## 1. State & Sovereignty — Meaning and Essential Elements

- Garner ke definition ke according State = definite territory par permanently rehne wala community + organized government + external control se independence. State ke 4 essential elements: Population/People, Territory, Government aur Sovereignty. [Q1]
- In chaar elements mein Sovereignty sabse prominent/important hai. Source ke mutabik 1947 se pehle India mein population, territory aur government the, lekin British control ki wajah se sovereignty absent thi. [Q2]
- 'Sovereign' ka meaning source mein independent state hai—na dependency, na dominion. Commonwealth membership India ki sovereignty ko curtail nahi karti; given statements mein sirf membership wala statement correct hai. [Q3]
- Preamble ka idea source ke mutabik U.S. Constitution se liya gaya, jabki Preamble ki language Australia se borrowed batayi gayi hai. [Q4]

## 2. Parliamentary Government — Core Features & Cabinet Responsibility

- India Parliamentary form of Government follow karta hai, UK/Westminster model se influenced. Is system mein Executive Legislature se democratic legitimacy leta hai aur Legislature ke prati accountable hota hai. [Q5, Q6, Q7, Q8]
- Parliamentary/Cabinet/Responsible Government ka central rule: Council of Ministers Lok Sabha ke prati responsible; Government tab tak office mein rehti hai jab tak popular House ka majority support ho. Main advantage = responsible government. [Q13, Q14, Q17]
- Institutional features: Ministers Parliament se linked hote hain; non-MP minister 6 months ke baad cease karta hai (Art. 75(5)); Council of Ministers collectively Lok Sabha ke prati responsible (Art. 75(3)); Cabinet ka head PM hai, President nahi. [Q15]
- Source ke feature-list mein Executive responsibility, majority-party rule, collective responsibility, nominal & real executives, political homogeneity, double membership, PM leadership, lower-house dissolution aur secrecy of procedure diye gaye hain. [Q16]
- Indian Parliamentary system British model se isliye different hai kyunki Britain mein Parliament sovereign hai; India mein Constitution supreme/Parliament limited hai aur Judicial Review available hai. Constitution Bench substantial constitutional questions decide karti hai. [Q9, Q10, Q39]

- Indian polity ka feature Presidential Government nahi hai. India mein President nominal/formal head hai aur real executive Council of Ministers headed by PM hai; Parliamentary Government, independent judiciary aur federal structure source ke recognised features hain. [Q11, Q12]
- Centre aur States—dono ke Government authority ka source Constitution hai; Parliamentary system Centre ke saath States mein bhi established hai. [Q22]

### 3. Presidential Government — Features & Parliamentary Comparison

- Presidential Government mein executive powers President mein vested hoti hain; President Head of State aur Head of Government dono hota hai. Source isse single executive / centralized executive power ke roop mein describe karta hai. [Q18, Q30]
- Presidential form America mein first emerged; American Presidency ko oldest/purest form bataya gaya hai. President fixed period ke liye indirectly elected hota hai. [Q32]
- Source Q31 ke substantive explanation ke according President executive head hai aur Council of Ministers appoint karta hai, lekin Legislature dissolve nahi kar sakta. [Q31]

#### ⚠ SOURCE CONFLICT — Q31

- ▶ HTML mein marked correct answer = (C) “President can dissolve the Legislature” as NOT a feature. Explanation ka substance bhi isi ko support karta hai, lekin explanation ki last line galti se “option (d)” likh deti hai. Is conflict ko silently change nahi kiya gaya. [Q31]

### 4. Indian Democracy, Republic, Welfare State & Good Governance

- Source India ko Sovereign, Socialist, Secular, Democratic Republic aur welfare-oriented state batata hai; Welfare State ka constitutional direction DPSP se linked hai. [Q20, Q25, Q26]
- Rule of Law aur democratic government Indian polity ke features hain; authoritarian government iska feature nahi. Representatives periodic elections se choose hote hain. [Q21]
- Good Governance ke features = accountability, transparency aur Rule of Law. Red Tapism excessive regulation hai jo action/decision-making ko hinder karta hai, isliye good governance ka feature nahi. [Q24]
- India democratic hai kyunki governance ke important decisions elected representatives lete hain; sirf written Constitution hona democracy ka sufficient explanation nahi—source UK ka example deta hai. [Q23]
- Constitutional philosophy mein democratic republic, equality of opportunity/status, socialist ideal aur adult franchise included hain; Communist State philosophy nahi hai. India Parliamentary Democracy hai. [Q27, Q28]
- Democracy ka base = people ko representatives elect/change karne ka right. Democracy ki superior virtue common people ki wisdom aur character ko active banane mein hai. [Q33, Q34]
- Republic ka meaning: supreme power people ke paas aur Head of State hereditary nahi, elected hota hai. India mein President indirect election se elected hota hai. [Q35, Q36, Q48]
- Political parties ko source democracy ka ‘life-blood’ maanta hai; people bad governance ke liye parties ko blame karte hain kyunki parties government mechanism ka visible/vital operator hoti hain. [Q49]

