

The Equator — FULL MIND MAP

Topic-wise · Fully Explained · Hinglish · SSC / BPSC / BSSC / Railway

Chapter 02_iii_The_Equator

Topic Index

1. Equator ki Length
2. Equator — Kin Countries Se Guzarti Hai
3. Equator — Temperature aur Climate
4. Cities Nearest to Equator
5. Equator + Tropics — Continents Overlap
6. ITCZ

Equator ki Length

- Equator ki total length ~**40,000 km (40,090 km)** hai — ~78.7% water se aur ~21.3% land se guzarti hai. *[Q1]*

Equator — Kin Countries Se Guzarti Hai

- Equator guzarti hai: **Colombia, Kenya, Indonesia, Brazil, Gabon, Somalia**. *[Q2, Q3, Q5, Q6, Q7]*
- Equator NAHI guzarti: **Mexico, Equatorial Guinea, Rwanda, Brunei, Venezuela, Cameroon, Costa Rica** (naam se confuse mat ho — 'Equatorial Guinea' naam mein hone ke bawajood Equator wahan se nahi guzarti). *[Q3, Q4, Q5, Q6, Q7]*

EXAM TRAP

- 'Equatorial Guinea' ke naam mein 'Equatorial' hai lekin Equator **waha se guzarti NAHI** hai — naam-based guessing avoid karo. *[Q4]*

Equator — Temperature aur Climate

- Annual temperature range sabse **kam (minimum)** Equator ke paas hoti hai — Sun rays saal bhar lagbhag vertically padti hain, isliye clear winter season nahi hota. *[Q8]*

Cities Nearest to Equator

- Given cities mein **Singapore (1°21'N)** Equator ke sabse close hai (Colombo, Jakarta, Manila se zyada close) — sirf ~137 km door. *[Q9]*

Equator + Tropics — Continents Overlap

- Equator, Tropic of Cancer, aur Tropic of Capricorn — teeno **Africa** se guzarti hain (South America se sirf Equator aur Capricorn guzarti hain, Cancer nahi). *[Q10]*

| ITCZ

- **Intertropical Convergence Zone (ITCZ)** — low-pressure zone jo **Equator** ke around located hai. *[Q11]*
