

POST-MAURYAN PERIOD — FULL MIND MAP

Topic-wise · Fully Explained · Hinglish · SSC / BPSC / BSSC / Railway

Topics in this chapter:

1. Indo-Greek Rulers — Coins & Contemporaries
2. Saka-Kshatrapas — Rudradaman & Coinage
3. Foreign Dynasties in Ancient India — Overview & Chronology
4. Kushan Dynasty — Coinage
5. Kushan Rulers & Titles
6. Kushan Era — Kanishka's Coronation & Calendar Systems
7. Kanishka's Court — Scholars & Contemporaries
8. Kushan Inscriptions & Foreign Relations
9. Centres of Learning — Taxila
10. Shunga Dynasty
11. The Gandhara School of Art
12. Kushan-Era Society
13. The Satavahana Dynasty — Origin, Capital & Rulers
14. Deccan Dynasties — Vakataka, Chalukya & Ikshvaku
15. Dynasty-Capital Match List
16. King Kharavela of Kalinga
17. Ancient Trade & Contemporary World Rulers

1. Indo-Greek Rulers — Coins & Contemporaries

- Indo-Greek ruler Strato-II (25 BC – 10 AD) ne lead coins issue kiye the. [Q1]
- Greco-Bactrian king Agathocles (~190-180 BC, Bactria aur India ke beech Paropamisadae satrapy ke owner) ne apne coins par Sankarshana (Balram) AUR Vasudeva dono ko depict kiya tha — wo bilingual (Greek + Brahmi) legends coins par likhne wale pehle Greco-Bactrian ruler bhi the. [Q2]
- Bimbisara (Haryanka dynasty), King Prasenjit (Koshala) aur Mahatma Buddha — teeno ek doosre ke contemporary the. Lekin Milinda (jinhe Menander bhi kehte hain, ek Indo-Greek ruler, 2nd century BC) inn teeno ka samkalin NAHI tha. [Q3]
- Famous Indo-Greek King Menander ke 16 coins Bairat (ancient Viratnagar, Rajasthan) site se mile hain. [Q41]

2. Saka-Kshatrapas — Rudradaman & Coinage

- Junagadh (Kathiawar, Gujarat) ke Rudradaman ke inscription (130-150 AD) mein Sanskrit 'Kavya' style ka sabse purana example milta hai — ye perfect Sanskrit mein likha gaya pehla ever inscription tha, Brahmi script mein. [Q4]
- Junagadh inscription (~150 AD, Sanskrit mein) Rudradaman-I ki achievements bataata hai — unhone cultural arts aur Sanskrit literature ko support kiya, aur Mauryan-era Sudarshan lake ke dam ko reconstruct karwaya. [Q5]
- Rudradaman-I ne apne khud ke khazane (treasury) se, bina forced labour use kiye, Sudarshan Lake ko renovate karwaya tha — jo originally Chandragupta Maurya ke time bana tha. [Q6, Q7]
- Karddamaka Kshatrapas ke coins do metals mein aate the: Silver coins (kaafi frequent the) aur Copper coins (bahut rare the) — ruler Chastana ne dono issue kiye the. [Q8]

- Saka-Kshatrapa period mein Gold aur Silver coins ka ratio 1:35 tha. [Q44]

3. Foreign Dynasties in Ancient India — Overview & Chronology

- Dynasty-Origin match: Demetrius → Indo-Greek; Rudradaman → Scythians (Sakas); Gondophernes → Parthian (Pahlavas); Vima (Kadphises) → Kushana. Similarly, Gandhara Art → Kushanas; Junagarh Rock Inscription → Rudradaman I; Milindapanho → Menander; Taxila Inscription → Patika. [Q9, Q46]
- Ancient India mein foreign invaders ka sahi chronological order: Greeks (Alexander se, 326 BC) → Sakas (Scythians, ~1st century BC) → Kushanas (1st century AD). [Q10, Q52]
- Persian ruler Darius-I (522-486 BC) India ke kuch hisso (North-Western regions) capture karne wale pehle ruler the — Herodotus ke mutabik unhone Indus river ke aas-paas, Rajputana desert aur Punjab ke hisso ko jeeta, jo Persian Empire ki 20th satrapy bani. [Q53]
- Kushana Dynasty ka empire India ke bahar (northern Turpan/Central Asia tak) bhi phaila tha. Mauryan empire bhi India ke bahar (modern Iran ke kuch hisse tak) phaila tha — ye 2 hi dynasties hain jinka empire India ke bahar bhi tha. [Q39]

