

INDIA STATE OF FOREST REPORT 2023 - FULL MIND MAP

Topic-wise | Hinglish | SSC / BPSC / BSSC / Railway

Topics in this chapter:

1. ISFR 2023 - Key National Findings
2. India Forest Cover - Percentage & Historical Reports
3. States with Largest Forest Area & UP Districts
4. Highest Forest Percentage, Density & Very Dense Forests
5. Forest-Cover Change & Report-Based Statements
6. Tree Cover, Dense Forest & Remote-Sensing Facts
7. High Forest-Cover States / UTs
8. Mangrove Area
9. Uttar Pradesh Recorded Forest Area
10. State-wise Forest Cover Ordering
11. Jharkhand - Per Capita Forest & Tree Cover

1. ISFR 2023 - Key National Findings

- ISFR-2023 ke ke mutabik country ka total forest cover aur tree cover 827,356.95 square km hai, jo India ke geographical area ka 25.17% hai, na ki 15%. Recorded Forest Area (RFA) ke basis par sabse zyada area wale shirsh teen state kramashah Madhya Pradesh, Maharashtra aur Odisha hain. [Q1]

2. India Forest Cover - Percentage & Historical Reports

EXAM TRAP "forest area" term aspasht hai, kyunki isse upagrah-based forest-cover, legal/prashasanik abhilekhon ka abhilekhit forest area ya forest aur tree-cover - tinon mein se koi meaning liya ja sakta hai. yeh percent report ke year ke saath bhi badalata hai; sawal ke pariksha-year purane hain, par sawal mein koi fixed forest-mapadand ya report-year nahi diya gaya hai. ISFR 2023 ke ke mutabik India ka forest-cover 21.76% aur forest aur tree-cover 25.17% hai. [Q2]

- India forest condition report 2017 mein India ka forest-cover 7,08,273 square km, matlab total geographical area ka 21.54% bataya gaya tha. abhi context mein ISFR 2023 forest-cover lagbhag 7,15,343 square km, matlab 21.76% batata hai. [Q3]
- ISFR 2015 mein diye gaye states mein Mizoram ke total geographical area ka sabse zyada percent forest-cover ke tahat tha. navinatam available ISFR 2023 mein bhi states ke beech Mizoram 85.34% forest-cover ke saath pratham hai. [Q4]
- Indian forest condition report-2015 ke ke mutabik India mein forest aur tree cover ke tahat total area 79.42 miliyan hekter (794245 square km) tha. yeh country ke total geographical area ka 24.16 percent tha. [Q5]
- ISFR 2017 ke ke mutabik country ke total geographical area (GA) ka 21.54 percent hissa forest cover ke tahat hai. abhi yeh 21.76% hai. [Q6]
- ISFR 2017 ke ke mutabik country ke total geographical area (GA) ka 21.54 percent hissa forest cover ke tahat hai. abhi yeh 21.76% hai. [Q7]

- Nagaland - India forest condition report 2019 ke ke mutabik nagalaind mein 11 district hain, aur sabhi janajatiy hone ke saath-saath pahadi district bhi hain. isliye option (a) sahi hai. abhi (ISFR 2023) diye gaye options mein Manipur mein janajatiy aur pahadi districts ki sabse zyada number (16) hai. [Q8]

EXAM TRAP "India ki kitni land forest area hai" mein yeh clear nahi hai ki forest-cover, abhikhit forest area ya forest aur tree-cover mein se kaun-sa mapadand puchha gaya hai. in mapadandon ke percent alag-alag hain aur report-year ke saath badalate bhi rahe hain. ISFR 2023 mein forest-cover 21.76% aur forest aur tree-cover 25.17% hai; is purane aspasht sawal mein koi ek option nirvivaad roop se sahi nahi banata. [Q9]

- 19 - India forest condition report, 2003 ke ke mutabik option (c) sabse sanbhavit sahi jawab hoga. [Q10]

