

B The Minerals — FULL MIND MAP

Topic-wise · Fully Explained · Hinglish · SSC / BPSC / BSSC / Railway

Chapter 48_B_The_Minerals

Topic Index

1. Coal — Sedimentary Rock aur Fossil Fuel
2. Coal — China Leading Producer, Regional Facts
3. Coal Fields — Country Matching
4. Hard Coal Reserve — China (Historical 1995 Context)
5. Ukraine — Largest Coal Centre Donets/Donbas Basin
6. World Coal Production — China+USA Combined
7. Ruhr Basin — Germany's Industrial Region
8. Coal Reserves — China Largest (Given Options)
9. Rukwa Lake Region (Tanzania) — Gemstones
10. Lorraine — France ka Coalfield (Germany ka NAHI)
11. Kuzbass Region (Russia) — Coal Production
12. Earth's Womb — 2nd Most Common Metal
13. Iron Ore Producers — Descending Order (2008 Context)
14. Gold Production 2023 — China Leading
15. Iron Ore — Largest Producer (Question Period: China, Currently: Australia)
16. Marquette Range (USA) — Iron Ore
17. Iron Ore — India (Given Options)
18. Pig Iron Production Europe — France 4th
19. Iron Ore Region — Country Matching
20. Ghana+Brazil Gold — Continental Drift Connection
21. Iron-Ore Producing Areas — Country Matching
22. Lorraine Region (France) — Iron Ore
23. Lake Superior Region — Iron Ore Reserves
24. 'Rust Bowl'/'Rust Belt' — USA ka NE Iron Region
25. Great Lakes Region — USA+Canada Shared
26. Iron Ore — Top 3 Producers (China, Brazil, Australia)
27. Mount Newman (Australia) — Iron Ore
28. Minas Gerais (Brazil) — Iron Ore + Other Minerals
29. Copper Ore — Chile Largest Producer (2023)
30. Chile — Copper aur Porphyry Deposits
31. Zambia — Copper Reserves lekin Landlocked Problem
32. Japan — Copper mein Self-Sufficient
33. Africa — Largest Copper Producer (Zambia Historical, DR Congo Current)
34. Chiquicamata (Chile) — Copper
35. Gold Production 2023 — China Highest (kg)
36. Kalgoorlie aur Coolgardie (Australia) — Gold Mines
37. Johannesburg — Gold+Diamond Mining
38. India ko Gold Export — Switzerland Largest (2025)
39. Asia's Biggest Gold Market — China (Shanghai Gold Exchange)

40. Silver — Mexico Largest Producer (2023)
41. German Silver — Actually Copper Alloy (Silver NAHI)
42. Bauxite — Aluminium ka Ore (Iron ka NAHI)
43. Aluminium — China Largest Producer
44. Tin — Placer Deposits (~80% World Tin)
45. Tin — Leading Producer (Indonesia, Given Options)
46. Kinta Valley (Malaysia) — Tin Production
47. Petroleum Production — Ascending Order (1998 Context)
48. Alaska — Oil Producing State, 1867 Purchase
49. Petroleum — Top 3 Producers (Descending, Disputed)
50. Largest Petroleum Producer — Russia (Historical Exam Context)
51. Middle East Petroleum — Sequence Disputed (UAE Missing)
52. Petroleum Production — Statements (1998 Context)
53. Southeast Asia — Indonesia Largest Petroleum Producer
54. Venezuela — Petroleum-Dominated Economy
55. Mineral Oil Reserves — Venezuela Largest (2024)
56. Largest Petroleum Reserves — Saudi Arabia (2006 Historical)
57. West Asia — Saudi Arabia Highest Petroleum Producer
58. Gasohol — USA Largest Producer+Consumer
59. Brent Crude Oil — North Sea Classification
60. 'Peace Pipeline' — Iran-Pakistan Gas Pipeline
61. SUMED Pipeline — Red Sea se Mediterranean
62. Romania — 1857 Commercial Oil Drilling
63. Biofuel Feedstocks — Lentil Exception
64. Crude Oil to India (2017-18) — Iraq Highest Supplier
65. Ras Tanura Oil Refinery — Saudi Arabia
66. Kuwait — Kashagan Galat Pairing (Actually Kazakhstan)
67. Crude Oil — USA #1, Russia #2 (2023)
68. Pegu Yoma (Myanmar) — Mineral Oil
69. Uranium — Kazakhstan Largest Producer (2023)
70. Uranium — Largest Reserves Australia (2023)
71. Uranium City — Canada (Saskatchewan)
72. Radium — Pitchblende (Uranium Ore) se
73. Uranium Ore Deposits — Canada (Given Options)
74. Uranium — Kazakhstan (Confirmed Repeat)
75. Russia's Major Resources — Uranium Exception (Older Question)
76. Seabed Mining Licenses — UN's International Seabed Authority
77. Postmasburg (South Africa) — Manganese
78. Natural Camphor — Trees se (Rocks/Sediments se NAHI)
79. Non-Ferrous Metals — Aluminium, Copper, Zinc etc.
80. Mineral-Producing Region Matching (Multiple Sets)
81. Iron Ore/Petroleum/Copper/Uranium — Location Matching
82. Copper — Arizona (USA)
83. Kimberley/Witwatersrand/Katanga/Saar/Butte — Mineral Matching
84. Afghanistan — Lithium Discovery (\$1 Trillion)
85. Titanium — China Leading Producer (Cited Exam)
86. Bauxite — Australia (Historical), Guinea (Current)

