

ACTION PLAN OF INDIA IN PERSPECTIVE OF CLIMATE CHANGE - FULL MIND MAP

Topic-wise | Hinglish | SSC / BPSC / BSSC / Railway

Topics in this chapter:

1. Panchamrit Climate Targets
2. National Action Plan on Climate Change - NAPCC
3. Jharkhand Climate Action Plan
4. Global Atmosphere Watch Stations
5. Emission Reduction Purchase Agreement
6. Global Warming - Impact Indicators
7. Climate Institutions & Initiatives - Matching
8. SAFAR
9. Climate Change Performance Index 2017
10. National Green Tribunal - Headquarters
11. IPCC - Required GHG Emission Reductions

1. Panchamrit Climate Targets

- Climate change - glasago COP26 mein India ne apni climate action rananiti ke tahat panch bhagon wala 'panchamrit' paikej declared kiya tha. is rajanitik announcement mein 2030 tak 500 GW non-fossil energy capacity, 2030 tak energy avashyakataon ka 50% renewable energy se pura karna, 2030 tak anumanit carbon emissions mein ek arab tan ki kami, 2005 ke level ki comparison mein 2030 tak emissions tivrata mein 45% kami aur 2070 tak net-zero obtained karna shamil tha. [Q1]

2. National Action Plan on Climate Change - NAPCC

- 2008 A.D. - India ki pehli climate change par national karyayojana June, 2008 mein tatkalin pradhanamantri manamohan sinh (Manmohan Singh) dwara jari ki gayi thi. [Q2]
- Galat kathan: Atomic Energy; India ki national climate change karyayojana (climate change par national karyayojana - NAPCC) 30 June 2008 ko jari ki gayi thi. iske ath national Mission hain: national solar Mission; sanvardhit energy dakshata national Mission; sustainable habitat national Mission; national water Mission; Himalayan ecosystem ko banaye rakhne ka national Mission; green India national Mission; sustainable agriculture national Mission; aur climate change ke liye rananitik jnyan national mishana. [Q3]
- India ne climate change ke shaman aur anukulan ke liye apni pehli climate change par national karyayojana 30 June, 2008 ko jari ki. [Q4]
- climate change par national karyayojana (NAPCC) ke tahat rekhankit 8 Mission mein se ek national green India Mission (GIM), climate change shaman, water protection, food protection, biodiversity conservation aur forest-ashrit communities ki ajiivika protection ke medium se environment sudhar par forests ke effect ko svikar karta hai. aktubar 2015 mein organized national green India Mission (GIM) ki national karyakari parishad (NEC) ki dusari baithak mein char states - mizoram, Manipur, Kerala aur Jharkhand - dwara prastavit sanbhavit yojanaen aur sanchalan ki varshik scheme ko svikriti di gai. [Q5]

- Galat kathan: Nuclear power; climate change par national karyayojana (NAPCC) ke tahat rekhankit 8 Mission mein se ek national green India Mission (GIM), climate change shaman, water protection, food protection, biodiversity conservation aur forest-ashrit communities ki ajivika protection ke medium se environment sudhar par forests ke effect ko svikar karta hai. aktubar 2015 mein organized national green India Mission (GIM) ki national karyakari parishad (NEC) ki dusari baithak mein char states - mizoram, Manipur, Kerala aur Jharkhand - dwara prastavit sanbhavit yojanaen aur sanchalan ki varshik scheme ko svikriti di gai. [Q6]

3. Jharkhand Climate Action Plan

- United Nations Development Programme (UNDP) - United Nations development program (UNDP) ne Jharkhand government ke saath apni bhagidari ke tahat Jharkhand mein climate change sanbandhi muddon par state government ko paramarshi (Advisory) sevaen dene ke liye state climate change prakoshth banaya hai. Jharkhand state climate change prakoshth ke main work is type hain: 1. anek hitadharakon (Stakeholders) ke use ke liye climate change par jnyan (Knowledge) products developed karna, jinmein shaman aur anukulan options ki list wale saral vishay-sar patr (Issue Briefs) shamil hon. [Q7]

