

# IMPORTANT BIOSPHERE RESERVE AREA - FULL MIND MAP

Topic-wise | Hinglish | SSC / BPSC / BSSC / Railway

## Topics in this chapter:

1. Nanda Devi & Basic Biosphere-Reserve Facts
2. Biosphere Reserves - State / Location Matching
3. UNESCO Network & Man and Biosphere Programme
4. Area Ranking, Cold Desert & International Biosphere Facts

## 1. Nanda Devi & Basic Biosphere-Reserve Facts

- UNESCO World Heritage sanpatti Nanda devi aur ghati ke pushp National Park hai, jo bade Nanda devi Biosphere Reserve ke andar located hai. is area mein snow tendua, Himalayan kasturi mrig aur bharal jaise wildlife paye jate hain. [Q1]

**EXAM TRAP** yeh historic sawal hai aur iska mulyankan pariksha-kal mein available Biosphere Reserve list ke ke mutabik hona chahie. India mein abhi 18 national level par declared Biosphere Reserve hain. Kachchh ke mahan ran (Great Rann of Kachchh) ko 2008 mein Biosphere Reserve declared kiya gaya, jo purane sawal-context ke baad ki ghatana hai. [Q2]

- nilagiri (Nilgiri) ko 1986, Nanda devi ko 1988, Sundarbans (Sunderban) ko 1989 aur kanchanajangha (Khangchendzonga) ko 2000 mein declared kiya gaya. in varshon ko char namon se milane par option (B) wala kut banata hai. ye national level par declared Biosphere Reserve hain; inmein se kai UNESCO world netavark mein bhi shamil hain. [Q3]
- Galat kathan: Nallamalai; India mein abhi 18 national level par declared Biosphere Reserve hain. official Indian list mein Kachchh ka mahan ran (Great Rann of Kachchh) shamil hai, jabki 'Gulf ke Kachchh' (Gulf of Kachchh) naam se koi declared Biosphere Reserve nahi hai. [Q4]

## 2. Biosphere Reserves - State / Location Matching

- dono suchiyon ka sahi matching is type hai - nokarek - Meghalaya manas - Assam dehang debang - Arunachal Pradesh agastyamalai - Kerala [Q5]
- nokarek Biosphere Reserve Meghalaya mein located hai, Manipur mein nahin. manas Biosphere Reserve Assam mein hai. agastyamalai Biosphere Reserve Kerala aur Tamil Nadu dono mein phaila hai. isliye sirf pair 1 galat hai; isliye sahi jawab option (d) hai. [Q6]
- Galat kathan: Khangchendzonga - Himachal Pradesh; sahi matching is type hai: simalipal - Odisha nokarek - Meghalaya agastyamalai - Kerala - Tamil Nadu khangachendajonga - sikkim [Q7]
- A-iv, B-iii, C-ii, D-i - sahi matching is type hai: manas - Assam simalipal - Odisha agastyamalai - Kerala aur Tamil Nadu nokarek - Meghalaya [Q8]
- sahi matching is type hai: manas - Assam simalipal - Odisha agastyamalai - Kerala aur Tamil Nadu nokarek - Meghalaya [Q9]
- sahi matching is type hai: manas - Assam simalipal - Odisha agastyamalai - Kerala aur Tamil Nadu nokarek - Meghalaya [Q10]

- Galat kathan: Manas Meghalaya; manas Biosphere Assam mein located hai. baaki sabhi option sahi sumelit hain. [Q11]
- sahi sumelit list is type hai: (Biosphere Reserve) (state) simalipal - Odisha dihang-dibang - Arunachal Pradesh nokarek - Meghalaya kold deart - himachal Pradesh [Q12]
- (Biosphere) (place) simalipal 1. Odisha pachamadhi 2. Madhya Pradesh Nanda devi 3. Uttarakhand nokarek 4. Meghalaya [Q13]

**EXAM TRAP** manas Assam mein, Sundarbans (Sunderban) West Bengal mein aur pachamadhi (Pachmarhi) Madhya Pradesh mein located hai. Nanda devi abhi Uttarakhand mein hai; purane prashnon mein 2000 se pehle ki state-limit ke reason Uttar Pradesh likha mil sakta hai. milan-list mein adhunik Biosphere Reserve sthanon ke saath purana state-naam mila hua hai, isliye abhi bhugol mein sawal ekadam clear nahi hai. isi reason maujuda vivadit chihn (\*) surakshit rakha gaya hai. [Q14]

### 3. UNESCO Network & Man and Biosphere Programme

- Nokrek - nokarek Biosphere Reserve India ke jawab-purv mein garo hills par located hai, jo Meghalaya pathar ka hissa hain. jabki agastyamalai western Ghat mein, dehang debang Arunachal Pradesh ke apar siyang aur dehang Valley mein aur Nanda devi Uttarakhand mein located hai. [Q15]

**EXAM TRAP** simalipal (Similipal), Sundarbans (Sunderban), mannar ki Gulf (Gulf of Mannar) aur nilagiri (Nilgiri) charon UNESCO ke world Biosphere Reserve netavark mein shamil hain. 2025 mein shit marusthal (Cold Desert) ke shamil hone ke baad India ke UNESCO Biosphere Reserve ki number 13 ho gai. [Q16]

**EXAM TRAP** UNESCO ka human aur jaivamandal (MAB) program year 1971 mein developed/aranbh kiya gaya. sahi year 1971 diye gaye options mein present nahi hai. [Q17]

### 4. Area Ranking, Cold Desert & International Biosphere Facts

- UNESCO world netavark mein shamil Indian Biosphere Reserve mein mannar ki Gulf (Gulf of Mannar) ka area lagbhag 10,500 square km hai aur diye gaye options mein yeh sabse bada hai. Kachchh ka ran (Rann of Kachchh) national level par isse bada Indian Biosphere Reserve hai, lekin UNESCO world netavark mein shamil nahi hai. [Q18]
- Gulf of Mannar, Sunderban, Pachmarhi, Kanchenjunga - galph oph mannar ka Biosphere Reserve ke tahat sabse bada kshetrphal (10,500 km<sup>2</sup>) hai, iske baad Sundarbans hai, jo lagbhag 9630 km<sup>2</sup> area mein phaila hai. pachamadhi Biosphere Reserve ka kshetrphal lagbhag 4926 km<sup>2</sup> hai aur yeh Madhya Pradesh ke baitul, narmadapuram aur chhindavada districts ke kuchh hisson ko kavar karta hai. [Q19]
- unke geographical kshetrphal ka sahi ghatata kram hai - Nanda devi > pachamadhi > agastyamalai > panna > khangachendajonga. [Q20]
- himachal Pradesh mein located shit marusthal (Cold Desert) Biosphere Reserve ko 28 agast, 2009 ko India ka 16van Biosphere Reserve declared kiya gaya tha. 20 September, 2010 ko andhr Pradesh ki sheshachalam pahadiyon ko India ka 17van Biosphere Reserve aur 25 agast, 2011 ko panna (Madhya Pradesh) ko India ka 18van Biosphere Reserve declared kiya gaya. [Q21]
- Sri Lanka - bundala Biosphere Reserve shrilanka ke south-eastern tat par located hai. yeh pravasi birds ke liye ek international shitakalin site hai. [Q22]
