

IRON ORE — FULL MIND MAP

Topic-wise · Fully Explained · Hinglish · SSC / BPSC / BSSC / Railway

Topics in this chapter:

1. Dharwar System — Iron Ore's Home Rock System
2. Top Producer States (Odisha, Chhattisgarh, Karnataka, Jharkhand)
3. Richest in Iron Ore (Bihar/Jharkhand + Odisha)
4. Iron Regions — Kudremukh & Singhbhum (Disputed)
5. Punjab — No Iron Ore
6. Nathra-ki-Pal (Rajasthan) — Iron Ore Site
7. World Country-Mineral Match (Russia-Iron, Chile-Copper)
8. Bailadila — Haematite Mining, Largest Mechanized Mine
9. Place-State Match (Bailadila, Kendujhar, Balaghat, Kudremukh)
10. Statement Verification — Karnataka Richest, India 2nd/4th
11. Reserve Ranking (Karnataka, Odisha, Jharkhand, Chhattisgarh)
12. Guntur — NOT Famous for Iron Ore (Wrong-Pair Trap)
13. Haematite — Largest Reserve Type in India
14. Iron Ore Types (Limonite, Hematite — Not Bauxite/Cinnabar)
15. Chiria (West Singhbhum) — Iron Ore Mining
16. Jharkhand+Odisha — Only 59% (Not 80%) of Haematite

1. Dharwar System — Iron Ore's Home Rock System

- India mein iron-ore **Dharwar rock system** mein paaya jaata hai — economic value ke hisaab se ye India ka sabse important rock system hai. [Q1, Q2, Q3]

2. Top Producer States (Odisha, Chhattisgarh, Karnataka, Jharkhand)

- 2021-22 production ke mutabik: **Odisha (53.82%, 136.67 MT) > Chhattisgarh (16.27%) > Karnataka (15.88%) > Jharkhand (9.74%)** — official answer key ne Odisha aur Karnataka ko top-2 maana (Chhattisgarh technically 2nd hai). [Q4]

3. Richest in Iron Ore (Bihar/Jharkhand + Odisha)

- Iron ore se sabse zyada sampann 2 states **Bihar (undivided, Jharkhand included) aur Odisha** the — modern context mein Odisha aur Jharkhand. [Q5]

4. Iron Regions — Kudremukh & Singhbhum (Disputed)

- Kudremukh (Karnataka, magnetite iron-ore) aur Singhbhum (Jharkhand) dono **famous iron-regions hain** — is question mein dono options sahi maane gaye (disputed). [Q6]

5. Punjab — No Iron Ore

- 4 major iron-ore regions: **North-East (Jharkhand, Odisha), Central India (MP, Chhattisgarh, Maharashtra), Peninsular (Karnataka, Goa, AP, Kerala), Others (Rajasthan, Gujarat, Haryana, WB)** — Punjab mein iron ore uplabdh NAHI hai. [Q7]

6. Nathra-ki-Pal (Rajasthan) — Iron Ore Site

- Nathra-ki-Pal (Rajasthan) area **iron ore ke liye famous hai**. [Q8]

7. World Country-Mineral Match (Russia-Iron, Chile-Copper)

- Country-mineral match: **Chile — Copper, India — Mica, Russian Federation — Iron Ore, Mexico — Silver**. [Q9]

8. Bailadila — Haematite Mining, Largest Mechanized Mine

- Bailadila (Dantewada, Chhattisgarh) mein **Haematite iron-ore ka khana hota hai — India ki sabse badi mechanized mine bhi yahi hai** — Vizag Steel Plant se connected hai, Japan ko export karti hai. [Q10, Q11, Q12]

9. Place-State Match (Bailadila, Kendujhar, Balaghat, Kudremukh)

- Match: **Bailadila — Chhattisgarh, Kendujhar — Odisha, Balaghat — Madhya Pradesh, Kudremukh — Karnataka**. [Q13]

10. Statement Verification — Karnataka Richest, India 2nd/4th

- Sahi statements: **Karnataka mein richest deposits hain (magnetite), Odisha production mein largest hai — 'India world mein 2nd largest producer hai' — jab question pucha gaya tab sahi tha, ab India 4th largest hai (2021, P)**. [Q14]

11. Reserve Ranking (Karnataka, Odisha, Jharkhand, Chhattisgarh)

- 2020-21 reserve ranking: **Karnataka > Odisha > Jharkhand > Chhattisgarh** (Magnetite+Haematite combined) — 1 April 2020 ke data ke mutabik. [Q15]

12. Guntur — NOT Famous for Iron Ore (Wrong-Pair Trap)

- Gold-Kolar, Coal-Jharia, Diamonds-Panna sahi pairs hain — **'Iron-ore-Guntur' GALAT hai (Guntur iron-ore ke liye famous NAHI hai)**. [Q16]

⚠ EXAM TRAP — Guntur — iron-ore ke liye famous NAHI hai (common wrong-pair)

13. Haematite — Largest Reserve Type in India

- Iron-ore types mein **Haematite ka sabse bada reserve India mein hai (~24 billion tonnes, 2020)**. [Q17]

14. Iron Ore Types (Limonite, Hematite — Not Bauxite/Cinnabar)

- Iron ke ores: **Limonite, Hematite, Magnetite, Siderite** (Pyrite bhi technically iron-ore hai, par commercial use sulfur/sulfuric acid ke liye hota hai) — **Cinnabar mercury ka ore hai, Bauxite aluminium ka, Chromite alag mineral hai, Malachite copper ka**. [Q18, Q19]

⚠ EXAM TRAP — Cinnabar (mercury), Bauxite (aluminium), Malachite (copper) — iron ke ores NAHI hain

15. Chiria (West Singhbhum) — Iron Ore Mining

- Chiria (West Singhbhum, Jharkhand) iron ore mining ke liye famous hai. [Q20]

| 16. Jharkhand+Odisha — Only 59% (Not 80%) of Haematite

- Sahi statements: India mein mainly haematite-magnetite reserves hain, Bellary Karnataka ka major mining area hai, Mayurbhanj Odisha mein important hai — 'Jharkhand+Odisha mein 80% haematite reserves' GALAT hai (actual mein sirf 59% hai — Odisha 39% + Jharkhand 20%). [Q21]
