Chapter 25_The_Oceanic_Trenches

Topic Index

1. Trenches — Ocean Location Matching
2. World ka Deepest Point aur Deepest Trench
3. Diamantina Trench
4. Oceans — Deepest Point Matching (Multiple Sets)
5. Sunda Trench — Location

Trenches — Ocean Location Matching

- Indian Ocean: Sunda/Java Trench, Diamantina Trench. North Pacific: Mariana, Kuril, Aleutian, Japan Trenches. South Pacific: Tonga, Kermadec, Atacama Trenches. North Atlantic: Puerto Rico Trench. South Atlantic: South Sandwich Trench. [Q1]

World ka Deepest Point aur Deepest Trench

- **Challenger Deep** = world ocean ka deepest known point — **Mariana Trench** (western Pacific) ke andar hai. 'Mariana Trench' = trench ka naam, 'Challenger Deep' = usi trench ka deepest point. [Q2, Q3]

EXAM TRAP

- Mariana Trench = poori khai ka naam; Challenger Deep = usi khai ke andar sabse gehra point — dono ko same mat samjho. [Q2, Q3]

Diamantina Trench

- **Diamantina Trench** = **Indian Ocean** mein hai (Perth Basin se ~1,125km SW) — 'Diamantina Fracture Zone' bhi kehte hain. [Q4]

Oceans — Deepest Point Matching (Multiple Sets)

- Pacific-Mariana Trench, Atlantic-Puerto Rico Trench, Indian-Java(Sunda) Trench, Arctic-Molloy Deep (Arctic ka deepest depression/point). [Q5, Q7]

Sunda Trench — Location

- **Sunda Trench** (Eastern Indian Ocean, ~2,000 miles/3,200km ka arc) — **dono Sumatra AUR Java** islands ke parallel hai (~190 miles/305km off dono ke SW coasts se) — isliye single-answer options galat, 'None of the above/More than one' (E) hi correct hai. [Q6]

EXAM TRAP

- Sunda Trench sirf Java ya sirf Sumatra ke parallel NAHI hai — **dono** ke parallel hai, isliye single-option answer galat hoga. [Q6]