4. Kushan Dynasty — Coinage

- North aur North-Western India mein sabse zyada copper coins Kushanas ne issue kiye the — Indo-Greek kings ne pehle gold coins shuru kiye the, lekin Kushana rulers ne gold aur copper dono coins ko regular aur popular banaya. [Q11]
- Ancient India mein sabse pehle gold coins large aur regular scale par Kushanas ne issue kiye the. [Q12]
- Kushan ruler Kanishka ke coins par Buddha ko depict kiya gaya hai — Kanishka Buddhism ke bade patron the, unke coins mein Hellenistic, Zoroastrian aur Indian deities ka mix milta hai. [Q13]
- Vima Kadphises (Kanishka-I ke pita) Kushan dynasty ke pehle ruler the jinhone gold coins issue kiye (halaki Indo-Greeks ne gold coins ko popular banaya tha) — unke predecessor Kujula Kadphises sirf copper coins circulate karte the. [Q14, Q15, Q16]
- Yaudheya copper coins par 6-mukh wale God Kartikeya ki khadi hui figure (mor ke saath) depict hoti hai — Yaudheya coins ke evidence Puranas aur Ashtadhyayi mein bhi milte hain. [Q18]

5. Kushan Rulers & Titles

- Vima Kadphises (jinhe Kadphises II bhi kehte hain, Kanishka-I ke pita) ne 'Sarvalokeshvara' (poori duniya ke swami) ki title apnayi thi — ye unki imperial mahatvakanksha dikhati hai. [Q17]

6. Kushan Era — Kanishka's Coronation & Calendar Systems

- Sarnath ki Buddhist image (Kanishka se related) 81 A.D. ki dated hai — ye Kanishka ke coronation (~78 A.D. maana jaata hai) ke 3 saal baad establish hui thi. [Q19]

- Kanishka ke coronation ki tareekh controversial thi — London mein 1913 aur 1960 mein 2 international conventions hui, aur 1960 ke convention mein common consent 78 A.D. par bana. Yehi Saka Samvat (Era) ki bhi shuruat maani jaati hai. [Q20]
- Jain texts ke mutabik, Vikramaditya (57 BC) ke successor ko Sakas ne 135 Vikram Samvat mein hara diya tha — is jeet ko celebrate karne ke liye Saka Samvat calendar shuru hua, jo 135-57 = 78 A.D. se start hota hai. Zyadatar historians Kanishka ko iska originator maante hain. [Q21]
- Vikrama Samvat 57 B.C. se shuru hua — Jain holy texts ke mutabik, Mahavira ke Nirvana (527 BC) aur Vikrama Samvat ke beech 470 saal ka antar hai (527-470=57 BC). [Q24]
- Saka aur Vikrama Samvat ke beech ka antar exactly 135 saal hai (57+78=135) — Gregorian year mein 57 jodkar Vikrama Samvat milta hai, aur 78 ghatakar Saka Samvat milta hai. [Q22]
- Indian national calendar (Saka Era par based) ka Chaitra month ka 1st din normal year mein 22nd March, aur leap year mein 21st March ko corresponds karta hai. [Q23]
- December 2009 mein Saka Samvat ka saal 1931 hoga (2009-78=1931). [Q25]

7. Kanishka's Court — Scholars & Contemporaries

- Ashvaghosa (Kanishka ke poet laureate, Saundaranand/Buddhacharita/Sariputraprakaran ke author) aur Vasumitra (jinhone 4th Buddhist Council ki lead ki) — dono Kanishka ke contemporary the. Kalidas Gupta period se the, aur Kamban Kanishka ke samkalin nahi the. [Q26, Q27]
- Kanishka ke darbar se associated scholars the: Parsva, Vasumitra, Ashvaghosa, Nagarjuna, Charaka aur Mathara. Lekin Patanjali (Mahabhasya ke author) Shunga period se the, Kanishka se NAHI juday the. [Q28]
- Kanishka-I ke darbar mein Ashvaghosa, Parshva aur Vasumitra the. Vishakhadatta (Mudrarakshasa ke author) baad mein, Gupta period mein hue — wo Kanishka ke darbar se juday NAHI the. [Q29]

