

CH.5 — ECONOMIC IMPACT OF BRITISH RULE — FULL MIND MAP

Topic-wise · Fully Explained · Hinglish · SSC / BPSC / BSSC / Railway

Topics in this chapter:

1. Home Charges & Imperial Preference
2. Reasons for Lack of Industrial Development
3. Export Trade of the East India Company
4. The Permanent Settlement — Introduction & Features
5. Consequences of the Permanent Settlement
6. The Ryotwari Settlement
7. Comparing Land Revenue Systems
8. The Punjab Land Alienation Act
9. The Mahalwari Settlement
10. The Assam Tea Company
11. Military Expenditure
12. The Drain of Wealth Theory — Dadabhai Naoroji
13. Trade Surplus & 'Unrequited Exports'
14. Karl Marx on British Economic Policy
15. Irrigation — Sir Arthur Cotton
16. Terminology — Aurang, Banian & Mirasidars
17. Commercialization of Agriculture

1. Home Charges & Imperial Preference

- Colonial rule ke dauran 'Home Charges' England mein Secretary of State for India dwara kiya gaya kharcha tha — isme India Office ka expenditure, British staff ki salary-pension, aur debt ka interest shaamil tha. India ke bahar wars ladne ke liye use hua paisa isme SHAAMIL NAHI tha. [Q1]
- 'Imperial Preference' ka matlab tha ki British imports par India mein nominal ya zero duty lagti thi, jabki India ke exports par Britain mein bhari tariffs lagti thi. [Q2]

2. Reasons for Lack of Industrial Development

- British rule ke dauran India mein independent industries develop nahi hui — mukhya wajah thi ki India ke ameer log industries mein invest karne ki jagah zameen (land property) mein invest karna prefer karte the. [Q3]
- Industrial Revolution ka India par mukhya impact tha — Indian handicrafts (haath se banaye saman) barbaad ho gaye. Britain se sasti machine-made goods India ke market mein aa gayi, jisse domestic industries khatam ho gayi, aur Indian exports par bhi bahar heavy tariffs lagti thi. [Q52]
- 'Deindustrialization' 1813 mein shuru hui, jab Company ka commercial monopoly khatam hua — 1833 ke Act ne isse aur badhaya, kyunki Company ki trade activities poori tarah khatam ho gayi aur wo sirf ek administrative body ban gayi. [Q46]

3. Export Trade of the East India Company

- 18th century ke beech mein, English East India Company Bengal se cotton, silk cloth, opium, salt-petre aur sugar jaisi commodities export/purchase karti thi. [Q4]

4. The Permanent Settlement — Introduction & Features

- Lord Cornwallis ne 1793 AD mein 'Permanent Settlement' (jise Ist-e-Marari, Jagirdari ya Malgujari bhi kehte the) Bengal, Bihar, Odisha aur Varanasi mein introduce ki. [Q5, Q6, Q7, Q10, Q11]
- Permanent Settlement Zamindars (landlords) ke saath ki gayi thi — unhe zameen ka malik maana gaya, jo revenue ka 10/11th hissa Company ko dete the. [Q8, Q9]
- Cornwallis ki revenue collection ke baare mein: statement 1 (Ryotwari mein bad harvest ke liye exemption) galat hai kyunki Ryotwari mein rents high the aur strictly collect hoti thi. Statement 2 sahi hai — 'Sunset Law' ki wajah se (jisme revenue sunset tak na diya jaaye to zameen zabt ho jaati thi). [Q29]

5. Consequences of the Permanent Settlement

- Land settlement ke baad litigation (case-baazi) badh gayi thi — iski wajah thi court fees hataana aur land rights ki complexity, na ki diye gaye specific options — isliye 'None of the above' sahi hai. [Q12]
- Permanent Settlement (1793) ke under, Zamindars ko farmers ko 'Pattas' issue karni thi — lekin unhone ye issue NAHI ki kyunki koi official check ya penalty nahi thi non-compliance ke liye — unka main duty sirf revenue payment tha. [Q13]
- Bihar mein introduce hui Permanent Settlement ke baare mein sahi statement — land revenue 'constitutionalised' (fixed amount) ho gaya tha, Company ke liye. [Q14]
- Bengal Tenancy Act 1885 mein pass hui — isme Bengal-Bihar ke tenants (kirayedar) ke land rights define kiye gaye, badhte rents aur peasant unrest ki wajah se. [Q15]

6. The Ryotwari Settlement

- Ryotwari System, Thomas Munro aur Alexander Reed ne generate ki thi — Cornwallis, Permanent Settlement se associate hain, Ryotwari se NAHI. [Q16, Q19, Q21, Q22]
- Ryotwari System sabse pehle Madras Presidency ke Baramahal district (Tamil Nadu) mein implement hui — Alexander Reed ne 1792 mein. [Q17, Q24]
- Permanent Settlement aur Ryotwari System ka introduction respectively Bengal aur Madras mein hua. [Q18]
- Ryotwari system South India (Madras, Tamil Nadu, Karnataka) aur Western India (Bombay) ke kuch hisso mein prevalent thi. [Q20, Q23]
- Ryotwari settlement ke baare mein sabhi diye gaye statements sahi hain — isme kisan (ryot) aur state ke beech direct contract hota tha, pattas issue hote the, aur scientific land survey hoti thi. [Q25]
- Ryotwari System mein kisan khud zameen ka malik hota tha aur khud land revenue देने के लिए responsible tha — ownership rights kisano ko di jaati thi, aur tax directly unse collect ki jaati thi. [Q26]
- 'Ryotwari System, India mein hamesha se prevail karti rahi hai' — ye statement Thomas Munro ne diya tha, is system ko Indian tradition ke consistent bataane के लिए. [Q27]

