

MISCELLANEOUS MINERALS — FULL MIND MAP

Topic-wise · Fully Explained · Hinglish · SSC / BPSC / BSSC / Railway

Topics in this chapter:

1. Major vs Minor Minerals (Bentonite is Minor)
2. Odisha's Mineral Monopoly (Chromite, Bauxite, Manganese)
3. Mining City Mismatches (Manganese-Bhilwara is Wrong)
4. Asbestos — AP Production, Rajasthan Reserves (Disputed)
5. Gondwana/Dharwar — Poor in Petroleum (Kodarma Rich in Mica)
6. Kodarma — World-Famous for Ruby Mica
7. Garnet — Metamorphic Mineral
8. Quartzite — Metamorphosed from Sandstone
9. Ore-State Match (Manganese-MP, Nickel-Odisha, Lead-Zinc-Rajasthan)
10. Madhya Pradesh — Leading Manganese Producer
11. Manganese Ranking (MP>Odisha>AP>Rajasthan, Historical)
12. Iron-Copper-Gold-Mica State Match (Disputed)
13. India — Not Self-Sufficient in Any Listed Mineral
14. Mineral Oil-Gypsum-Gold-Bauxite Match (Disputed)
15. Rajasthan — Limestone+Gypsum+Salt+Zinc Hub
16. Non-Metallic Minerals — Gypsum, Phosphorite, Dolomite, Garnet
17. Rajasthan — Leading Gypsum Producer
18. Churu-Bikaner-Sri Ganganagar Belt — Gypsum
19. Coal-Gold-Mica-Manganese Match (Karanpura, Hutti, Nellore, Bhandara)
20. Makum-Dallirajhara-Koraput-Chitradurg Match
21. Kamptee — Coal (Not Copper) Wrong-Pair
22. Badam Pahar-Kodarma-Mosabani-Rava Match
23. Iron Ore Zones — Badam Pahar/Dalli-Rajhara/Kudremukh/Noamundi
24. Nellore — Mica+Copper (Not Manganese) Wrong-Pair
25. Graphite-Lead-Salt-Silver Mining Areas
26. Ankleshwar-Dalli Rajhara-Kodarma-Khetri Match
27. Iron Ore-Copper-Coal-Mica Match (Keonjhar, Khetri, Korba, Kodarma)
28. Gold-Coal-Iron-Copper Location Sequence (Kolar-Jharia-Kudremukh-Khetri)
29. Odisha's Chromite Monopoly (Repeat)
30. Gypsum-Copper-Rock Phosphate-Lead&Zinc Match (Rajasthan Sites)
31. Khetri-Jharia-Singhbhum Match (Copper/Coal/Iron)
32. Bailadila-Kemmangundi-Singhbhum-Mayurbhanj State Match
33. MP Mineral-District Match (Diamond-Panna, Coal-Sidhi)
34. Coal-Copper-Iron-Silver Match (Talcher, Khetri, Kudremukh, Zawar)
35. Koraput — Bauxite (Not Manganese) Wrong-Pair
36. Copper-Gas-Aluminium-Petroleum Match (Khetri/Auraiya/Korba/Kochi)
37. Balaghat-Manganese, Majhgawan-Diamond (Both Statements Reversed)
38. Lalitpur — Granite Slabs & Slates (UP)
39. Panna — India's Biggest Diamond Mining Centre
40. Raipur District — Kimberlite (Diamond) Discovery
41. Sonbhadra — Andalusite/Pyrite/Dolomite (Not Uranium)
42. Kerala Beach Sand — Ilmenite/Zircon/Sillimanite (Not Tungsten)
43. Ilmenite/Rutile — Titanium Source