- Federal design ka objective diverse parts ko national integration mein weave karna tha; diversity ko accommodate karne se stronger nationhood build hoti hai. Women, Dalits, Poor aur Minority groups democracy ke major stakeholders hain because democracy dignity/self-respect protect karti hai. [Q51, Q53]
- Indian political system mein 'continuity and change' dono elements source ke mutabik present hain; modern, traditional aur saint-style elements ke coexistence ko reason maana gaya hai. [Q52]

## 5. Federalism in India — Federal Features and Unitary Bias

- Independent Judiciary federal character ki essential condition hai—Constitution interpret karti hai aur Centre-State disputes mein impartial umpire ka role nibhati hai. [Q42]
- Federal features: written Constitution, rigidity, distribution of powers, independent judiciary, bicameral legislature etc. Unitary features: single citizenship, Governors appointed by President/Centre, emergency provisions, integrated judiciary, strong Centre etc. [Q43, Q44, Q47]
- Given unitary-element combinations mein Appointment of Governors, unequal representation in Rajya Sabha aur All India Services source ke correct unitary elements hain. [Q45]
- Indian federal structure mein strong unitary bias hai. Source Q46 ke according statements 1 & 2 correct: federal system/basic distribution + strong unitary admixture; Union and State Legislatures dono sovereign nahi aur judicial powers separate federal compartments mein divided nahi hain. [Q46]
- U.S. federal republic ka example source deta hai; India Article 1 ke under Union of States hai aur federal nature ke saath unitary features rakhta hai. [Q55]
- Indian federation federating units ke agreement ka result nahi; constituent units ko secede karne ki freedom nahi. Isi context mein 'Union' word ka Ambedkar explanation diya gaya hai. [Q56]
- K.C. Wheare ke 'Quasi-federal' label ka source logic: generally federal, but Constitution emergency situations mein unitary conversion allow karta hai. Independent judiciary/Judicial Review true feature hai, par Q57 mein quasi-federal hone ka correct explanation nahi. [Q57]
- Indian Constitution na purely federal na purely unitary—source D.D. Basu ko combination of both se associate karta hai; nature ko 'federal in form but unitary in spirit / quasi-federal' kaha gaya hai. [Q58, Q59]

## 6. Indian Federalism — Famous Scholars, Labels & Institutions

- Federalism labels: Cooperative Federalism — Granville Austin; Bargaining Federalism — Morris-Jones; Quasi Federalism — K.C. Wheare; Federalism with Centralising Tendency — Ivor Jennings. [Q60, Q61, Q62]

- Dr. B.R. Ambedkar se source statement associate karta hai: Constitution 'tight mould of federalism' mein set nahi hai; isme federal aur unitary dono characteristics hain. [Q64]

- Indian Constitution ko source world ka longest-written/bulkiest Constitution batata hai. Q54 ke options—many constitutions ka experience, detailed administrative provisions, large country, Union+State governments—sab reasons ko true bataya gaya hai, lekin single valid option absent hai. [Q54]

### ⚠ DISPUTED QUESTION — Q54

- ▶ HTML explicitly “Disputed Question (Ans. \*)” dikhata hai. Explanation ke mutabik listed saare reasons true hain, lekin “All of the above” option nahi diya gaya. [Q54]

- Constitution ka chief purpose source ke mutabik Government ki structure/nature define karna ke saath Government power ko define aur limit karna hai; Constitutional Government by definition limited Government hai. [Q72, Q74]
- Constitutionalism State authority par effective restrictions lagata hai individual liberty/public interest protect karne ke liye; Q73 mein statement 2 correct hai. Constitutional government ka authority body of laws/Constitution se determined hota hai. [Q73, Q75]