7. Comparing Land Revenue Systems

- Assertion-Reason: British ne Permanent, Ryotwari aur Mahalwari — teen alag systems introduce kiye alag-alag regions mein (sahi Assertion) — isse India ke alag-alag hisso mein alag agrarian structures aur classes (zamindars, peasant proprietors, village communities) bani (sahi Reason bhi, jo Assertion ko explain karta hai). [Q28]
- Match: Jajmani system → North India; Bara Balute → Maharashtra; Mirasi → Tamil Nadu; Adade → Karnataka. [Q33]

8. The Punjab Land Alienation Act

- 'Punjab Land Alienation Act' 1900 AD mein pass hui — iska maksad tha kisano (farmers) se zameen ka transfer non-agriculturists (jaise money lenders) ko rokna. [Q30]

9. The Mahalwari Settlement

- 'Mahalwari Settlement' Holt Mackenzie ne 1822 AD mein, Bengal Presidency (North-Western Provinces) mein devise ki thi. [Q32]

10. The Assam Tea Company

- Assam mein pehli tea company (Assam Company) England mein 1839 AD mein, 5 lakh rupees ki capital ke saath banayi gayi — ye aaj bhi functioning oldest tea company hai. [Q31]

11. Military Expenditure

- British India mein Central revenue ka lagbhag 40% Military force par kharcha hota tha. [Q34]

12. The Drain of Wealth Theory — Dadabhai Naoroji

- 'Drain Theory' ka matlab tha ki India ki national wealth (annual product) ka ek hissa Britain export ho raha tha, jiske badle India ko koi material return nahi mil raha tha. [Q35]
- Dadabhai Naoroji ('Grand Old Man of India') ne 'Drain Theory' propound ki thi — apni book 'Poverty and Un-British Rule in India' mein. [Q36, Q37, Q45]
- Statement check: Dadabhai Naoroji ka sabse effective contribution ye tha ki wo pehle Indian nationalist the jinhone economically prove kiya ki Britain India ko exploit kar rahi thi — unhone Drain Theory isi analysis ke basis par di. [Q47]
- Sir Syed Ahmad Khan, Dadabhai Naoroji ki 'Drain Theory' ko believe NAHI karte the — wo British rule ke loyal the aur maante the ki Muslim community ka development sirf British rule mein hi possible hai. [Q40]

- Dadabhai Naoroji ki 'Poverty and Un-British Rule in India' book 1901 AD mein publish hui. [Q41, Q42, Q43]
- Dadabhai Naoroji British House of Commons mein elect hone wale pehle Indian the (1892 AD) — Liberal Party ki taraf se contest kiya tha. [Q44]
- Colonialism ke economic critics the: Dadabhai Naoroji aur unke saath 2 doosre (options mein diye gaye) economists — teeno ne British rule ke economic impact ka analysis kiya aur colonialism ko economic growth mein sabse badi rukawat mana. [Q39]

13. Trade Surplus & 'Unrequited Exports'

- Assertion-Reason: India ka trade surplus tha (exports imports se zyada the) — sahi Assertion. Lekin ye surplus 'Home Charges' aur Britain ke doosre kharcho ke liye use hota tha, isliye India ko badle mein kuch nahi milta tha (unrequited exports) — sahi Reason bhi, jo Assertion ko explain karta hai. [Q38]

14. Karl Marx on British Economic Policy

- Karl Marx ne kaha tha ki 'British Economic Policy India mein disgusting hai' — unhone bataya ki Indian cultivators (kisan) dejection (nirasha) ki state mein the. [Q48]

15. Irrigation — Sir Arthur Cotton

- Sir Arthur Cotton ko South India mein Irrigation works ka 'Pioneer' maana jaata hai — wo ek British irrigation engineer the. [Q49]

16. Terminology — Aurang, Banian & Mirasidars

- ⚠️ Trap: 'Aurang' ek Persian term hai jiska matlab warehouse/depot hai, treasury (khazana) NAHI. 'Banian' Company ke liye Indian agent hote the (sahi). 'Mirasidars' South India ke village elites the jo designated revenue payers the (sahi). [Q50]

17. Commercialization of Agriculture

- 19th century mein British rule ka ek economic result tha 'Indian agriculture ka commercialization' — kisano ko cash crops (Indigo, cotton) ugane ke liye majboor kiya gaya, British factories ke liye raw material ki tarah, jisse food security aur urban population par negative impact pada. [Q51]