8. Kushan Inscriptions & Foreign Relations

- Rabatak Inscription (1993 mein Afghanistan ke Rabatak, Surkh Kotal ke pass se mila, Greek script + Bactrian language mein, Kanishka se related) mein 4 cities ka naam hai: Saketa, Kaushambi, Pataliputra aur Sri Champa. Shravasti ka naam is inscription mein NAHI hai. [Q30]
- 73-94 AD ke beech, Kanishka ne Han princess se shaadi ka proposal bheja tha jo reject ho gaya — badle mein unhone Chinese general Pan Chao par attack kiya, lekin ek chhoti Chinese force se haar gaye. [Q38]

9. Centres of Learning — Taxila

- Taxila University alag-alag countries ke students ke liye ek milne-julne ki jagah thi. Ayurvedacharya Charak aur Ayurvedacharya Jivak (Bimbisara ke darbar ke) — dono ne Taxila mein padhai ki thi (Kautilya, Chandragupta Maurya, King Prasenjit, Vasubandhu bhi yahan padhe the). [Q31]

10. Shunga Dynasty

- Pushyamitra Shunga (last Mauryan ruler Brihadratha ke commander, jinhone 184 BCE mein Brihadratha ko maar kar Shunga dynasty banayi) ne 2 Ashwamedha Yajna kiye the — iski jaankari Ayodhya inscription se milti hai. [Q32]
- Shungas ke ancestors Ujjain se the. Is dynasty ke last ruler Devabhuti the, jinhe unke apne minister Vasudeva Kanva ne maara. [Q33]
- Shunga dynasty ke baad Kanva dynasty ne India par raj kiya — Kanva bhi Shunga jaise hi Brahmin the. [Q34]

11. The Gandhara School of Art

- Kanishka ke encouragement/protection ke saath, Gandhara School of Art, Kushan period mein khoob develop hui — ye Greek art se bahut influenced thi. [Q42, Q43]
- Gandhara art style, Indian aur Greek art ka synthesis (mel) hai — Greek, Syrian, Persian aur Indian artistic influences se develop hui. Ise Indo-Greek Art, Greco-Buddhist ya Greco-Roman bhi kaha jaata hai, kyunki iska subject mainly Buddha hota tha. Saka aur Kushan era mein flourish hui. [Q48, Q49, Q50]
- Gandhara sculptures banane mein 'green schist' (aur baad mein stucco) medium use hota tha — Hellenistic (Greek) artistic elements se heavily influenced thi. [Q51]
- Afghanistan ka Bamiyan, Buddha ki statues ke liye famous tha — ye statues Bamiyan ki pahadiyo ko kaatkar banayi gayi thi. Taliban ne 2001 mein inhe destroy kar diya. [Q47]

12. Kushan-Era Society

- Child marriage ki pratha Kushan period (1st century) mein shuru hui — women mein 'Upanayana' ceremony khatam ho gayi thi, aur 8-10 saal ki age mein hi shaadi hona best maana jaane laga tha — ye women ki social status ko sabse niche stage tak le gaya. [Q40]

13. The Satavahana Dynasty — Origin, Capital & Rulers

- Satavahana dynasty, Maurya ke baad South India ki sabse powerful dynasty thi — Puranas ke mutabik, Kanva king Susharma ki hatya ke baad Sindhuk/Simuka/Shiprak ne is dynasty ki sthapna ki. Diye gaye options mein Satavahana hi sabse purani dynasty maani jaati hai (Chalukya, Pallava, Rashtrakuta baad mein aayi). [Q36, Q37, Q54]
- 30 Andhra Satavahana rajaon ki sabse lambi list Matsya Purana mein milti hai. [Q55]
- Satavahanas ki actual capital Pratisthan (Paithan bhi kehte hain, aaj ke Maharashtra mein) thi — halaki unki initial capital Amravati (Dharanikota) mani jaati hai. [Q56, Q57]
- Gautamiputra Satakarni, Brahmanism ke patron the — unhone apni 'Four Varna' system ke logo ke beech inter-caste marriage allow nahi ki, isliye unhe 'Varna System ka protector' kaha jaata hai. Nashik inscription (unki maa Gautami Balashri ki) mein unhe 'Ekabrahmana' bhi kaha gaya hai. [Q35, Q58]