- 87. Chile — Nitrate Fame
- 88. Nitrate — Chile (Peru NAHI)
- 89. Rare Earth Metals — China Export Restrictions
- 90. Diamond — Russia Largest Producer (2023)
- 91. Botswana-Diamond, Chile-Lithium, Indonesia-Nickel
- 92. Commercial Energy Sources
- 93. Iodine — Chile Leading Producer
- 94. Silver/Mica/Iron Ore/Copper — Country Matching
- 95. Mineral-Ore Matching — Cinnabar (Mercury)
- 96. Africa — Zambia Highest Copper (Historical), DR Congo Current
- 97. Cobalt — DR Congo ~3/4th World Production

Coal — Sedimentary Rock aur Fossil Fuel

- Coal = **Sedimentary rock** ka example hai (organic sedimentary rock, plant material se accumulated+buried+compacted, layered sequences mein milta hai — slate/marble metamorphic hain, sedimentary nahi). [Q1]
- Coal, Crude Oil, Natural Gas = **Fossil Fuels** kehlate hain (millions years mein dead organisms se bane). [Q2]

Coal — China Leading Producer, Regional Facts

- China world ka leading coal producer hai (Statement I TRUE) — Donetsk Basin (Ukraine) major coal-producing region hai (Statement II TRUE) — Saar Region (Germany) important coal deposits rakhta hai (Statement III TRUE) — Appalachian region USA ke major coal-mining areas mein se ek hai. [Q3]
- 'Donbass' region **coal production** ke liye famous hai — Donetsk Basin ka doosra naam hai, Ukraine mein hai. [Q4]

Coal Fields — Country Matching

- Donetsk-Ukraine, Kuznetsk-Russia, Lancashire-U.K., Saar-Germany. [Q5]
- Appalachian-USA, Lancashire-England(UK), Ruhr-Germany, Kuzbass-Russia. [Q6]

Hard Coal Reserve — China (Historical 1995 Context)

- 1995 PYQ ke according Hard Coal reserve mein leading country **China** thi — modern datasets mein USA China se aage hai (rankings time ke saath change hote hain). [Q7]

Ukraine — Largest Coal Centre Donets/Donbas Basin

- Ukraine ka largest coal-producing centre **Donets Basin (Donbas region)** hai — other regions: Lviv-Volhynian basin, Dnieper brown coal basin. [Q8]

World Coal Production — China+USA Combined

- Historical exam-data ke according world ke coal production ka >50% **China aur USA** combined se aata tha. [Q9]

Ruhr Basin — Germany's Industrial Region

- **Ruhr Basin** (Ruhr river ke around, Western Germany) = famous industrial region — important coal mines+industrial areas yahan hain. [Q10]
- **Ruhr coalfield** (Rhine ke west, Lippe ke north) **Germany** mein hai — Germany ka bulk bituminous coal yahin se aata hai, steel production+diversified chemicals bhi basic industries hain. [Q11]

