Chapter 42_The_Local_Winds

Topic Index

1. Local Winds — Region Matching (Multi-set)
2. Local Winds — Wrong Country Pairings
3. Blood Rain
4. Chinook Winds — 'Snow Eater'
5. Harmattan — Sahara Desert

Local Winds — Region Matching (Multi-set)

- Foehn-Alps, Simoom-Kurdistan (Arabia+Kurdistan deserts), Santa Ana-California, Zonda-Argentina (Andes eastern slope). [Q1]
- **Foehn** = **Switzerland** ki local wind hai (Alps ki northern slopes se warm+dry wind, Switzerland ka weather influence karti hai). [Q2]

Local Winds — Wrong Country Pairings

- Correct: Foehn-Alps, Khamsin-Egypt — **GALAT**: Bora-Poland (actually Adriatic region, NE Italy), Mistral-Rhine Valley (actually Southern France, lower Rhône Valley/Provence). [Q3]
- Correct: Chinook-USA, Sirocco-Sicily, Norwesters-India — **Blizzard-Chile GALAT** hai (Blizzard South Pole/Siberia/Canada/USA mein hota hai, Chile mein NAHI). [Q4]
- Conventional PYQ mapping mein **Sirocco-France GALAT** maana gaya hai (Sirocco classically Italy/central Mediterranean se associated hai) — Bora Adriatic/NE Italy ko affect karta hai, Blizzard Canada mein common hai. [Q6]
- Correct: Santa Ana-California, Haboob-Sudan, Yamo-Japan — **Mistral-Australia GALAT** hai (Mistral actually France aur Spain se associated hai). [Q8]
- Correct: Leveche-Spain, Brickfielder-Australia, Black roller-North America — **Shamal-Austria GALAT** hai (Shamal actually Iraq/Iran/Arabian Peninsula mein hot/dry/dusty wind hai, June-Aug mein, ~45mph speed). [Q9]

EXAM TRAP

- Bora, Mistral, Blizzard, Sirocco, Mistral(again), Shamal — inme se har ek ka wrong-country pairing common exam trap hai. Correct: Bora-Adriatic/Italy, Mistral-France/Spain, Blizzard-Canada/USA/Siberia, Sirocco-Italy, Shamal-Iraq/Iran/Arabia. [Q3, Q4, Q6, Q8, Q9]

Blood Rain

- Sirocco (Sahara Desert se Mediterranean tak, warm/dry/dusty wind, red sand carry karti hai) kabhi kabhi **Italy** mein rain cause karti hai — jab red sand raindrops ke saath girti hai to use '**Blood Rain**' kehte hain. [Q5]

| Chinook Winds — 'Snow Eater'

- **Chinook** (meaning 'Snow Eater') = Rocky Mountains ki eastern slopes se descend hoti warm+dry wind (Colorado south se British Columbia south, Canada) — **winter temperature badhata hai**, snow melt karti hai, winter mein bhi green grass ugti hai — cattle rearers ke liye beneficial hai. [Q7]

| Harmattan — Sahara Desert

- Sahara Desert mein NE se E-to-W dry winds **Harmattan** kehlati hain — cool+dry winds, invigorating dryness ki wajah se 'Doctor Wind' bhi kehte hain. [Q10]
