Chapter 01_vii_The_Mars

Topic Index

1. Mars — Earth Se Similarity
2. Mars — Orbit aur Size
3. Mars aur Europa — Life Possibility
4. Mars Missions

Mars — Earth Se Similarity

- Mars ka day duration (~24h 37m) aur axis tilt (~25°12') Earth (~23h 56m, ~23°30') ke bahut close hain — sabse zyada similar planet. [Q1]

Mars — Orbit aur Size

- Assertion: Mars Earth se kam time leta hai revolution mein — **FALSE** (Mars ~687 days leta hai, Earth ~365); Reason: Mars ka diameter Earth se kam hai — **TRUE**. [Q2]

Mars aur Europa — Life Possibility

- Mars pe life possibility ka strongest indicator: **polar ice caps aur frozen water** ki presence. [Q3]
- Extraterrestrial life ke liye favourable maane jaate hain: **Mars aur Europa** (Jupiter ka moon — icy surface ke neeche vast ocean ho sakta hai). [Q4]

Mars Missions

- **Phoenix Mars Lander** 25 May 2008 ko Mars ke northern polar region mein land hua (launched Aug 2007, mission ended Nov 2008) — options mein 26 May closest date treat ki gayi. [Q5]