44. Kerala — Leading Thorium Producer (Monazite)
45. Kerala Coastal Beaches — Monazite (Disputed)
46. Monazite — Kerala's Abundant Mineral
47. Monazite States — Multiple (Disputed)
48. Thorium Deposits Exist; Kerala Monazite Has Uranium
49. Uranium Centres (Domiasiat-Meghalaya, Lambapur-AP, Rohail-Rajasthan, Gogi-Karnataka)
50. Jaduguda — Uranium Mine (Jharkhand)
51. Turamdih — Uranium Mining Near Jaduguda
52. Chhattisgarh — Bauxite/Dolomite/Iron Ore/Tin All Present
53. Palamu-Hazaribagh-Khetri-Keonjhar Match (Disputed)
54. Chota Nagpur Plateau — Rich in Minerals
55. Kaimur Plateau — Limestone (Bihar)
56. Coal-Copper-Manganese-Lignite Match (Giridih/Alwar/Dharwar/Jayamkondam)
57. Gurumahisani-Talcher-Jaduguda-Zavar Match (Iron/Coal/Uranium/Lead)
58. Copper-Nickel-Tungsten 90% Sources (Rajasthan/Odisha/Karnataka)
59. Guru Mahisani-Talcher-Jaduguda-Zawar Match (Repeat, Zinc Version)
60. Sambhar Lake — Historical Salt Share (Disputed)
61. India — 3rd Largest Salt Producer (Gujarat Leads)
62. Bauxite-Lohardaga Match (Not Manganese-Bailadila)
63. Mineral-Industry Match (Limestone-Cement, Bauxite-Aeroplane)
64. Korba, Chhattisgarh — India's First Lithium Mine (2024)

1. Major vs Minor Minerals (Bentonite is Minor)

- Indian Minerals Yearbook 2022 ke mutabik **Bentonite ek minor mineral hai (fuller's earth, marble, mica jaisa)** — **Chromite, Kyanite aur Sillimanite major minerals hain.** [Q1]

2. Odisha's Mineral Monopoly (Chromite, Bauxite, Manganese)

- Odisha ka **Chromite production mein near-monopoly hai** — **Manganese aur Bauxite ke reserves mein bhi #1 hai (1 April 2020)** — **Karnataka Silver mein top producer hai (2021-22)** — ye sab statements sahi hain, isliye disputed question hai. [Q2]

3. Mining City Mismatches (Manganese-Bhilwara is Wrong)

- Iron ore-Ballari, Bauxite-Katni sahi hain — '**Copper-Chitradurga**' GALAT hai (**Chitradurga iron-manganese ke liye hai**), '**Manganese-Bhilwara**' GALAT hai (**Bhilwara copper ke liye famous hai, manganese Banswara-Udaipur-Pali mein milta hai**). [Q3]

 **EXAM TRAP — Bhilwara — Copper ke liye famous hai, Manganese ke liye NAHI**

4. Asbestos — AP Production, Rajasthan Reserves (Disputed)

- 2013-14 data ke mutabik **Andhra Pradesh asbestos ka ekmatra producer tha** — **lekin largest RESERVE (2020) Rajasthan mein hai** — question 'production' ke baare mein tha, isliye disputed hai. [Q4]

5. Gondwana/Dharwar — Poor in Petroleum (Kodarma Rich in Mica)

- Petroleum-natural gas tertiary sedimentary rocks mein milte hain — **Gondwana aur Dharwar rocks bahut purane (metamorphosed) hain, isliye petroleum-natural gas mein POOR hain (statements 1,3 GALAT)** — **Kodarma (Jharkhand) mica ke liye rich hai (statement 2 sahi).** [Q5, Q6]

6. Kodarma — World-Famous for Ruby Mica

- Kodarma district (Jharkhand) **ruby mica mining ke liye world-famous hai** — 'Mica City of India' kehlata hai — main reserve Kodarma Wildlife Sanctuary ke jungle ke niche hai. **Cuddapah basin baryte/asbestos/copper/iron/lead/diamond/uranium ke liye famous hai (petroleum ke liye NAHI).** [Q6]

7. Garnet — Metamorphic Mineral

- Garnet **metamorphic mineral hai** — **high temperature-pressure (metamorphism) se banta hai** — Copper, Manganese, Pyrite is category mein NAHI hain. [Q7]

8. Quartzite — Metamorphosed from Sandstone

- Quartzite (non-foliated metamorphic rock, mostly quartz) **Sandstone (balua patthar) se metamorphose hota hai** — heat/pressure/chemical activity se. [Q8]

9. Ore-State Match (Manganese-MP, Nickel-Odisha, Lead-Zinc-Rajasthan)

- Match: **Manganese — Madhya Pradesh, Nickel — Odisha, Lead-Zinc — Rajasthan, Asbestos — Andhra Pradesh.** [Q9]