Coal Reserves — China Largest (Given Options)

- Given options mein **China** largest coal reservoir+producer hai — top 3 global coal reserves: USA, Russia, China. [Q12]
- World Mineral Production 2019-23 ke according 2023 mein **China** coal production mein #1 rank pe hai. [Q13]

Rukwa Lake Region (Tanzania) — Gemstones

- Rukwa lake region (Tanzania) **gemstones (Emerald, Moonstone, Aquamarine, Amethyst, Ruby, Topaz)** ke liye famous hai — kuch coal layers bhi milte hain, mining bhi hui hai. [Q14]

Lorraine — France ka Coalfield (Germany ka NAHI)

- Ruhr Valley, Saar Basin, Achen Basin — sab Germany ke coalfields hain — **Lorraine actually NE France ka cultural+historical region hai**, Germany ka coalfield NAHI. [Q15]

⚠ EXAM TRAP

- Lorraine **France** mein hai, Germany ka coalfield NAHI. [Q15]

Kuzbass Region (Russia) — Coal Production

- Kuzbass region mainly **coal production** ke liye famous hai (Statement 1: coal+iron ore rich, TRUE) — ~1200 types industrial products (coal, coke, rolled steel, cast-iron, aluminium, zinc, ferroalloys) export karta hai — Kemerovo region West Siberia ke SE mein hai. [Q16]

Earth's Womb — 2nd Most Common Metal

- Earth ke womb (core) mein sabse common metal **Iron** hai, phir Nickel, phir Aluminium (Earth's crust mein order alag hai: Aluminium #1, Iron #2) — is question ka context Earth's womb hai, isliye **Nickel 2nd most common**, answer **Aluminium** (given options context ke according). [Q17]

Iron Ore Producers — Descending Order (2008 Context)

- 2008 exam-context ke according descending order: **China, Brazil, Australia, Sweden** — later data mein Australia+Brazil top pe aa gaye hain (order significantly different). [Q18]

| Gold Production 2023 — China Leading

- 2023 mein world ka largest gold producer (mine production) **China** tha — Russia aur Australia bhi leading producers mein the (2024 mein bhi China #1 raha, US Mineral Commodity Summaries 2025 ke according). [Q19]

| Iron Ore — Largest Producer (Question Period: China, Currently: Australia)

- Question period ke according **China** largest iron ore producer tha — currently (2023) **Australia** largest producer hai. [Q20]

| Marquette Range (USA) — Iron Ore

- 'Marquette Range' (Michigan, USA — Marquette County ke around) **Iron Ore** ke liye famous hai. [Q21]

| Iron Ore — India (Given Options)

- World Mineral Production 2019-23 ke according largest iron ore producers: Australia, Brazil, India, China (respectively) — given options mein **India** 1st position pe hai (baaki 3 options mein nahi the). [Q22]

| Pig Iron Production Europe — France 4th

- Exam-period ranking ke according Europe ke pig-iron producers mein **France 4th position** pe tha. [Q23]

| Iron Ore Region — Country Matching

- Lorraine-France, Midland-U.K., Kiruna-Sweden, Kostanay-Kazakhstan. [Q24]

| Ghana+Brazil Gold — Continental Drift Connection

- Ghana coast pe rich placer gold deposits hain, Brazil mein gold-bearing veins hain (A **TRUE**) — dono continents kabhi Atlantic coast ke along joined the (R **TRUE**, sahi explanation — continental drift theory ke according). [Q25]

| Iron-Ore Producing Areas — Country Matching

- Kazakhstan-Karaganda, Ukraine-Krivoy Rog, France-Normandy, France-Pyrenees (dono French regions) — given options mein jo galat pairing hai wahi answer hai. [Q26]

Lorraine Region (France) — Iron Ore

- Lorraine Region (France) famous hai — iron-ore associations: Kazakhstan-Karaganda, Ukraine-Krivoy Rog, France-Normandy+Pyrenees. [Q27]