3. States with Largest Forest Area & UP Districts

- India forest condition report (ISFR) 2023 ke ke mutabik options mein diye states ka forest area is type hai - state - forest area (square km) Arunachal Pradesh - 65881.57 (78.67%) Madhya Pradesh - 77073.44 (25.00%) Rajasthan - 16548.21 (4.84%) Kerala - 22059.36 (56.78%) Uttar Pradesh - 15045.80 (6.24%) isliye option (c) sahi jawab hai. [Q11]
- Uttar Pradesh ke sirf nimnalikhit teen districts mein total area ke 20% se zyada hissa par forest cover hai: 1. sonabhadra (34.87%), 2. chandauli (21.63%), [Q12]
- Arunachal Pradesh mein forest area ka percent sabse zyada hai. [Q13]
- year 2021 ke dauran India mein Madhya Pradesh mein sabse zyada forest cover tha. ISFR 2021 ke ke mutabik rajyavar forest cover ka vivaran: state - forest cover (square km) Madhya Pradesh - 77,493 Arunachal Pradesh - 66,431 Chhattisgarh - 55,717 Odisha - 52156 Maharashtra - 50,798 andhra Pradesh - 29,784 [Q14]
- Madhya Pradesh mein country ka sabse zyada forest cover aur sabse zyada Recorded Forest Area hai. forest cover ki drishti se iske baad Arunachal Pradesh, Chhattisgarh, Odisha aur Maharashtra aate hain. country ke jawab-eastern area ke states mein state ke total geographical area ki comparison mein forest cover ka percent sabse zyada hai. [Q15]

4. Highest Forest Percentage, Density & Very Dense Forests

- India forest condition report (ISFR) 2017, 2019 aur 2023 ke ke mutabik options mein diye states ka forest cover is type hai - forest cover (percent) state - 2017 - 2019 - 2023 Mizoram - 86.27% - 85.41% - 85.34% Arunachal Pradesh - 79.96% - 79.63% - 78.67% nagalaind - 75.33% - 75.31% - 73.72% Meghalaya - 76.45% - 76.33% - 75.65% [Q16]
- India forest condition report (ISFR) 2017, 2019 aur 2023 ke ke mutabik options mein diye states ka forest cover is type hai - forest cover (percent) state - 2017 - 2019 - 2023 Mizoram - 86.27% - 85.41% - 85.34% Arunachal Pradesh - 79.96% - 79.63% - 78.67% nagalaind - 75.33% - 75.31% - 73.72% Meghalaya - 76.45% - 76.33% - 75.65% [Q17]
- India forest condition report (ISFR) 2017, 2019 aur 2023 ke ke mutabik options mein diye states ka forest area is type hai - state - 2017 - 2019 - 2023 Mizoram - 86.27% - 85.41% - 85.34% Arunachal Pradesh - 79.96% - 79.63% - 78.67% nagalaind - 75.33% - 75.31% - 73.72% tripura - 73.68% - 73.68% - 72.33% [Q18]
- diye gaye states mein India mein Mizoram ka forest ghanatv sabse zyada hai. ISFR 2023 ke ke mutabik kshetrphal ki drishti se Madhya Pradesh mein country ka sabse zyada forest cover hai, iske baad Arunachal Pradesh, Chhattisgarh, Odisha aur Maharashtra aate hain. [Q19]
- forest cover ka sabse zyada percent Mizoram mein hai. jabki diye gaye states mein 'Recorded Forest Area' himachal Pradesh (68.16%) mein sabse zyada hai. [Q20]

- India forest condition report (ISFR) 2023 ke ke mutabik options mein diye states mein bahut saghan forest ka area is type hai - state - forest area (square km) Arunachal Pradesh - 20,985.32 Madhya Pradesh - 7021.31 Maharashtra - 9865.62 Odisha - 7224.42 [Q21]
- India forest condition report (ISFR) 2023 ke ke mutabik apne geographical area ke sabse zyada percent hissa par forest cover wale panch state/centre shasit Pradesh hain: (1) lakshadvip, (2) Mizoram, (3) Andaman aur Nicobar dvipasamuh, (4) Arunachal Pradesh, (5) meghalaya. [Q22]

5. Forest-Cover Change & Report-Based Statements

- Andhra Pradesh - jab sawal puchha gaya tha, us samay option (b) sahi jawab tha. ISFR-2023 ke ke mutabik country ka total forest aur tree cover 82.7 miliyan hekter hai, jo country ke geographical area ka 25.17 percent hai. [Q23]
- Galat kathan: Nagaland is the most forest covered State of India.; India forest condition report (ISFR) 2023 ke ke mutabik Madhya Pradesh mein sabse zyada forest area/forest cover hai, jabki Arunachal Pradesh mein sabse zyada saghan forest area hai. percent ki drishti se India ka sabse zyada vanachchhadit state nagalaind nahi, balki Mizoram hai. kshetrphal aur percent dono ke basis par sabse kam forest cover wala state hariyana hai. [Q24]