10. Madhya Pradesh — Leading Manganese Producer

- Indian Minerals Yearbook 2022 ke mutabik **Madhya Pradesh Manganese Ore ka leading producer hai (2021-22, P).** [Q10]

11. Manganese Ranking (MP>Odisha>AP>Rajasthan, Historical)

- 2013-14 ranking: **Madhya Pradesh > Odisha > Andhra Pradesh > Rajasthan** — 2021-22 (P) ke mutabik ab **Madhya Pradesh > Maharashtra > Odisha > Karnataka > Andhra Pradesh** hai. [Q11]

12. Iron-Copper-Gold-Mica State Match (Disputed)

- 2022 data ke mutabik: **Iron ore — Odisha, Copper Ore — Madhya Pradesh, Gold Ore — Karnataka, Mica — Rajasthan** — diye gaye options mein koi bhi match nahi karta, isliye disputed hai. [Q12]

13. India — Not Self-Sufficient in Any Listed Mineral

- Tin, Silver, Gold, Graphite mein se **India kisi mein bhi self-sufficient NAHI hai** — Graphite world reserves mein Turkey (28%), China (23%), Brazil (22%) top hain, India sirf 2% share rakhta hai. [Q13]

14. Mineral Oil-Gypsum-Gold-Bauxite Match (Disputed)

- 2022 data ke mutabik: **Mineral Oil (Crude) — Rajasthan, Gypsum — Rajasthan, Gold — Karnataka, Bauxite — Odisha** — diye gaye options mein koi bhi match nahi karta, isliye disputed hai. [Q14]

15. Rajasthan — Limestone+Gypsum+Salt+Zinc Hub

- Rajasthan state **Limestone, Gypsum, Salt, Zinc ke deposits ke liye famous hai.** [Q15]

16. Non-Metallic Minerals — Gypsum, Phosphorite, Dolomite, Garnet

- India ke non-metallic minerals: **Phosphorite, Dolomite, Gypsum, Garnet, Wollastonite, Vermiculite, Ochre, Perlite, Bentonite, Asbestos, Feldspar, Soapstone, Kaolin, Sillimanite, Limestone, Diatomite, Pyrophyllite, Fluorite** — Haematite, Bauxite, Limonite metallic minerals hain. [Q16]

17. Rajasthan — Leading Gypsum Producer

- Indian Minerals Yearbook 2022 ke mutabik **Rajasthan** gypsum ka leading producer hai (2021-22, P). [Q17]

18. Churu-Bikaner-Sri Ganganagar Belt — Gypsum

- Churu-Bikaner-Sri Ganganagar belt mein **Gypsum bhaari** matra mein milta hai — environmental pollution ka source hai, soil fertility badhaane ke liye use hota hai, value-addition ke baad health-construction sector mein use hota hai. [Q18]

19. Coal-Gold-Mica-Manganese Match (Karanpura, Hutti, Nellore, Bhandara)

- Match: Coal — Karanpura (Jharkhand), Gold — Hutti (Karnataka), Mica — Nellore (Andhra Pradesh), Manganese — Bhandara (Maharashtra). [Q19]

20. Makum-Dallirajhara-Koraput-Chitradurg Match

- Match: Makum — Coal, Dallirajhara — Iron Ore, Koraput — Bauxite, Chitradurg — Manganese. [Q20]

21. Kamptee — Coal (Not Copper) Wrong-Pair

- Amguri-Petroleum, Lanjigarh-Bauxite, Bellary-Iron ore sahi hain — 'Kamptee-Copper' GALAT hai (Kamptee, Maharashtra, coal ke liye famous hai). [Q21]

⚠ EXAM TRAP — Kamptee — Coal ke liye famous hai, Copper ke liye NAHI

22. Badam Pahar-Kodarma-Mosabani-Rava Match

- Match: Badam Pahar (Odisha) — Iron ore, Kodarma (Jharkhand) — Mica, Mosabani (Jharkhand) — Copper, Rava (Krishna-Godavari Basin) — Petroleum. [Q22]

23. Iron Ore Zones — Badam Pahar/Dalli-Rajhara/Kudremukh/Noamundi

- Iron ore zone-state match: Badam Pahar — Odisha, Dalli-Rajhara — Chhattisgarh, Kudremukh — Karnataka, Noamundi — Jharkhand. [Q23]