Lake Superior Region — Iron Ore Reserves

- Lake Superior region (North America) **Iron ore reserves** ke liye famous hai. [Q28]

'Rust Bowl'/'Rust Belt' — USA ka NE Iron Region

- 'Rust Bowl'/'Rust Belt' = USA ka **Northeastern region** hai — iron producing economic region hai, Illinois/Indiana/Michigan/Ohio/Pennsylvania shamil, Great Lakes+Pittsburgh region bhi shamil. [Q29]

Great Lakes Region — USA+Canada Shared

- Great Lakes region **Canada aur USA** dono ke beech shared hai — US 8 states (Illinois, Indiana, Michigan, Minnesota, New York, Ohio, Pennsylvania, Wisconsin), Canadian province Ontario. [Q30]

Iron Ore — Top 3 Producers (China, Brazil, Australia)

- Cited exam ke according top 3 iron ore producers: **China, Brazil, Australia**. [Q31]

Mount Newman (Australia) — Iron Ore

- **Mount Newman Mining** (Australia) **iron ore** extraction ke liye famous hai. [Q32]

Minas Gerais (Brazil) — Iron Ore + Other Minerals

- Minas Gerais (SE Brazil) **high-quality iron ore** ke liye famous hai — manganese, tin, silver, zinc bhi mine hote hain, valuable+semi-precious stones bhi milte hain. [Q33]

Copper Ore — Chile Largest Producer (2023)

- World Mineral Production 2019-23 ke according 2023 mein **Chile** largest copper-ore producer tha — DR Congo 2nd, Peru 3rd. [Q34]
- Given options mein leading copper producer **China** hai. [Q35]

Chile — Copper aur Porphyry Deposits

- Chile prominent copper producer hai (A **TRUE**) — Chile ke paas world ke largest porphyry copper deposits hain (R **TRUE**, sahi explanation) — 2023 mein Chile ~5.37 million tonnes copper produce kiya, Central Andes mein major porphyry-copper deposits hain. [Q36, Q37]

Zambia — Copper Reserves lekin Landlocked Problem

- Zambia (landlocked, Southern Africa) mein prolific copper reserves hain (Zambia se Katanga/DR Congo tak copper belt) — economic progress **sea routes ki absence** ki wajah se limited hai (exports ke chances khatam ho jaate hain). *[Q38]*

Japan — Copper mein Self-Sufficient

- Japan **copper** mein almost self-sufficient hai (consume se zyada produce karta hai) — bauxite, iron ore, mineral oil mein self-reliant NAHI hai. *[Q39]*

Africa — Largest Copper Producer (Zambia Historical, DR Congo Current)

- Indian Bureau of Mines ke according historical period mein **Zambia** Africa ka largest copper producer tha — World Mineral Production 2019-23 (2023 data) ke according currently **DR Congo** largest hai. *[Q40]*

Chiquicamata (Chile) — Copper

- **Chiquicamata (Chile)** worldwide **copper** mineral ke liye famous hai. *[Q41]*

Gold Production 2023 — China Highest (kg)

- World Mineral Production 2019-23 ke according 2023 gold production (kg): **China 375,155 (highest)**, Australia 306,320, Russia 302,000, Canada 296,053. *[Q42]*
- 2008 historical context ke according gold production descending order: (**dataset mein China involved thi, exact PYQ order retained**) — rankings changed hain since then (Russia, Australia, Canada, USA bhi prominent hain currently). *[Q43]*

Kalgoorlie aur Coolgardie (Australia) — Gold Mines

- Mineral Commodity Summaries 2026 ke according world ki maximum gold reserves **Australia** mein hain — **Kalgoorlie aur Coolgardie** important gold mines hain, **Western Australia** province mein hain. *[Q44, Q45, Q46]*

Johannesburg — Gold+Diamond Mining

- **Johannesburg** (South Africa ka largest city, Gauteng Province ki capital) **gold+diamond mining** ke liye famous hai. *[Q47]*

India ko Gold Export — Switzerland Largest (2025)

- 2025 projections ke according **Switzerland** India ko gold ka largest exporter hoga. *[Q48]*

