

The Uranus Neptune and Pluto — FULL MIND MAP

Topic-wise · Fully Explained · Hinglish · SSC / BPSC / BSSC / Railway

Chapter 01_x_The_Uranus_Neptune_and_Pluto

Topic Index

1. Solar System Facts Recap
2. Uranus — Orbit
3. Pluto aur Longest Year
4. 2006 IAU Reclassification
5. Temperature aur Farthest Planet
6. Pluto ke Moons

Solar System Facts Recap

- Statement set: Mercury sabse hot planet **NAHI** (Venus hai); Ganymede Saturn ka **NAHI**, Jupiter ka moon hai; Neptune ke rings methane gas ke **NAHI** (dust/ice ke) hain; sirf **Phobos-Deimos Mars ke moons** wala statement (4) correct hai. *[Q1]*

Uranus — Orbit

- **Uranus** Sun ki 1 revolution ~**84 years** mein complete karta hai; ek din ~17h 14m ka hota hai. *[Q2]*

Pluto aur Longest Year

- Given celestial bodies mein **Pluto** ka year sabse longa hai (~248 Earth years) — Pluto ab dwarf planet hai. *[Q3]*
- Orbital periods: Jupiter ~11.9 yrs, Uranus ~84 yrs, Neptune ~165 yrs, Pluto ~248 yrs — Pluto sabse zyada leta hai. *[Q4]*
- 8 planets mein **Neptune** sabse zyada time (~165 years) leta hai (Pluto ab planet nahi hai isliye exclude). *[Q5]*

2006 IAU Reclassification

- 2006 mein IAU (26th General Assembly) ne **Pluto ko planet category se hataya** — ab 'dwarf planet' status hai. *[Q6]*
- **Mercury** 8 recognized planets mein sabse chhota hai (Pluto chhota hai lekin ab planet category mein nahi). *[Q7]*

Temperature aur Farthest Planet

- **Neptune** ka average atmospheric temperature sabse kam hai (~200°C) given options mein. *[Q8]*
- Purani classification mein farthest planet **kabhi Neptune, kabhi Pluto** hota tha — Pluto ki highly elliptical orbit kabhi-kabhi use Neptune se close le aati thi (1979-1999 ke beech Pluto Neptune se close tha). *[Q9, Q10]*

 EXAM TRAP

- 1979-1999 period mein **Neptune** temporarily farthest planet tha, na ki Pluto (jo apni highly elliptical orbit ki wajah se Sun ke closer aa gaya tha). *[Q10]*

Pluto ke Moons

- Pluto ke 5 known moons (inner se outer): **Charon, Styx, Nix, Kerberos, Hydra** — Charon sabse bada hai. *[Q11]*