24. Nellore — Mica+Copper (Not Manganese) Wrong-Pair

- Dalli-Rajhara-Iron Ore, Rakha-Copper, Amar Kantak-Bauxite sahi hain — 'Nellore-Manganese' GALAT hai (Nellore, AP, mica-copper ke liye famous hai). [Q24]

⚠ EXAM TRAP — Nellore — Mica aur Copper ke liye famous hai, Manganese ke liye NAHI

25. Graphite-Lead-Salt-Silver Mining Areas

- Match: Graphite — Rampa (Andhra Pradesh), Lead — Zawar (Rajasthan), Salt — Didwana (Rajasthan), Silver — Bellary (Karnataka). [Q25]

26. Ankleshwar-Dalli Rajhara-Kodarma-Khetri Match

- Match: Ankleshwar (Bharuch, Gujarat) — Petroleum, Dalli-Rajhara — Iron Ore (Bhilai Steel Plant ke liye captive mines), Kodarma — Mica, Khetri — Copper (Khetri-Singhana, Kho-Dariba, Bhan-goni mines). [Q26]

27. Iron Ore-Copper-Coal-Mica Match (Keonjhar, Khetri, Korba, Kodarma)

- Match: Iron Ore — Keonjhar, Copper — Khetri, Coal — Korba, Mica — Kodarma. [Q27]

28. Gold-Coal-Iron-Copper Location Sequence (Kolar-Jharia-Kudremukh-Khetri)

- Sequence: Copper-Khetri (Rajasthan), Gold-Kolar (Karnataka), Iron-Kudremukh (world ki sabse badi mines mein se ek), Coal-Jharia (Dhanbad, Jharkhand). [Q28, Q29]

29. Odisha's Chromite Monopoly (Repeat)

- Indian Bureau of Mines (2022) ke mutabik Odisha chromite production mein continue kar raha hai major state banke rehna (2021-22, P) — almost entire production ka share rakhta hai. [Q30]

30. Gypsum-Copper-Rock Phosphate-Lead&Zinc Match (Rajasthan Sites)

- Match: Gypsum — Jamsar, Copper — Khoh-Dariba, Rock Phosphate — Jhamar-kotra, Lead & Zinc — Rampura-Agucha — sab Rajasthan mein hain. [Q31]

31. Khetri-Jharia-Singhbhum Match (Copper/Coal/Iron)

- Match: Khetri (Jhunjhunu, Rajasthan) — Copper, Jharia (Jharkhand) — Coal (coke banane ke liye use), Singhbhum (Jharkhand) — Iron ore. [Q32]

32. Bailadila-Kemmangundi-Singhbhum-Mayurbhanj State Match

- Match: Bailadila — Chhattisgarh, Kemmangundi — Karnataka, Singhbhum — Jharkhand, Mayurbhanj — Odisha. [Q33]

33. MP Mineral-District Match (Diamond-Panna, Coal-Sidhi)

- MP mineral-district match: Diamond — Panna, Iron ore — Bastar/Durg (Chhattisgarh), Bauxite — Surguja/Mandla/Satna/Balaghat/Bilaspur, Coal — Sidhi/Surguja/Bilaspur/Raigarh/Shahdol/Chhindwara/Betul. [Q34]

34. Coal-Copper-Iron-Silver Match (Talcher, Khetri, Kudremukh, Zawar)

- Match: Coal — Talcher (Angul, Odisha), Copper — Khetri, Iron Ore — Kudremukh, Silver — Zawar (Udaipur, Rajasthan). [Q35]

35. Koraput — Bauxite (Not Manganese) Wrong-Pair

- Iron Ore-Kudremukh, Copper-Khetri, Coal-Singareni sahi hain — 'Manganese-Koraput' GALAT hai (Koraput bauxite/aluminium ke liye famous hai). [Q36]

⚠ EXAM TRAP — Koraput — Bauxite/Aluminium ke liye famous hai, Manganese ke liye NAHI

36. Copper-Gas-Aluminium-Petroleum Match (Khetri/Auraiya/Korba/Kochi)

- Match: Copper — Khetri, Gas Plant — Auraiya, Aluminium — Korba, Petroleum — Kochi. [Q37]