Asia's Biggest Gold Market — China (Shanghai Gold Exchange)

- Older exam ke according Asia's biggest gold market **China** (option mein Beijing likha tha) — actually Shanghai Gold Exchange major gold-trading market hai. [Q49]

Silver — Mexico Largest Producer (2023)

- World Mineral Production 2019-23 (2023, kg metal content): **Mexico 7,277,840 (largest)**, China 3,399,600, Peru 3,040,137, Russia 1,536,000, Poland 1,532,000. [Q50]
- 2023 data ke according **Mexico** world ka largest silver producer hai. [Q51]

German Silver — Actually Copper Alloy (Silver NAHI)

- 'German Silver' (Nickel Silver/Maillechort/Alpacca) mein **silver NAHI** hota — actually **copper alloy with nickel+zinc** hai (usual: 60% copper, 20% nickel, 20% zinc; NCERT: Cu 25-30%, Zn 25-30%, Ni 4-50%). [Q52]

EXAM TRAP

- 'German Silver' naam ke bawajood isme **silver bilkul NAHI** hota — yeh copper-nickel-zinc alloy hai. [Q52]

Bauxite — Aluminium ka Ore (Iron ka NAHI)

- Haematite, Magnetite, Limonite = **Iron ores** hain — **Bauxite Aluminium ka ore** hai (yeh different hai baaki teeno se). [Q53, Q54]

Aluminium — China Largest Producer

- World ka maximum/largest aluminium producer **China** hai. [Q55, Q56]

Tin — Placer Deposits (~80% World Tin)

- World ka ~80% Tin **placer deposits** mein milta hai (heavy minerals ka natural concentration, gravity effect se) — riverbeds/valleys/sea floor ke near, SE Asia mein spread. [Q57]

Tin — Leading Producer (Indonesia, Given Options)

- World Mineral Production 2019-23 (2023) ke according major tin producers: China, Indonesia, Myanmar, Peru, Brazil — given options mein (China absent) **Indonesia** correct answer hai. [Q58]

Kinta Valley (Malaysia) — Tin Production

- Malaysia ka 'Kinta Valley' **Tin** production ke liye famous hai. [Q59]

Petroleum Production — Ascending Order (1998 Context)

- 1998 exam-accepted ascending order: **Iran, Iraq, Russia, U.S.A., Saudi Arabia**. [Q60]

Alaska — Oil Producing State, 1867 Purchase

- Alaska = **USA ka oil producing state** hai (Statement 1 TRUE) — **1867 mein Russia se purchase** kiya gaya tha (Statement 2 TRUE). [Q61]

Petroleum — Top 3 Producers (Descending, Disputed)

- Recent World Mineral Production data ke according top 3 descending order: **USA, Russia, Saudi Arabia** — given 4 options mein se koi bhi is exact sequence se match nahi karta, isliye question disputed (*) hai. [Q62]

Largest Petroleum Producer — Russia (Historical Exam Context)

- Exam-period data ke according world ka largest petroleum producer **Russia** tha (current rankings different hain, ab USA #1 hai). [Q63]

Middle East Petroleum — Sequence Disputed (UAE Missing)

- Recent data ke according Middle East descending order: **Saudi Arabia, Iran, Iraq, UAE** — UAE (Kuwait NAHI) 4th position pe hai jo given options mein absent hai, isliye koi option exact match nahi karta — question disputed (*) hai. [Q64]

Petroleum Production — Statements (1998 Context)

- 1998 exam ke according teeno statements TRUE maane gaye: **60% world petroleum deposits Middle East mein, Alaska reserve Texas ke barabar certified, USA prominent producer** (historical context). [Q65]

Southeast Asia — Indonesia Largest Petroleum Producer

- World Mineral Production 2019-23 (2023) ke according SE Asia ka largest petroleum producer **Indonesia** hai — Sumatra, Java, Kalimantan important producing regions hain. [Q66]

Venezuela — Petroleum-Dominated Economy

- Venezuela leading petroleum producing countries mein se ek hai — economy petroleum sector se dominated hai, **2025 mein oil exports >80% total export revenue** generate karti hain. [Q67]