6. Tree Cover, Dense Forest & Remote-Sensing Facts

- East Deccan - 2009 ke is sawal mein used physical-Pradesh classification mein diye gaye areas ke beech eastern dakkan ko sabse zyada tree-cover wala area bataya gaya tha. ISFR 2023 India ka total tree-cover lagbhag 1,12,014 square km (3.41%) batata hai, par usi purane physical-Pradesh classification ki rainking nahi deta. [Q25]
- 12 percent - India ke total geographical area mein saghan forests ka percent 12.37 hai. India forest condition report 2023 ke ke mutabik India ke saghan forests ko bahut saghan forest aur medium saghan forest mein vibhajit kiya gaya hai. [Q26]
- Jodhpur - ISFR 2019 ke ke mutabik jodhapur district mein bahut saghan forest area sabse kam hai. ISFR 2023 ke ke mutabik jodhapur mein bahut saghan forest area shuny square km hai. [Q27]
- Arunachal Pradesh - national sudur sanvedan ejensi (NRSA) dwara forest se achchhadit ke roop mein pahachane gaye land-hissa ko forest cover kaha jata hai. deharadun located Indian forest sarvekshan (FSI) dwara jari forest condition report sudur sanvedan se obtained ankadon par based hai. [Q28]
- ISFR, 2023 ke ke mutabik India ke geographical area ka lagbhag 21.76% hissa (715342.61 square km) forest hai. ismein se 57.34% area (410175.48 square km) saghan forest hai, 40% nahin. national forestry work program ka target India ke ek-tihai area ko tree/forest cover ke tahat lana hai. [Q29]

7. High Forest-Cover States / UTs

- Arunachal Pradesh, Manipur, Nagaland - yeh 1995 ka historic sawal hai; forest-cover percent aur state-context ko usi report-kal ke ke mutabik padhana chahie. us samay-context mein Arunachal Pradesh, Manipur aur nagalaind ko 75% se zyada forest-cover wale group ke roop mein liya gaya tha; isliye option (B) sahi tha. [Q30]
- yeh sawal 2008 ke report-context ka hai, jab Arunachal Pradesh ko 80% se zyada forest-cover wala bataya gaya tha aur option (A) abhipret jawab tha. ISFR 2023 mein Arunachal Pradesh ka forest-cover 78.67% hai; isliye abhi ankadon mein diye gaye kisi state ka percent 80% se zyada nahi hai. [Q31]

- 17 states/centre shasit pradeshon ke geographical area ka 33 percent se zyada hissa forest cover ke tahat hai. inmein panch state/centre shasit Pradesh - lakshadvip, Mizoram, Andaman aur Nicobar dvipasamuh, Arunachal Pradesh aur Meghalaya - mein 75 percent se zyada forest cover hai, jabki 12 state/centre shasit Pradesh - Manipur, nagalaind, tripura, gova, Kerala, sikkim, Uttarakhand, Chhattisgarh, dadara aur city haveli aur daman aur div, Assam, Odisha aur jammu-kashmir - mein forest cover 33 percent se 75 percent ke beech hai. [Q32]

8. Mangrove Area

- Gujarat - ISFR 2023 ke ke mutabik India mein mangrove cover wale states/centre shasit pradeshon ka kram is type hai - 1. West Bengal (2119.16 square km), [Q33]

9. Uttar Pradesh Recorded Forest Area

- 7% - ankade darshate hain ki Uttar Pradesh ka total abhilekhit forest lagbhag 17,435 square km hai, jo uske total geographical area ka 7.24% hai (ISFR 2023 ke ke mutabik). [Q34]

10. State-wise Forest Cover Ordering

- 3, 4, 2, 1 - ISFR, 2019 aur 2023 ke ke mutabik India ke states ka forest cover (total area mein forest area ka percent) ke avarohi kram mein vivaran is type hai - forest area ka percent state - 2019 - 2023 Manipur - 75.46% - 74.29% Odisha - 33.15% - 33.67% Maharashtra - 16.50% - 16.53% hariyana - 3.62% - 3.65% [Q35]

EXAM TRAP kram is bat par dependent karta hai ki "forest area" se abhilekhit forest area liya jae ya upagrah-based forest-cover, aur kis samay ki state-simaen apanai jaen. 2011 ka sawal andhr Pradesh ke vibhajan se pehle ka hai; baad ke ankadon mein state-simaen badal jane se kram bhi badal jata hai. sawal mein ek fixed mapadand tay nahi hai aur state-bhugol bhi badal chuka hai, isliye maujuda vivadit chihn (*) surakshit rakha gaya hai. [Q36]

11. Jharkhand - Per Capita Forest & Tree Cover

- Jharkhand mein per vyakti forest aur tree cover (2015) 0.08 hekter hai. ISFR 2023 ke ke mutabik Jharkhand ka 'forest aur tree cover' 27, [Q37]