37. Balaghat-Manganese, Majhgawan-Diamond (Both Statements Reversed)

- Sahi facts: Balaghat (MP) manganese-ore production ke liye important hai (diamond ke liye NAHI), Majhgawan (Panna, MP) diamond ke liye jaana jaata hai (manganese ke liye NAHI) — 'Balaghat-diamond' aur 'Majhgawan-manganese' dono statements GALAT hain. [Q38]

38. Lalitpur — Granite Slabs & Slates (UP)

- Granite UP ke Lalitpur, Mahoba, Banda districts mein milta hai — granite slates mainly Lalitpur mein bante hain. [Q39]

39. Panna — India's Biggest Diamond Mining Centre

- Panna (Madhya Pradesh) India ka sabse bada diamond mining centre hai — Panna aur Satna districts mein diamond mines hain. [Q40]

40. Raipur District — Kimberlite (Diamond) Discovery

- Diamond-bearing kimberlite ke bade reserves Raipur district (Payalikhhand, Behradin) aur Bastar (Tokapal) mein discover hue. [Q41]

41. Sonbhadra — Andalusite/Pyrite/Dolomite (Not Uranium)

- Sonbhadra district (UP) mein Fireclay, Limestone, China Clay, Dolomite, Potash, Andalusite, Pyrite milte hain — Uranium NAHI (wo Lalitpur district mein milta hai). [Q42]

⚠ EXAM TRAP — Uranium — Lalitpur district mein milta hai, Sonbhadra mein NAHI

42. Kerala Beach Sand — Ilmenite/Zircon/Sillimanite (Not Tungsten)

- Kerala ke beach sand mein Ilmenite, Zircon, Sillimanite (Rutile, Leucosene, Monazite bhi) milte hain — Tungsten NAHI — Neendakara-Kayamkulam coastal tract world-class mineral-sand deposits ke liye jaana jaata hai. [Q43]

43. Ilmenite/Rutile — Titanium Source

- Ilmenite aur Rutile Titanium ka rich source hain — India ke coastal tracts mein abundant hain. [Q44]

44. Kerala — Leading Thorium Producer (Monazite)

- Kerala India ka thorium ka leading producer hai — monazite processing se, Indian Rare Earths Limited ka plant Udyagmandal (Aluva), Ernakulam district mein hai. [Q45]

45. Kerala Coastal Beaches — Monazite (Disputed)

- Kerala ke coast par **Monazite mineral milta hai** — **thorium aur uranium bhi monazite minerals mein milte hain** — multiple elements list mein hone ki wajah se disputed question hai. [Q46]

46. Monazite — Kerala's Abundant Mineral

- Kerala mein prachur matra mein paaya jaane wala mineral **Monazite hai** — Tin, Manganese, Mica se zyada. [Q47]

47. Monazite States — Multiple (Disputed)

- Monazite India mein **Odisha, Andhra Pradesh, Tamil Nadu, Kerala, West Bengal, Maharashtra, Gujarat mein milta hai** — options mein Tamil Nadu aur Kerala dono hain, isliye disputed question hai. [Q48]

48. Thorium Deposits Exist; Kerala Monazite Has Uranium

- 'India mein thorium ka koi deposit nahi hai' GALAT hai — **Kerala ki monazite sand mein Uranium hota hai (statement 2 sahi hai)** — monazite thorium, lanthanum, uranium, cerium ka important ore hai, India-Madagascar-South Africa mein rich deposits hain. [Q49]

49. Uranium Centres (Domiasiat-Meghalaya, Lambapur-AP, Rohail-Rajasthan, Gogi-Karnataka)

- Uranium centres match: **Domiasiat — Meghalaya, Lambapur — Andhra Pradesh, Rohail — Rajasthan, Gogi — Karnataka.** [Q50]

50. Jaduguda — Uranium Mine (Jharkhand)

- Jaduguda Mine **Purbi Singhbhum district, Jharkhand mein Uranium ki mine hai.** [Q51]

51. Turamdih — Uranium Mining Near Jaduguda

- Turamdih (Eastern Singhbhum, Jharkhand, Jaduguda se ~24km door) mein bhi **Uranium ka khandan hota hai** — **Uranium Corporation of India Limited responsible hai.** [Q52]