Mineral Oil Reserves — Venezuela Largest (2024)

- World Population Review 2024 ke according largest proved crude oil deposits: **Venezuela (303.2 Billion Barrels, largest)**, Saudi Arabia (267.2 Billion Barrels, 2nd). [Q68,Q69]

Largest Petroleum Reserves — Saudi Arabia (2006 Historical)

- 2006 PYQ ke according **Saudi Arabia** largest reserves rakhta tha — baad ke estimates mein **Venezuela** aage nikal gaya (reserve rankings time-sensitive hoti hain). [Q70]
- 2024 data ke according top 3 largest crude oil reserves: **Venezuela, Saudi Arabia, Iran**. [Q71]

West Asia — Saudi Arabia Highest Petroleum Producer

- World Mineral Production 2019-23 (2023) ke according West Asia ka highest petroleum producer **Saudi Arabia** hai — world mein 3rd largest (USA aur Russia ke baad). [Q72]

Gasohol — USA Largest Producer+Consumer

- Gasohol = unleaded gasoline(90%) + ethanol(10%) ka mixture hai — currently (2024) **USA** top producer+consumer hai. [Q73]

Brent Crude Oil — North Sea Classification

- Brent Crude = **major crude oil classification** hai (global oil-price benchmark, Statement 1 TRUE) — **North Sea se sourced** hai (Brent, Forties, Oseberg, Ekofisk grades, Statement 2 TRUE) — **sulphur-free NAHI** hai (comparatively low sulphur content, sulphur bilkul absent nahi, Statement 3 galat). [Q74]

⚠ EXAM TRAP

- Brent Crude **sulphur-free NAHI** hai — comparatively low sulphur content hoti hai, bilkul zero nahi. [Q74]

'Peace Pipeline' — Iran-Pakistan Gas Pipeline

- 2009 ki 'Peace Pipeline' deal **Iran-Pakistan gas pipeline** (IP gas pipeline) ko refer karti hai. [Q75]

SUMED Pipeline — Red Sea se Mediterranean

- Suez Canal+SUMED pipeline Persian Gulf crude oil+LNG shipments ke liye Europe tak strategic chokepoints hain (Statement I TRUE) — **SUMED pipeline** Ain Sokhna terminal (Gulf of Suez, Red Sea) se Sidi Kerir port (Mediterranean) tak jaati hai (Statement II TRUE). [Q76]

Romania — 1857 Commercial Oil Drilling

- Romania mein 1857 mein mineral oil **commercially drilled** hui thi (275 tonnes production officially registered, international statistics ke according) — world ki pehli commercial oil well. [Q77]

Biofuel Feedstocks — Lentil Exception

- Sugar beet aur wheat biofuel/bioethanol feedstock ke roop mein use hote hain — **Lentil standard commercial biofuel feedstock NAHI** hai (given option group mein anupयुक्त hai). [Q78]

Crude Oil to India (2017-18) — Iraq Highest Supplier

- 2017-18 mein India ko crude oil ka highest supplier **Iraq** tha (Saudi Arabia earlier periods mein leading supplier tha, ab Russia largest supplier ban gaya hai — question specifically 2017-18 pooch raha hai). [Q79]

Ras Tanura Oil Refinery — Saudi Arabia

- **Ras Tanura** (Persian Gulf coast ki sabse purani refineries mein se ek, Jubail industrial port city ke near) **Saudi Arabia** mein hai — 1945 mein start hui thi. [Q80]

Kuwait — Kashagan Galat Pairing (Actually Kazakhstan)

- Kashagan actually **Kazakhstan** ka major oil+gas field hai — '**Kuwait-Kashagan**' pairing **GALAT** hai, baaki country-oilfield pairs correctly matched hain. [Q81]

⚠ EXAM TRAP

- Kashagan oil field **Kazakhstan** mein hai, Kuwait mein NAHI. [Q81]

Crude Oil — USA #1, Russia #2 (2023)

- World Mineral Production 2019-23 (2023) ke according **USA** largest crude oil producer tha, **Russia** doosre number pe (USA ke alawa largest producer). [Q82]

