Chapter 06_The_Continents

Topic Index

1. Countries Count aur Area — Continents
2. Smallest Continents
3. Per-Capita Land aur Mean Elevation
4. South America — Physical Regions
5. Physical Features — Location Matching
6. Plains Percentage
7. Country ↔ Continent — Common Confusions
8. Australia se Associated Features

Countries Count aur Area — Continents

- **Africa** mein sabse zyada countries hain (54 UN member states) — kisi bhi other continent se zyada. *[Q1,Q2]*
- Overall **Asia** sabse bada continent hai; given options mein (Europe/Africa/N.America/S.America) **Africa** sabse bada hai. *[Q3]*
- Area descending order (given 4): **Africa > South America > Europe > Australia**. *[Q5]*
- Full area descending order: **Asia > Africa > North America > Europe** (Asia 44.5M, Africa 30M, N.America 24.5M, Europe 9.9M sq km). *[Q6]*
- % share of Earth's land area (descending, exam list): **Africa > North America > South America > Europe** (Asia 29.8%, Africa 20.3%, N.America 16.2%, S.America 11.8%, Antarctica 9.2%, Europe 6.8%, Australia 5.9%). *[Q9]*

Smallest Continents

- **Australia** = smallest continent by land area; **Europe** = 2nd smallest. *[Q7,Q8]*

Per-Capita Land aur Mean Elevation

- Given options mein maximum per-capita land: **Australia** (World Bank data ke according). *[Q10]*
- Highest mean elevation continent: **Antarctica (~2300m)** — Asia 923m, N.America 760m, Africa 585m, Australia 330m, S.America 554m, Europe 302m (lowest). *[Q11]*

South America — Physical Regions

- South America ke 4 physical regions (typical map order): **Andes, Brazilian Shield, Guiana Highland, Amazon Basin**. *[Q12]*

Physical Features — Location Matching

- **Atlas Mountains** = North-Western Africa (correctly matched pair). [Q13]
- Correct locations: Abyssinian Plateau = East Africa, Guiana Highlands = Northern South America, Okavango Basin = South-Western Africa. [Q13]
- Matching: Aconcagua–South America, Meseta–Europe, Serengeti Plains–Africa, Gibson Desert–Australia. [Q15]

⚠ EXAM TRAP

- Q13 mein wrong pairings the: Abyssinian Plateau ko Arabia se, Guiana Highlands ko S-W Africa se, Okavango Basin ko Patagonia se galat match kiya gaya tha — sirf Atlas Mountains–NW Africa hi sahi tha. [Q13]

Plains Percentage

- Given options mein sabse zyada plains percentage (total area ke relative): **Europe** — South America mein bhi extensive plains hain lekin Europe ka % zyada hai. [Q14]

Country ↔ Continent — Common Confusions

- **Guyana** South America mein hai (Africa mein NAHI) — naam Guinea/Guinea-Bissau se similar sound karta hai isliye confusion hoti hai. Gabon, Guinea, Guinea-Bissau sab Africa mein hain. [Q4, Q16]

⚠ EXAM TRAP

- **Guyana (South America)** vs **Guinea/Guinea-Bissau (Africa)** — naam-sound similarity ki wajah se yeh sabse common exam trap hai. [Q4, Q16]

Australia se Associated Features

- Australia se associated: Lake Eyre, Nullarbor Plain, Mount Selwyn — **Salween Valley Australia se NAHI** associated hai (Salween river Asia mein hai — Myanmar/China). [Q17]