52. Chhattisgarh — Bauxite/Dolomite/Iron Ore/Tin All Present

- Chhattisgarh mein **Bauxite (Bastar/Bilaspur/Dantewada), Dolomite (Bilaspur/Janjgir/Bastar), Iron ore-Haematite (Bastar), Tin (Dantewada)** sab naturally milte hain. [Q53]

53. Palamu-Hazaribagh-Khetri-Keonjhar Match (Disputed)

- Sahi match: **Palamu — Bauxite, Hazaribagh — Mica, Khetri — Copper, Keonjhar (Odisha) — Manganese** — options mein perfectly present nahi tha, isliye disputed hai. [Q54]

54. Chota Nagpur Plateau — Rich in Minerals

- Chota Nagpur plateau **various minerals mein samridh hai** — skilled labour/hydroelectricity/fertile soil se zyada. [Q55]

55. Kaimur Plateau — Limestone (Bihar)

- Kaimur plateau (Bihar ke Rohtas-Kaimur districts) **Limestone ke liye famous hai** — limestone+sandstone se bana hai, Banjari mein cement industry hai. [Q56]

56. Coal-Copper-Manganese-Lignite Match (Giridih/Alwar/Dharwar/Jayamkondam)

- Match: Coal — Giridih (Jharkhand), Copper — Alwar (Rajasthan), Manganese — Dharwar (Karnataka), Lignite — Jayamkondam (Tamil Nadu). [Q57]

57. Gurumahisani-Talcher-Jaduguda-Zavar Match (Iron/Coal/Uranium/Lead)

- Match: Gurumahisani — Iron ore, Talcher — Coal, Jaduguda — Uranium, Zavar — Lead. [Q58]

58. Copper-Nickel-Tungsten 90% Sources (Rajasthan/Odisha/Karnataka)

- Indian Minerals Yearbook 2022 ke mutabik: Copper ka ~52.25% natural source Rajasthan mein hai (Jharkhand mein NAHI), Nickel ka ~93% Odisha mein hai (sahi), Tungsten ka ~41% Karnataka mein hai (Kerala mein NAHI) — sirf statement 2 (Nickel-Odisha) sahi hai. [Q59]

⚠ EXAM TRAP — Copper ka 90% source Rajasthan mein hai (Jharkhand mein NAHI); Tungsten Karnataka mein hai (Kerala mein NAHI)

59. Guru Mahisani-Talcher-Jaduguda-Zawar Match (Repeat, Zinc Version)

- Match: Guru Mahisani — Iron-ore, Talcher — Coal, Jaduguda — Uranium, Zawar — Zinc. [Q60]

60. Sambhar Lake — Historical Salt Share (Disputed)

- Diya gaya option 1992 ke context ke liye sahi tha (disputed question) — Sambhar Lake ka historical salt-production share alag time-periods mein alag raha hai. [Q61]

61. India — 3rd Largest Salt Producer (Gujarat Leads)

- 2021-22 data ke mutabik India China+USA ke baad duniya ka 3rd largest salt producer hai (266 lakh tonnes) — Sea salt ~80% hai — Gujarat (86%) leading, Rajasthan (6%), Tamil Nadu (6%) dusre-teesre number par. [Q61]

62. Bauxite-Lohardaga Match (Not Manganese-Bailadila)

- Sahi match: Bauxite — Lohardaga (Jharkhand) — 'Manganese-Bailadila', 'Iron-Koderma', 'Mica-Talcher' GALAT hain (Koderma mica, Talcher coal, Bailadila iron ke liye famous hain). [Q62]

63. Mineral-Industry Match (Limestone-Cement, Bauxite-Aeroplane)

- Match: Limestone — Cement, Copper — Electrical goods, Bauxite — Aeroplane manufacturing, Manganese — Steel. [Q63]

64. Korba, Chhattisgarh — India's First Lithium Mine (2024)

- Central Government ne **August 2024** mein **Katghora region, Korba district (Chhattisgarh)** mein **India ki pehli lithium mine kholne ka decision liya** — GSI ne 10-2000 PPM lithium concentration report ki ~250 hectares area mein. *[Q64]*