Pegu Yoma (Myanmar) — Mineral Oil

- Pegu Range/Yoma (Irrawaddy+Sittaung rivers ke beech low mountains, Myanmar) mein **Mineral Oil** important mineral hai — oil, natural gas, coal Myanmar ke natural resources mein prominent hain. [Q83]

Uranium — Kazakhstan Largest Producer (2023)

- World Minerals Production 2019-23 (2023) ke according Uranium ka largest producer **Kazakhstan** hai — Canada 2nd, Namibia 3rd (2009 se pehle Canada leading producer tha). [Q84, Q85]
- Given options mein Atomic Minerals ka biggest producer **Kazakhstan** hai (Canada NAHI). [Q86]

Uranium — Largest Reserves Australia (2023)

- Australia ke Uranium reserves world ke largest hain (2023) — **Olympic Dam Mine** (South Australia) mein located. [Q87]

Uranium City — Canada (Saskatchewan)

- 'Uranium City' (Saskatchewan, Canada) establish karne ka credit **Canada** ko jaata hai — Lake Athabasca ke north shore ke near located hai. [Q88]

Radium — Pitchblende (Uranium Ore) se

- **Radium** (radioactive element, symbol Ra) **Uranium ore Pitchblende** se extract hota hai. [Q89]

Uranium Ore Deposits — Canada (Given Options)

- Given options mein important uranium ore deposits ke liye known desh **Canada** hai — currently (2023) **Australia** biggest reserve rakhta hai. [Q90]

Uranium — Kazakhstan (Confirmed Repeat)

- World Mineral Production 2019-23 (2023) ke according world ka largest uranium producer **Kazakhstan** hai. [Q91]

Russia's Major Resources — Uranium Exception (Older Question)

- Russia ke major resources: iron ore, manganese, chromium, nickel, platinum, titanium, copper, tin, lead, tungsten, diamonds, phosphates, gold — older exam ke according **Uranium** major resources list mein NAHI tha (though Russia uranium bhi produce karta hai — yeh classification purani exam-specific hai). [Q92]

Seabed Mining Licenses — UN's International Seabed Authority

- International waters mein seabed exploration+mining licenses **UN's International Seabed Authority** grant karta hai (Global Ocean Commission NAHI) — 2014 mein India, Brazil, Singapore jaise countries ki public+private companies ko license diye gaye — Rare earth minerals seabed pe present hain. [Q93]

Postmasburg (South Africa) — Manganese

- Postmasburg aur adjacent areas (South Africa) **Manganese** ka major producer hai. [Q94]

Natural Camphor — Trees se (Rocks/Sediments se NAHI)

- Natural camphor **camphor-bearing trees** se obtain hoti hai (rocks/waterfall foam/marine sediments se NAHI) — **Cinnamomum camphora** (E.Asia, China+Japan native) traditional source hai, kuch Blumea species bhi botanical source hain. [Q95]

Non-Ferrous Metals — Aluminium, Copper, Zinc etc.

- Non-ferrous metals (negligible iron content): **Aluminium, Copper, Zinc, Tin, Titanium, Lead, Nickel** — Gold, Silver, Cobalt, Gallium, Beryllium, Cerium, Tungsten, Mercury, Platinum, Zirconium, Cadmium bhi is category mein aate hain. [Q96]

Mineral-Producing Region Matching (Multiple Sets)

- Coal-Karaganda Basin, Gold-Highveld, Iron Ore-Krivoi Rog, Mineral Oil-San Joaquin Valley. [Q97]
- Mineral Oil-Venezuela, Copper-Zambia, Manganese-Gabon, Bauxite-Guyana. [Q98]
- Correct: Donbas Basin-Coal, Mosul-Mineral oil, Transvaal-Gold — **Mesabi Range-Iron ore correctly matched hai** (given options mein galat kisi aur pair mein tha). [Q99]

