Chapter 08_The_Plateaus

Topic Index

1. Tibetan Plateau
2. South America — Minerals Storehouse
3. Plateau Pe Basi Cities
4. 'Roof of the World'
5. Largest Plateau (Given Options)
6. Ocean-Floor Plateaus/Ridges — Matching

Tibetan Plateau

- **Tibetan Plateau (Qinghai-Tibetan Plateau)** ki average elevation ~**5 km (4,500m+)** hai; total area ~2.5 million sq km — world ka largest AND highest major plateau. *[Q1, Q5]*

South America — Minerals Storehouse

- South America ka 'storehouse of minerals' (exam-conventional answer): **Patagonia Plateau** (petroleum, natural gas, coal, metallic minerals) — Brazilian Highlands bhi rich hain (iron ore, manganese) lekin yeh conventional PYQ answer nahi hai. *[Q2]*

Plateau Pe Basi Cities

- **Madrid (Spain) Meseta Plateau** (Iberian Peninsula, ~610-760m) pe basa hai — Bucharest (55.8m), Jamnagar (20m), Singapore (15m) sab low elevation pe hain. *[Q3]*

'Roof of the World'

- **Pamir Plateau** ko 'Roof of the World' kehte hain (extreme high altitude ki wajah se) — Central Asia ki southern boundary yahin se determine hoti hai, multiple mountain ranges yahan converge karti hain. *[Q4]*

Largest Plateau (Given Options)

- Given options (Coconino, Aquarius, Colorado, Columbia) mein sabse bada: **Colorado Plateau** (~130,000+ sq miles). *[Q5]*

Ocean-Floor Plateaus/Ridges — Matching

- **Telegraphic/Telegraph Plateau** = **North Atlantic Ridge** ka part hai (Newfoundland aur Ireland ke beech) — Indian Ocean se NAHI associated. [Q6, Q7]
- Correct pairs: Cocoa Ridge–Pacific Ocean, Walvis Ridge–Atlantic Ocean, Agulhas Basin–Indian Ocean. [Q7]

**EXAM TRAP**

- 'Telegraph Plateau — Indian Ocean' GALAT pairing hai — Telegraph Plateau actually **North Atlantic** mein hai. [Q7]