EXAM TRAP Jharkhand action scheme par climate change 2013 aur 2014 mein prakashit hui thi. [Q8]

- World Action Plan to deal with climate change - world ke countries ne December 2015 mein Paris mein U.N. framework Convention par climate change conference ke pakshakar (COP21) mein ek historic international climate agreement apanaya. countries ne is samajhaute ke tahat 2020 ke baad ki woh climate action sarvajanik roop se rekhankit ki jise ve karne ka irada rakhate the. [Q9]
- Saraikela Kharaswan - Jharkhand scheme par climate change report (2014) ke ke mutabik sarayakela-kharasavan (Saraikela Kharsawan) 0.78 ank ke saath sabse sanvedanashil district hai, jo usaki sanvedanashilata shows hai. mapan (-1) se (+1) ke paimane par taiyar kiya gaya hai, jo related sanvedanashilata shows hai. [Q10]

4. Global Atmosphere Watch Stations

- yeh ek historic UPPCS sawal hai jismein "global atmosphere monitoring centre" ka use WMO ki sankirn global-steshan category ke meaning mein kiya gaya tha. India lanbe samay se WMO ke global atmosphere monitoring (GAW) program mein hissa leta hai aur India weather science vibhag ke medium se GAW ke kshetriy steshan operated karta hai. [Q11]

5. Emission Reduction Purchase Agreement

- mai, 2011 mein pramanit emissions katauti (CER) ki kharid ke liye 'emissions katauti kray agreement' par international bank ke liye punarnirman aur development ki taraf se world bank ke up country nideshak (Deputy Country Director) hyubart nov joseran (Hubert Nove Josserand) aur himachal government ki taraf se extra main sachiv (Additional Chief Secretary) sudripto roy ne hastakshar kie. baaki sabhi option sahi hain. [Q12]

6. Global Warming - Impact Indicators

- uparyukt charon sthitiyan global warming ke effect ko darshati hain. global warming ke liye uttaradayi main gases water vapour, CO₂, CH₄ aur CFC hain. [Q13]

7. Climate Institutions & Initiatives - Matching

- Galat kathan: Carbon Trading - Montreal Protocol; carbon vyapar ka relation Kyoto Protocol se hai. isliye option (d) sahi sumelit nahi hai. [Q14]

8. SAFAR

- do. harshavardhan (Dr. Harshvardhan) - tatkalin science aur technology, Earth science; environment, forest aur climate change mantri do. harshavardhan (Dr Harsh Vardhan) ne 2018 mein Delhi ke chandani chauk mein atyadhunik air quality aur weather purvanuman (forecast) system - SAFAR (air quality aur weather purvanuman system) - ka anavaran kiya. large saty-rangin elaidi disple (true-colour LED display) rang-sanketan ke saath 24x7 basis par vastavik-samay (real-time) air quality suchakank aur 72-ghanta agrim purvanuman deta hai. [Q15]

9. Climate Change Performance Index 2017

- 20th - CCPI 2017 mein India 20ven place par tha; yeh sawal historic hai aur us raink ko usi sanskaran ke context mein padha jana chahie. climate change pradarshan suchakank ko Germanwatch sahayogi sansthaon ke saath prakashit karta hai aur ismein greenhouse gas emissions, renewable energy, energy use aur climate policy ka akalan kiya jata hai. [Q16]

10. National Green Tribunal - Headquarters

- New Delhi - national green adhikaran ko environmental conservation aur forest aur dusre natural resources ke conservation se related mamalon ke effective aur tvarit nipatare ke liye national green adhikaran Act 2010 ke tahat 18-10-2010 ko established kiya gaya. national green adhikaran ka mukhyalay nayi Delhi mein located hai. [Q17]

11. IPCC - Required GHG Emission Reductions

- IPCC ki riporten (Reports) rekhankit karti hain ki Paris agreement ke lakshyon ko obtained karne ke liye kramik ya simit katautiyan paryapt nahi hain. Paris agreement ka purpose global temperature increase ko purv-industrial level se 2°C se kaphi neeche, aur adhimanatah 1.5°C tak simit rakhana hai. [Q18]