Iron Ore/Petroleum/Copper/Uranium — Location Matching

- Iron ore-Mesabi, Petroleum-Baku, Copper-Bingham, Uranium-Port Radium. [Q100]
- Port Radium (Great Bear Lake, Canada ka east shore) = **Uranium** reserves ke liye world-famous — Bingham Canyon Mine (Salt Lake City, Utah, USA) **Copper** production ke liye famous. [Q100]
- Baku (Azerbaijan ki capital+largest city) **Petroleum** ke liye famous hai. [Q101]
- 'Mesabi Range' international level pe **Iron Ore** production ke liye jaana jaata hai. [Q102]

Copper — Arizona (USA)

- Correctly matched pair: **Copper-Arizona (USA)** — baaki given options galat matched the. [Q103]

Kimberley/Witwatersrand/Katanga/Saar/Butte — Mineral Matching

- Kimberley-Diamond, Witwatersrand-Gold, Katanga-Copper, Saar-Coal, Butte-Silver. [Q104, Q105]

Afghanistan — Lithium Discovery (\$1 Trillion)

- Afghanistan mein \$1 trillion worth mineral reserves discovery **Lithium** ki thi — isse Iran ke oil field discovery se compare kiya gaya. [Q106]

Titanium — China Leading Producer (Cited Exam)

- Cited exam ke according Titanium ka leading producer **China** tha (Japan NAHI). [Q107]

Bauxite — Australia (Historical), Guinea (Current)

- Cited exam data ke according bauxite ka biggest producer **Australia** tha. [Q108]
- Current USGS data ke according **Guinea** world ka leading bauxite producer hai (~1/3rd global output) — Australia doosre number pe hai. [Q109]

Chile — Nitrate Fame

- Chile ko **Nitrate** mineral se fame mili hai — Atacama Desert (N.Chile+S.Peru) mein nitrate ka largest source hai. *[Q110]*

Nitrate — Chile (Peru NAHI)

- Bolivia-Tin, Brazil-Iron ore, Mexico-Silver correct hain — **Nitrate historically Chile se associated hai, Peru se NAHI** (galat pairing given options mein). *[Q111,Q112]*

Rare Earth Metals — China Export Restrictions

- Rare earth elements (17 chemically related elements, electronics+magnets+clean-energy+defence mein use) ki short supply ka reason: **China (largest producer) ne export restrictions** imposed ki hain (Statement 1 TRUE) — Australia jaise doosre countries economically viable production abhi NAHI kar paate (Statement 2 galat). *[Q113]*

Diamond — Russia Largest Producer (2023)

- World Mineral Production 2019-23 (2023, carats): **Russia 37,316,754 (largest)**, Botswana 25,095,000, Canada 16,160,688, Angola 9,754,310, DR Congo 8,306,000. *[Q114]*

Botswana-Diamond, Chile-Lithium, Indonesia-Nickel

- Botswana diamond-rich hai (production+economy contribution) — Chile global lithium reserves mein leader hai — Indonesia nickel reserves+production mein world ka largest stakeholder hai. *[Q115]*

Commercial Energy Sources

- Commercial sources of energy: **Power, Coal, Oil, Gas, Hydro-electricity, Uranium**. *[Q116]*

Iodine — Chile Leading Producer

- World Mineral Production 2019-23 (2023) ke according world ka leading iodine producer **Chile** hai — iodine caliche ore, brines, seaweed se extract hota hai. *[Q117]*

Silver/Mica/Iron Ore/Copper — Country Matching

- Silver-Mexico, Mica-India, Iron Ore-Russian Federation, Copper-Chile. *[Q118]*

Mineral-Ore Matching — Cinnabar (Mercury)

- Aluminium-Bauxite, Copper-Cuprite, Zinc-Calamine, Iron-Haematite correct hain — **Cinnabar actually Mercury ka most common source ore hai** (given options mein galat pairing thi). *[Q119]*

| Africa — Zambia Highest Copper (Historical), DR Congo Current

- Exam-period data ke according Africa ka leading copper producer **Zambia** tha — currently DR Congo aage hai. *[Q120]*

| Cobalt — DR Congo ~3/4th World Production

- Cobalt (electric vehicle batteries ke liye zaroori metal) ka world production ka ~3/4th **DR Congo** se aata hai (USGS ke according) — lithium-ion battery chemistries + electronics mein important input hai. *[Q121]*
