra Hybrids

- Mahi Kanchan aur RCB 911 **respectively Maize aur Bajra ki hybrid varieties hain** — Rajasthan ke Bhilwara/Chittorgarh/Udaipur/Banswara maize districts hain, Western Rajasthan/Jaipur/Dausa/Karauli/Bharatpur bajra districts hain. [Q104]

103. Silviculture — Art & Science of Forest-Crop Cultivation

- Forest crops ki cultivation ki art aur science ko **Silviculture** kaha jaata hai — forests-woodlands ki establishment, growth, composition, health, quality ko sustainable tareeke se control karta hai. [Q105]
