

Topics in this chapter:

1. Environmental Conventions & Heavy Metal Diseases
2. Non-Aligned Movement (NAM)

1. Environmental Conventions & Heavy Metal Diseases

- Minamata Convention 2013 — Japan mein hua tha, Mercury (Pāra) emission ko address karne ke liye. India ne 18 June 2018 ko ratify kiya. Minamata disease — neurological disorder caused by methylmercury poisoning. Children mein acrodynia (pink disease) ho sakta hai jismein skin pink ho jaati hai aur peel hoti hai. [Q844]
- Other metals & associated diseases yaad rakho:
 - Arsenic → Black foot disease
 - Nitrate → Blue baby syndrome
 - Cadmium → Itai-Itai disease
 - Fluoride → Skeletal fluorosis
 - Mercury → Minamata disease / Acrodynia [Q844]

2. Non-Aligned Movement (NAM)

- First Non-Alignment Conference — Belgrade, 1961. NAM Cold War ke time bana — un countries ka group jo na USA ke sath tha na USSR ke sath, balki independent/neutral rehna chahti thi. [Q845]
- NAM ke 5 founders (Big Five):
 - Josip Broz Tito — Yugoslavia
 - Gamal Abdel Nasser — Egypt
 - Jawaharlal Nehru — India
 - Kwame Nkrumah — Ghana
 - Sukarno — Indonesia [Q845]