- Assertion-Reason: Satavahana period mein Sanskrit, Prakrit aur folk languages sab develop hui (sahi), kyunki Satavahana kings ne active roop se inn sab languages ke literary use ko promote kiya (sahi Reason bhi) — jaise King Hala ne 'Gaha Sattasai' compile ki. Satavahana rulers ne Prakrit ko Sanskrit se zyada patronize kiya (isse official language banaya), aur arts ke public aspect ko bhi bahut encouragement mila. [Q61, Q62]
- Amaravati Stupa (Andhra Pradesh) mein 'Aryak-Pillars' (Ayaka pillars) wale platform ki khaasiyat milti hai — ye drum se 4 cardinal points par nikalte hain, Andhra region ke stupas ki typical feature hai. [Q64]
- Dynasty-Coin Metal match: zyadatar options sahi hain, lekin 'Satavahanas – Gold' GALAT match hai — Satavahanas ne Lead, Copper, Bronze, Silver aur Potin (Copper+Silver+Lead ka mix) coins banaye, gold coins nahi. [Q45]

14. Deccan Dynasties — Vakataka, Chalukya & Ikshvaku

- Deccan dynasties ka chronological order: Satavahanas (1st century BC, Simuk ne founded) → Vakatakas (3rd century AD, Vindhyashakti ne founded) → Chalukyas (Gujarat ke Solankis, 10th century AD mein Mulraj I ne founded; Badami Chalukyas 6th century AD mein pehle hi emerge hui thi). [Q60]
- Satavahana dynasty ke weak hone ke baad, Vakataka dynasty Dakshinapath (Deccan) mein power mein aayi (sahi). Vakataka dynasty ke founder Vindhyashakti the, Pravarasen I NAHI (galat statement). Pravarasen I, Vindhyashakti ke bete the, ulta nahi. [Q63]
- Ikshvaku dynasty ke rulers ko Puranas mein 'Shriparvatiya' kaha jaata hai (Andhra ke Shriparvata region ke rajaon ke liye) — ye Satavahanas ke patronage mein Lords the, lekin unke decline ke baad Ikshvakus ne apni independence declare ki. Shrisantmula is dynasty ke founder the. [Q66]
- Inscription-Ruler match: Bhitari Pillar Inscription (Ghazipur, UP) Skandagupta (Gupta ruler) se related hai, Chalukya king Pulkeshin II se NAHI (ye galat pair hai — Pulkeshin II ka inscription Aihole, Karnataka mein hai). [Q65]

15. Dynasty-Capital Match List

- Dynasty-Capital match: Shunga → Pataliputra; Satavahana → Paithan/Pratishthan; Kadamb → Banvasi; Chandel → Mahoba (aur Khajuraho). [Q59]

16. King Kharavela of Kalinga

- King Kharavela, Kalinga (aaj ka Odisha) ke Chedi (Mahameghavahana) dynasty ke raja the — unke baare mein zyadatar jaankari Hathigumpha inscription (Udayagiri Caves, Odisha, undated aur partially damaged) se milti hai. [Q68, Q70, Q72, Q73]
- Kharavela, Jainism ke ek prominent follower aur patron the — unhone Jain monks ko patronage di aur Udayagiri-Khandagiri hills mein unke rehne ke liye caves banwayi. [Q69, Q71]
- Udayagiri (18 caves) aur Khandagiri (15 caves) — Bhubaneswar, Odisha mein rock-cut caves ke liye famous hain, jinme natural aur artificial dono tarah ki caves hain. Hathigumpha inscription Udayagiri caves se mila hai, Khandagiri se NAHI. [Q74]

17. Ancient Trade & Contemporary World Rulers

- Assertion-Reason: Kushanas Persian Gulf aur Red Sea ke through trade karte the (sahi — Periplus of the Erythraean Sea aur Arikamedu excavations se evidence milta hai) — lekin unke paas ek well-organized/highly-qualified naval force thi, iska koi evidence NAHI milta (galat Reason). [Q67]
- 'Periplus of the Erythraean Sea' (1st century CE ke aas-paas likha gaya) ek anonymous (author unknown) Greek-speaking merchant ka likha document hai. [Q76]
- Ancient India mein rivers (Ganga, Indus, Kaveri) aur ports (jaise Muziris, Sopara, Lothal) trade aur transport ke bade centres the — goods ki storage ke liye bade warehouses (entrepots) bhi use hote the. [Q77]
- Eastern Roman ruler Justinian ka sabse bada contribution 'Law' (kanoon) ke field mein tha — unka 'Corpus Juris Civilis' (laws ka collection) aaj bhi kai modern states mein civil law ka aadhar hai. [Q75]
